FASCIST HOLD ON ITALY TIGHTENED BY NEW MEASURES

(Associated Press Leased Wire.)
ROME, Nov. 5.—Sweeping measures to protect the Fascist regime from the activities of its enemies were approved today by the cabinet, sitting under the presidency of Premier Mussolini.
The ministers adopted a provision making plots against the life, liberty and integrity of the royal family and members of the royal government and the state punishable by death.
They also approved penalizing by imprisonment, varying from five to more than thirty years, any effort by an Italian or foreigner to injure Italy in fact or by propaganda.
Membership in any organization against Fascism also will be punishable by heavy imprisonment. Nearly a dozen specific acts relating to direct or indirect activities against the regime will render the offenders liable to jail terms and perpetual interdiction from public office.
All passports allowing Italians to leave the country are annulled, with heavy penalties for attempted evasion.
Other provisions include: Revocation for an indeterminate period of the licenses of all newspapers antagonistic to the regime. Dissolution of all clubs and associa-

COOLIDGE WOULD KEEP BUTLER ON JOB AS CHAIRMAN

(Associated Press Leased Wire.)
WASHINGTON, Nov. 5.—President Coolidge sees even less reason for William M. Butler to retire as chairman of the Republican National committee, now that he has been defeated for re-election to the senate than before the election.
While it was made clear today at the White House that Mr. Coolidge had not discussed the matter with Mr. Butler, it was pointed out that he would now have more time to devote to the chairmanship than when he was occupied with his duties as a senator.
Insofar as the elections are concerned, the president believes the true test of national sentiment, to the degree that it could be furnished in an off-year election, was provided by the election to the house of representatives which reached into every district in every state, and not by the senate election, in which only one-third of the country was represented in the vote.

DRY LAW KNOCKOUT IN MONTANA HALTS STATE'S OFFICERS

(Associated Press Leased Wire.)
HELENA, Mont., Nov. 5.—Montana's state prohibition law enforcement officers, halted in their activities by the majority given the measure providing for repeal of the state liquor law, have been instructed to make no more raids and report no more arrests. Under orders of Attorney General L. A. Foot, who declared repeal of the state liquor laws makes conviction impossible when cases are called in the December term of the district court, the dry squad will devote its attention to cleaning up old cases.
Cases now before the courts which cannot be disposed of before December, probably will be dismissed inasmuch as there will be no law under which they can be prosecuted, the official explained.

GIRL DRIVER IS APPARENT VICTIM OF SPITE WRECK

(Associated Press Leased Wire.)
MEDFORD, Ore., Nov. 5.—The sheriff's office in its investigation of the accident on the Pacific highway last Sunday in which Miss Edith Myers of this city was seriously injured, when her sedan crashed into a phone pole, has come to the conclusion, that she was the "victim of a cruel jest, at best, and possibly an attempt to kill."
The driver of the "hit and run" car, is said by the authorities to have deliberately struck the Myers car, to have returned and shouted derisively at Miss Myers as she lay injured at the side of the road, and made no effort to assist her. The authorities are also investigating the report that Miss Myers declined to let one of the three men in the car act as an escort Saturday night, when he is alleged to have made threats.

At a wine tasting contest in Wiesbaden, Germany, it was found that, though hock is generally not believed to be preservable beyond 60 years, a large number of choices wines had retained their qualities over a hundred years.
