W. R. C. Re-Dedicates Itself To Care Of Rapidly Thinning Ranks Of Civil War Veterans

DES MOINES, Sept. 21.—Principles established by the Grand Army of the Republic form the foundation for all the work of its auxiliary, The Woman Relief Corps, for the betterment of humanity and America, Catherine McBride Hoster, president of the corps, declared today in her annual address before the national convention.

The G. A. R., the speaker said, always has been the first consideration of the W. R. C. and the work of the corps for the G. A. R. is a work of love whose greatest aim is to perpetuate the history made by the heroic soldiers of the Civil War so that posterity may know of the sacrifices made in preservation of the United States.

The President recommended that \$1,000 be set aside this year for financial aid of the Grand Army. Another recommendation was for \$5 a month pensions for Civil War nurses. Among other recommendations were two for extension of child welfare and Americanization work.

On June 30, the Woman's Relief Corps had a membership of 183,631; assets of \$55,722.81 and no liabilities.

PROPOSED SALE OF MILWAUKEE ROAD BEING RESISTED

(Associated Press Leased Wire.)
CHICAGO, Sept. 21.—A motion picture for the Chicago, Milwaukee and St. Paul railroad that is to be set for the sale of the property came before Federal Judge James H. Wilkerson today with a prominent group of bondholders prepared to resist it.

The bondholders group is known as the "Jameson committee" and its head, E. C. Jameson, New York insurance executive, was in court with Joseph S. Freinzhayen, former United States senator and chairman of the group, who is expected to testify. Nathan L. Miller, former governor of New York, is chief counsel for the bondholders.

Objection to the setting of a date for sale of the road is based by the protestants upon their contention that the "upset price" of \$100,000,000 suggested by experts as a minimum sale price is unfair and upon their opposition to the Kahn-Loeb plan of reorganization. They also ask delay which will permit congress to enact legislation which they contend may obviate the necessity of the sale.

Jameson will not appear as a witness, the court having denied him opportunity to tell his story of the railroad's financial difficulties.

PRISONERS TAKEN TO SALEM.

Deputy Sheriff Hodges left this morning for Salem, taking with him Vernon Howarth and Stanley Brookhart, who were sentenced yesterday to one year in the penitentiary. A warrant is out for the arrest of Floyd Finley, who was indicted jointly with Howarth and Brookhart, and who was sentenced to two years in the penitentiary, but paroled. He has since been accused of setting fires and Judge Hamilton has ordered his arrest and his appearance in court to show why his parole should not be revoked. He is expected to be given a hearing this week, and in the event his parole is revoked he will have to serve out the remainder of his two-year sentence, which was imposed in February.

Applied applicants for all branches of the service. They leave today for the coast to spend a part of the week and will again be in Roseburg on Saturday at which time they can be reached at the Post Office or the Grand Hotel. All branches of the service are open to the applicants, including the Philippine Islands, Hawaii, Panama, Alaska and the eastern coast.

MT. ANGEL COLLEGE DESTROYED BY FIRE

(Continued from page 1.)

the townspeople. The building was completed in 1904 and was said to be one of the best constructed buildings in the west.

The blaze was spectacular and the flames were visible for many miles up and down the valley.

No School This Year.

No accurate figures as to the amount of insurance carried was available today, but it is negligible as compared to the loss, it was announced by Father Dominic, priest of the Mt. Angel parish.

The loss on the buildings he estimated at \$400,000, and the \$600,000 remainder on equipment, articles in the museum, and manuscripts and books in the library dating back to the fifteenth century.

All thoughts of attempting to continue school this year were dismissed and the students who had gathered from all parts of the United States for registration are today making arrangements to return to their homes. The seminarians studying for the priesthood are being transferred to temporary quarters on the college dairy ranch on Crooked Finger Creek in the foothills, 17 miles east of Mount Angel, where they will continue their studies.

The college and monastery were first established at the foot of the hill and were moved to the present location after a similar fire in 1853 wiped out the old buildings.

Decision on what is to be done in the matter of rebuilding will be reached at a conference to be held this afternoon, it was announced.

PORTLAND, Ore., Sept. 21.—Archbishop Edward D. Howard left for the scene of the fire immediately upon receipt of the first news from Mt. Angel. Plans for the immediate relief of the famous old school would be discussed with Father Morris, the archbishop stated before his departure. He expressed the belief that ways and means would be found for rebuilding.

