

Multiply this saving by 40

The average family, let us say, consumes about 40 cups of coffee a week. Consider the saving M·J·B gives you by its concentrated strength and richness. For you can use less of M·J·B to each spoonful and still have a rich, satisfying cup of coffee. Now multiply this saving 40 times each week—it counts up, doesn't it?

It is true you buy coffee by the pound but you drink it by the cup. So it's really the cost-per-cup that counts! And measured by this scale, M·J·B is the most economical coffee you can buy.

Put it to a week's test and see!

M·J·B

"—there's Economy in its Strength"

SIX PRISONERS WOUNDED DURING MUTINY IN JAIL

Women Tongue Lash Convicts Into Fury and Precipitate Fight With Guards.

(Associated Press Leased Wire.)
MEDIA, Penn., Oct. 13.—A mutiny among 196 prisoners in the Delaware county jail was subdued today after six of the prisoners had been shot by hastily deputized residents and police.

The prisoners, including a dozen women, attempted to destroy the interior of the jail after they had been liberated from their cells by "trustees" who had knocked off the locks of the cell doors with iron bars. Fires were started in several places.

None of the prisoners were fatally wounded in the volley turned loose on them by the deputy sheriffs and police.

A reduction of their food supply by the warden was given by the prisoners as the cause of their outbreak.

The outbreak followed a night of wild disorder, the authorities said.

There were 196 men and women crowded into the 65 cells of the jail. Among them were twenty young negro women who recently had been sent to the prison from the Sleighton farms for incorrigibles, where they were alleged to have attempted mutiny. This, the marshall Harvey, chairman of the prison board, was one of the causes of today's disorders.

The women, shouting, cursing and taunting the men prisoners all night, had aroused them, the officials said, to a point of savage fury. The five keepers were kept busy going from cell to cell trying to quell the fights and disturbances.

When breakfast was taken to the prisoners about 8 a. m., the seven "trustees" rushed from their cells and before the guards could draw their pistols had taken possession of the jail.

Arming themselves with iron bars, the seven men ran madly up and down the first and second tiers of cells, smashing the locks and liberating the other prisoners.

STEPHEN MILLER WILL CONFER WITH REGENTS TOMORROW

SEATTLE, Wash., Oct. 13.—Stephen I. Miller, former dean of

the University of Washington College of Business Administration announced today that he would confer with President Jordan of the regents in Everett tomorrow morning concerning his proposed appointment as President Henry Suzzallo's successor.

Suzzallo was suspended on indefinite leave of absence by the regents, when he refused to resign. He is contracted to the end of June, 1927.

Announcement was made today that regents will meet Saturday on the campus. Washington bankers in Seattle today on their return from a Los Angeles convention said that Miller had told them there that he had "made a momentous decision" relative to his future activities, and left at once for Seattle. He arrived here Saturday.

He is to depart tomorrow for New York City, his headquarters as an educational director of the American Institute of Banking.

In reply to an inquiry from Walter R. Siders, Pocatello, Idaho, Chairman of National Education association trustees, concerning Suzzallo's shelving, Seattle School Superintendent Cole said "I explained to Mr. Siders that of any change of the meeting place of the next convention would be very inadvisable."

Siders had intimated that the trustees might consider changing the 1927 convention city, which was to be Seattle, as a sequel to the regents action.

"He asked me whether Seattle entertained any hostility to education," Cole said. "I replied that the city is decidedly loyal to education and to the association."

Rev. Mark A. Matthews, who is programmed to tell at a mass Seattle protest meeting tonight what happened when three Seattle business men met with Governor Hartley on Tuesday, declared "of course we talked about the University and Dr. Suzzallo. We talked of nothing else for two hours, but we failed to accomplish anything."

Hartley was quoted as saying that Suzzallo was not mentioned and that the men were reporting on work they were doing for him.

ADAMS READ OUT OF G. O. P. BY KNOX COUNTY LEADERS

VINCINNES, Ind., Oct. 13.—Thomas H. Adams, publisher of the Vincennes Commercial, has been read out of the republican party by the Knox county committee for his accusations that there has been corruption involved in republican control of Indiana.

