# LIVING PLANE IN U. S. HIGHER THAN LAST YEAR

## Volume of Production and Consumption Never So Big, Hoover Says.

## LABOR, BANKING O. K.

### Certain Crops Fell Below Points of Profit, But Farmers Purchased More Goods.

(Associated Press Leased Wire.)

WASHINGTON, Nov. 28. — By all the tests of economies, the material condition of the people of the United States, always high, rose during the last year to an unparelleled level, Secretary Hoover said today in the annual report of the Commerce Department.

The volume of production and consumption of commodities that constitute the luxuries and necessities of life was never higher, he declared, employment was general throughout the nation, and a satisfactory adjustment of price levels—except for some of the figures distribution of property among groups of the population then ever before.

This agricultural unbalance, in the existence of pirces for farmer's produce somewhat below the general level of commodity prices, and the failure of one or two industries, including the textile and bituminous coal operations, to enjoy full activity, were the only points Mr. Hoover noted as unsatisfactory.

"On the whole, the country was able to maintain the highest standard of living in its history," he said, "a standard far above that in most other countries of the world at this or an other time."

**Price Analyses.**

To substantiate his findings, Mr. Hoover analyses general price levels, using indices for purposes of comparison. Taking wholesale prices of 1913 as a basis, standing at 100, he found that general price levels in September of 1926 stood at 150½, this being the average for all commodities. The farm products index, made up in the same way, stood at 141, which difference illustrated the farmers' handicap. It was added, however, that constantly increasing sales of mail order houses showed advance in rural buying power.

In the matter of electrical power consumption, and general building, the country was found to have made new strides. Likewise, railroads were noted as increasing their traffic volume steadily and accomplishing many economies to make their earnings rise even faster than the traffic. Along with the increase of rail transportation, he cited the multiplication of motor vehicle carriage lines, now moving freight and passengers on a wholesale scale in every part of the nation.

**Foreign Trade Good.**

The country's foreign trade, hough showing a slight decline on the export side during the last fiscal year in dollars, has in reality accomplished a steady growth, Mr. Hoover said. A fall in prices during the period on the export commodities, occasioned an apparent loss, but the volume of exports, when quantity was considered, was larger than during the preceding fiscal year.

Financial and banking activities showed many new high records. In spite of the heightened demand for credits and the strain put on the credit system by the long continued requirements of great business activity, he pointed out that no disturbance to the orderly conduct of production and distribution of commodities had been entailed.

"Financial improvement abroad was almost general," he added. "Previous gains in public finance and currency stabilization were consolidated in most countries and further progress was made toward limiting the fluctuations in exchange rates, hitherto so destructive in international trade and finance."

# LOCAL MEN IN BIG TIMBER DEAL NEAR BANDON

BANDON, Nov. 29. — With the presence in Bandon this week of John Throne of the Umpqua Valley Bank of Roseburg and Wm. A. Leopard, Roseburg, realty dealer, one of the biggest timber deals of the year, was brought to conclusion. It was the purchase of 150 acres of cedar and fir by the Best-Laird company on upper Floras Creek in northern Curry county.

It is estimated that the tract contains 12 million feet of cedar and 30 million feet of fir, both of a quality that compares well with the best timber remaining in this section of the state. The timber land has been held in trust by a Boise, Idaho, bank and the sale was made through Mr. Bogard.

The Best-Laird company is composed of W. E. Best and Geo. P. Laird, both of this city. They have been operating in cedar for the past few years and have made some large shipments to Japanese buyers.

The cedar on the newly acquired tract will be logged first, operations to commence early next spring. It will require operations on a large scale and take perhaps the better part of three years.

Present plans for logging will take the cedar out via the Powers railroad. It will be necessary to build a truck road some 10 or 12 miles from the timber to Gaylord, which is the railroad loading station. Plans for taking out the fir have not yet been considered.

## SUTHERLIN COUPLE, WEDDED 55 YEARS CELEBRATE TODAY

Mr. and Mrs. O. A. French, of Sutherlin, are celebrating their 55th wedding anniversary today. A picture of the couple appeared yesterday in the Oregon Journal, together with the following account of the anniversary:

Mr. and Mrs. Orville A. French, highly esteemed resident of Sutherlin, will celebrate their 55th wedding anniversary at their home Sunday, and the occasion will be memorable by a bountiful dinner, at which a number of friends and neighbors will be present.

Orville A. French was married to Miss Miranda E. Wilson at Bloomingdale, Ill., on November 29, 1871. Following their marriage they resided for a number of years in Iowa Falls, Iowa, where they followed farming until 1912, when they came to Sutherlin and purchased a fruit orchard, which Mr. French continues to care for. They have one son, O. W. French, and two grand children.

Mrs. French is an active worker in the Women's Christian Temperance Union and for several years past has been president of the local organization.

**Helped by Lydia E. Pinkham's Vegetable Compound**

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound, as it helped her very much, so I tried it. After taking four bottles, I weigh 116 pounds. It has just done wonders for me and I can do my housework now without one bit of trouble."—Mrs. M. Ressinger, 10004 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose?

Wealth? It's a transient thing that brings its own cares.

Happiness? It's an elusive thing which we keep by giving away.

Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

# OREGON AGGIES FINISH SEASON WITH FINE RECORD

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 29. — "Best team seen in this section in years," was the comment of a man on the Oregon Aggie squad as the Orangemen trotted from the field at Milwaukee, Wis., after handing Marquette university a 29 to 0 defeat Thanksgiving day.

This was the last game of the year for the Aggies and at the same time a glorious windup to the most successful season in the history of O. A. C. football. The Orangemen won seven games out of eight played and had their goal line crossed only four times.

Strength of the Orange offense is shown by the fact that the Schissler men piled up 221 points to their opponents 30. This makes an average of 2 points a game to 4 against them. University of Southern California, California and Gonzaga were the only colleges to cross the O. A. C. goal line. The Aggies shut out Multnomah club, Montana, Idaho, University of Oregon and Marquette.

Thirteen players fought under the orange and black colors for the last time in the game against Marquette. These are Badley, Denman, Edwards, Balcom, Hale, Ward, Liebe, Olmstead, Schulmerich, Wernmark, Jim Dixon, Grider, and Dickerson. These lads were sophomores when Coach Schissler took over the football destinies of the Orangemen. They took a few on the chin their first year, but gradually became one of the best football machines in the country.

Here is the Aggie record for this season:

### FOOTBALL LESS FATAL

(Associated Press Leased Wire.)

NEW YORK, Nov. 29.—Football, with a toll of 8 deaths and 200 major injuries, proved less fatal during the season just closed than in 1925, when 20 youths were fatally hurt. The badly injured numbered only 50 in 1925, however.

## THEATRES

### LIBERTY THEATRE

**Ingram's New Picture His Most Ambitious Effort**

The name of Rex Ingram has been closely associated with the progress of the motion picture industry. Just past the thirty mark, Ingram has for the past seven years been an outstanding figure in the great industry which has made such sweeping advances in a very short period of time.

"The Magician," a powerful story from the pen of Comerset Maugham, is the latest product from this noted young director, and it will show at the Liberty theatre for the last times today.

Like "Mare Nostrum," this new picture was produced abroad on the original locations described by the author and with one of the most notable International casts ever assembled for any one picture.

When he produced "The Magician," Ingram fulfilled two ambitions. He had been trying to buy the story for three years, but had been unable to secure the motion picture rights from another company which owned them. Also Ingram had always wanted to direct Paul Wegener, the famous German actor, who has the title role in "The Magician." He had seen Wegener in "The Golem," which created such a sensation in America a few years ago and at that time declared that some day he was going to direct him in a picture.

### ANTLER'S THEATRE

**Beery-Hatton's Bag o' Tricks!**

If the laughter which rocked the Antlers Theatre last night may be taken as evidence, the knockout handed during the opening sequence of "We're in the Navy Now," spells the audiences, final verdict.

The whole gamut of the United States Navy's comical side is traversed in this superb Paramount feature. "We're in the Navy Now" sweeps over the prizefight arena with a rush of laughter and settles down to consistently exhilarating clean comedy in fun-infested scenes aboard an army transport bound for France.

As a pair of "goofy" gobs, the two stars—Wallace Beery and Raymond Hatton, zig-zag through the Navy's intimate life in riotously funny fashion. The company includes Chester Conklin, as a transport captain; Tom Kennedy in the role of a petty officer; Lorraine Eeason, the heroine; and Donald Keith, radio operator.

As a comedy cast—that coterie of artists is mighty hard to beat. "We're in the Navy Now" hasn't missed a single laugh situation. It lands with a punch that will delight every ex-service man. It is just as truthfully funny about the Navy as "Behind the Front" was of the trenches and—it's even richer in comedy. Edward Sutherland, whose capable direction brought doughboy life to the screen in "Behind the Front," directed this new picture.

# A THREE DAYS COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

## The Trowel and Float

No. 17 Monday, November 29, 1926. Vol. 1

The Trowel and Float comes to you not so much to make you think as to make you smile, and of course a few words about our products.

—

We often wonder if there are locks to fit all the keys that some men carry around with them.

—

Dave Busenbark took a green farm hand out to the field and started him to plowing. Two hours later the hand came to the house, completely exhausted. "How do you expect me to hold that plow, with two big horses tryin' to pull it away from me all the time?" he demanded.

—

**Philosophy of 1926**

No woman ever won a bridge prize that was as good as the one she gave.

—

You don't buy coal for ornamental purposes. We don't claim Royal Utah Coal is particularly pretty. But we do claim it's full o' heat, and that's what you are interested in.

—

District Attorney Guy Cordon drew his chair up near J. O. Watson last Friday night at the Elks club to tell him the "latest" story. Jim listened clear to the end. Then he reached in his pocket and brought out a small note book. "See that book?" he said. "Well, 30 years ago I started to make note of all the good stories I heard. That one you just told me is the first one on the list!"

—

For a real stucco job we invite your attention to the Barker job which has just been completed. We think it is one of the nicest looking jobs ever put on in Roseburg. It is California Stucco put on by F. E. Warner, Ray Roberts and Webb Penny. This material has also been used on such jobs as the Lockwood Bldg., Roseburg Super Service Station and Senior High School.

He thought his foot was on the brake
But it was on the gas.

Every day we have a chance to buy new merchandise. But with every order we place, we always ask ourselves the question: "Do the people of Roseburg want it? That's the test. In other words, you're doing the buying.