Flashes of Life

(Associated Press Leased Wire.)
MAMARONECK, N. Y.—Women have so few clothes and so many men use their old shirts to polish their automobiles that Isadore Kretzbaum, a ragman for forty years, has quit business; there are not enough rags to bother with.

PHILADELPHIA—American men are buying fewer clothes because of purchases of automobiles, radios, oil burning heaters, electric refrigerators and "what will you have" on the installment plan, retail clothing has been informed in convention.

BERLIN—More than 2,000 destitute artists of all branches are included in the army of Berlin's unemployed. Of these artists who are unable to find work 655 are actors, 389 painters, 233 opera singers, 102 sculptors and 89 writers.

Don't Spend

for foods without flavor

THE art of making meals attractive is in serving flavorful foods.

In breakfast oats, see that you get the Quaker brand. The difference in flavor is amazing.

Some 50 years were spent perfecting Quaker flavor. No other oats offers it to you. Yet the price you pay is the same.

Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed. Protein, carbohydrates and vitamins and "bulk" are thus combined in making Quaker Oats an excellently balanced ration.

MOVIE MAGNATE

AWARDED \$2,600 FROM AL JOLSON

(Associated Press Leased Wire.)
NEW YORK, Sept. 21.—A verdict for \$2,627.28 against Al Jolson, comedian, in the suit for \$74,956 for alleged breach of contract brought by D. W. Griffith, Inc., was returned by a jury in federal court today.

The suit resulted from an alleged agreement by Jolson to act in a motion picture to be made by Griffith. Jolson, however, after viewing a trial run of film, said he realized he would not be successful as a movie actor and refused to continue with the plan. He denied any contract ever had been signed. Griffith asked damages for money he claimed he expended in preparation for the film, which was to have been known as "Mammy's Boy."

(Associated Press Leased Wire.)
BRUSSELS, Sept. 21.—The engagement of Crown Prince Leopold, 24-year-old Belgian heir-apparent, to Princess Astrid of Sweden, 20, third daughter of the Duke

of Vastergotland, and niece of King Gustav, was officially announced today.

"Their marriage is entirely one of inclination," King Albert told a press delegation in announcing the news. Queen Elizabeth nodded approval of her husband's words.

"The prince and the princess," he continued, "met several times before her visit last month to Geirgion Castle. They are acting in complete liberty and independence, making their decision without interference from anybody."

CHILD SUFFERS BURNS FROM HOT WATER

Vivian, the 2 year old daughter of Mr. and Mrs. Bruce Steward of Springfield, was painfully burned about the face, chest and arms yesterday morning, when she upset a pan of hot water which was heating on a campfire where the party were camped while on a hunting trip at Dad's Creek between Glendale and Westfork.

The child was brought to Roseburg and medical attention was given by Dr. E. B. Stewart. While quite painful the burns are not expected to prove serious. Mr. and Mrs. Steward returned to Springfield with the child yesterday afternoon.

Aged Lighthouse Keeper Tells Story of Health Restored.

Many men and women endure a life of misery as S. H. Borland, a respected resident of Milwaukee, Ore., says: "With out good health a man's life is unbearable. Sooner or later he breaks down."

"I've had a narrow escape. I neglected my health, and grew so nervous I couldn't sleep. My stomach would not digest food and had to stick to milk and eggs only. I forced myself to this and even then was tormented by sharp pains. I was in constant misery."

"A friend told me about Tanlac and I began taking it. This wonderful tonic me up and made me a new man. Now, I eat everything without trouble. I sleep like a child. I'm almost 80 years old now, but feel stronger and better than in many years, thanks to Tanlac."

COUNCIL HOLDS SHORT MEETING

Aside from entertaining the proposition made by the Ellis Lodge concerning the purchase of Fynewar Island for park purposes the city council had a very mild session last night. The committee on fire and water reported that it had installed a new hydrant near the high school building in West Roseburg. The electric light committee recommended the installation of a light near the Peoples Supply company building for the benefit of the street cleaning department which operates the street flusher at night. Sidewalks were ordered constructed on Hamilton street, south of Rice street, in compliance with the petition of G. J. Runt. The matter of extending the pavement of Claire street, according to the petition of H. O. Pargeter, was authorized, the pavement to be 24 feet wide and of standard depth. Considerable time was spent in hearing the report of the engineer, who recently returned from a trip of investigation into the operation of sewage disposal plants.