In declaring that Adams is not a republican the republican central committee of the county last night charged his "pretended cleanup is not in good faith."

"There has been an attempt made" the resolution read, referring to Adams' charge of a "tie-up" between D. C. Stephenson, former Ku Klux Klan dragon and of-ficials. In the face of the approaching election to cast a cloud upon the good name of the state, upon the integrity of its officials and the members of the republican party by means of statements, innuendoes and insinuations by Thomas H. Adams who misleadingly styles himself as 'republican editor.'"

PHYSICIANS TO MEET
The Douglas County Medical Association, composed of the physicians of the county will meet at the Umpqua Hotel this evening at 6 o'clock. Following a banquet Dr. B. R. Shoemaker will read a technical paper which will be followed by a general discussion.

From Reston—
Mr. and Mrs. Ivan Dyer of Reston were visitors city Tuesday, spending several hours trading and attending to business affairs.

From Myrtle Creek—
Mrs. L. L. Lathrop of Myrtle Creek was in the city Tuesday afternoon attending to business affairs and visiting with friends.

Divorce Granted—
Mrs. Ida Burgoyne, of Riddle, was granted a divorce from N. D. Burgoyne in the Oregon City court last week. She also will receive \$30 per month alimony.

Moving to Dallas—
Mr. and Mrs. Claud Ramsdell and family, Henry Hockstee and Jacob Cline, all of Looking Glass, were visitors in Roseburg for a brief time yesterday preceding their departure for Dallas, Oregon, where they expect to locate permanently.

Visit for Day—
Mrs. Gazley and daughter, Mrs. W. Fairbanks, of Gazley, were shopping and visiting friends in this city yesterday. Mrs. Fairbanks was formerly Miss Clair Gazley and was instructor of music in the Roseburg schools several years ago.

Back from Portland—
L. R. Chambers came back from Portland yesterday evening, where he went in the interests of Stubblefield's Top Dressing, a new product that is being manufactured here. Mr. Chamberlain says that he met with great success in placing the dressing on sale in the northern city.

Society to Meet Thursday—
The Woman's Missionary Society of the Presbyterian church will hold its regular meeting Thursday afternoon in the church parlors.

The Nervous of Him
What next? That's what a young matron, who lives in Logan, is wondering. She responded to the ringing of the doorbell the other day and on the porch was a one-armed man. "Please help me," he whined. The housewife looked in her purse for some change. She thought there might be a dime there. But there was only five pennies. "I'm sorry," she said, "that I haven't more change, but here's 5 cents." The man gazed at her stolidly. Then he turned away and without a word descended the porch steps.—Philadelphia Record.

Seemed Appropriate
The Women's Debating society was holding a meeting in the village hall at the subject under discussion was "Our Husbands."

The chairman arose and made the following statement: "What we want is some sort of organization for our husbands, and we would like a few suggestions."

"How about Our Dumb Friends' league?" inquired a member.—Gray Stories.

Little Really Known of Wild Animal Life

The cougar is, next to the wolf, the oddest feline among the wild thinkers, barring human savages, of course. A quirk is characteristic of the cougars (panthers, mountain lions, all one). They walk alone and alarm countless humans out of sheer companionship, with no less intention to harm. There are records of hungry cougars attacking and badly wounding children and men. In northern California a local doctor tells me he was nearly when a boy was badly clawed and a woman who went to his rescue was injured to the death. But these hunger (probably) attacks are balanced against many times more demonstrations of friendliness, like the cats that walk with late passersby in silent dark hours of metropolitan nights. We have been so eager to butcher the wild life, especially the nobles of the forest, that we have only the faintest understanding of the mental processes of the creatures. The humor of bears, the pride of the deer, the fancies of the cats, the exuberance and conscience of wolves—what do we really know about them?—Mr. Spears, in Adventure Magazine.

Why He Married Her

He said he married her because she loved her. She said she married her because he really understood him. His friend the biologist said he married her because he was tall and she was short, and he was blond and she was dark. His friend the psychoanalyst said he married her because she resembled his mother. The girl who had wanted him for herself said he married her because love is blind. The man who wanted her for himself said he married her because he wanted her money. But the real reason he married her was that she had squeezed his hand while they were sitting out a dance the night he proposed.—Exchange.

