MONTAG
Buffet Colonial Jr. Range with electric plate attachment; white, gray or Santone enamel trim; buffet shelf or drop door warmer; 15-inch or 18-inch oven.

MONTAG COLONIAL Ranges

A perfect baker

The Montag Range is famous for its baking. The large-size oven, surrounded by roomy heating spaces, is quickly ready for business. The sliding damper regulates the volume of heat going to the oven for fast or slow baking, and the triple asbestos insulation holds it at an even heat.

Easy to clean

Cleaning Montag nickel, smooth-surfaced iron or steel, and beautiful Montag porcelain enamel need only the touch of a damp cloth to be kept bright and shining. Montag Ranges are designed for practical cleanliness—no fussy ornamentalities, hard-to-clean corners—just smooth, broad surfaces.

French plate top

Something new and a decided improvement. One solid piece of polished, reinforced iron over the oven, does away with the heat-leaking crevices around the back lids. Being highly polished it may be used for cooking hotcakes, etc., just as is done in hotels and restaurants. A Montag innovation for Western cooks. French plate top or regular six lid top is optional on all Montag Ranges.

Quick firing

The drafts in a Montag Colonial are so arranged that the whole length and breadth of the grates have an even supply of air. This brings the fire up quickly. Then, too, the shallow Montag firebox holds the flames up close to the cooking surface, heating it rapidly so that it gives a good cooking heat.

Of finest materials

The materials which go into a Montag are known to be the best because these ranges are built complete, right in the great Montag plant. You get Montag iron castings, long-wearing Montag nickel-plate, and durable Montag enameling. Rust-resisting iron is exclusively used for Montag Range bodies and oven linings.

Beautifully enameled

All enameling is done in the Montag plant, and for smoothness, richness of color and durability is the equal of any American or foreign work. It is done on specially tested iron which, because of its purity, fuses perfectly with the enamel so that iron and enamel are practically one piece. Montag porcelain enamel may be had in pure white, a handsome gray, or the new Santone—a light creamy buff color originated by Montag.

Toncan iron oven linings

A special feature of Montag Ranges—Toncan iron resists rust, precluding probability of leaks for heat and smoke. It is particularly smooth and easy to clean. All seams are electrically welded, and the whole oven is so suspended as to give maximum even heat in all parts.

Buffer Shelf

Montag designed the buffet shelf for Western cooks because of its practical cleanliness. It also lends outstanding beauty to the proportions of the whole range. It is a modern thought in full keeping with Montag ahead-of-the-times designs. Buffet shelf or door high closet are optional on all Montag Ranges.

Wide and shallow Pacific Coast firebox

In the Montag firebox is incorporated Montag's 40 years of experience in building stoves in which may be used Western fuels with economy and efficiency. Its width allows ample space for hot water coils where wood is used for fuel. Its shallowness brings even a small fire in close contact with the stove top, precluding fuel waste in bringing the fire to cooking heat. The flames spread, too, allowing heat area for placing more cooking utensils directly on the heat.

Oven Thermometers

In line with Montag's progressive policy, all Montag Ranges are now

equipped with oven door thermometers, which are true and trustworthy. Thus baking is a matter of knowledge instead of guess work.

Electric or gas plate attachments

Practically every Montag range may be equipped with either gas or electric plate attachment, thus giving Montag owners the benefit of combination cooking facilities in convenient and economical form. The Montag electric plate attachment has two 9-inch 1000 watt elements, with 3-heat reversible switches.

Reservoir and Coil installations

Montag ranges may be equipped where desired with either reservoir or coils for hot water supply.

Well proportioned

The Montag Range is well proportioned—made to fit the average kitchen—just high enough, just low enough for the average woman's convenience.

A Montag Range saves money in fuel bills, saves work in cleaning, saves patience in uniformly good cooking results.

Montag ovens are conveniently sized for usual home requirements. Montag simplicity of design adds to the beauty and efficiency of Montag Ranges.

Wide Variety of Design

There is such a variety of style and price in the Montag line that every taste and pocketbook can be equally well gratified. The Montag Ranges illustrated only suggest this variety.

MONTAG
O. E. Colonial Jr. Range with enamel trim, roll door or drop warmer, 15-inch or 18-inch oven.

MONTAG
Colonial Cast Iron Range, full enamel in white, gray or Santone. Improved, porcupine fireback. Roomy oven.

WOMAN COULD NOT SLEEP
Her Mother-in-Law Knew A Remedy

Mrs. Belle Thompson, of Georgia, was in a very weak and run-down condition for four years. She had great difficulty in getting to bed and even then did not sleep soundly. She would wake up again and again. Besides this her appetite was poor. "My mother-in-law told me of Lydia E. Pinkham's Vegetable Compound and I have only used the Sanative Wash. It does me more good than the treatments. It keeps me on my feet to care for my children and I do most of my work. I feel it my duty to let you know how both of the medicines have helped me."—Mrs. BELL THOMPSON, R. 2, Roseville, Georgia.

From Camas—
Mrs. Wilfred Brown and family of Camas Valley were in Roseburg for a brief time Saturday afternoon shopping and visiting with friends.

To Glendale—