Island Never Had Frost

Although North Carolina often has several snowstorms in winter and cold snaps are common, there is one spot in the state where there never has been so much as a frost. This is Bald Head Island, at the mouth of the Cape Fear river, not far from Southport. It covers ten or twelve square miles and the growth is subtropical, says the Raleigh (N. C.) News and Observer. Nowhere have live oak trees attained such magnificence, and nowhere else do palm trees thrive without protection of some sort from the cold. The island is a veritable jungle with about as equable a climate as could be desired. It is never hot and never cold.

WOMAN ACCUSED OF MURDER TRIES TO RAISE BAIL

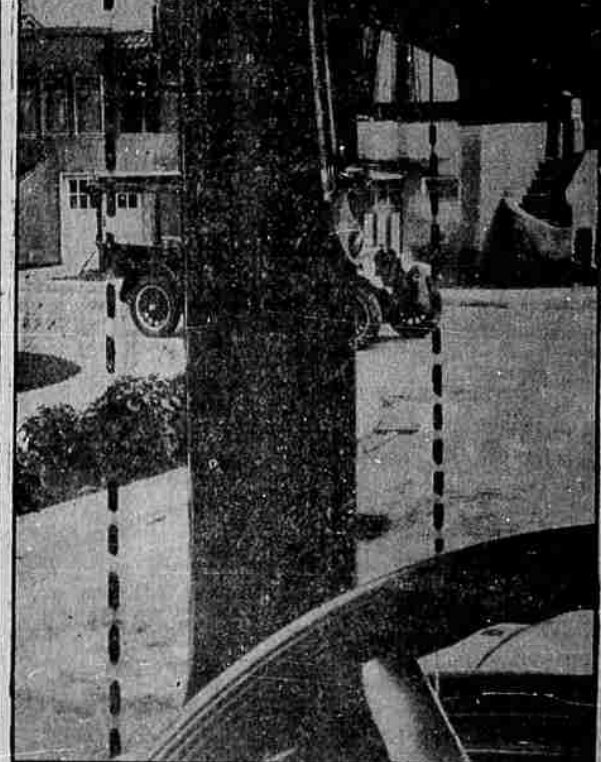

(Continued from page 1.)
ous persons residing here who have known the late Dr. W. G. McGee, whose death was followed by arrest of his widow at Tillamook, express doubt of the story that Dr. McGee was injured in an automobile accident in June of this year. They say they had not heard of the accident until his fatal illness, in August when they began to hear rumors that he had been injured by being thrown against the wheel of his car when traveling from Nehalem to Tillamook.

First indication that the death was being investigated was noticed when a Seattle investigator for an insurance company appeared here. Dr. McGee maintained bachelor quarters in the rear of his office and in early July he became ill within his sleeping quarters. He got word to a close friend, W. H. Thompson, Nehalem druggist. Thompson went to the physician's room and found him suffering from a greatly and was told by the doctor that he had been terribly ill all night. Thompson sent Dr. Tillamook for Dr. E. T. Boals, an arriving Dr. Boals decided to remove Dr. McGee to Tillamook where there were better facilities for caring for his patient. Dr. Boals found Dr. McGee suffering severe chest pains.

Dr. McGee returned to his Nehalem office only once after that. On returning to Tillamook he took his homeopathic pills with him. After his death these pills were returned to his Nehalem office, it was said, so the office would be complete for any successor to his practice. Residents here say that Dr. McGee had a rapidly growing practice and there was no indication of any domestic trouble, that he visited his Tillamook home frequently and was a student of good literature. He had been practicing here since 1918.

The news of the arrest of Mrs. McGee was a great shock to their friends in this vicinity.

A WIDE MARGIN OF SAFETY

The Dodge Brothers all steel closed car body presents an additional margin of safety due to the slenderness of its strong steel pillars. The dotted line represents the width of the ordinary pillar, which in this case would almost completely obstruct the view of the approaching car.
