NATIONAL GUARD COMPANY PLANNING FOR BUSY YEAR

Company D, 162nd Infantry of Roseburg, is laying plans for the biggest year of its history. It is the intention of the officers of this company to recruit the company to full peace-time strength and make the year's program so very interesting that a waiting list will soon be in order.

Several new officers have been added to the company roster, all of whom have had over-seas training and experience. These new men are Lieutenants Alvin Knudtson, Will H. Gerretsen, Jr., and Captain Walton Osborne attached. Several other men of over-seas experience have also recently joined the company. Lyle Marsters will continue his former position as company commander.

This company is considerable of an asset to Roseburg from the standpoint of payroll as the members draw and bring into Roseburg $15,000 per year. The pay to the boys attending the Monday night drill period ranges from $1.20 to $2.80, depending upon length of time served and rank.

The two week's summer encampment this year is to be held at Gearhart beach near Seaside, and a very pleasant camp and vacation will be had by those who attend in addition to the excellent training and field experience, athletic events, hikes, trips, and hygiene lectures which will all be a part of this summer camp.

There are many benefits to be obtained from an organization of this type to a young man, many of which are other than military. If he enjoys shooting there is unlimited opportunity for this, of all descriptions at government expease as the government maintains within two miles of Roseburg a rifle, pistol and machine gun range. Athletics are always given a prominent place in the company program both in the Roseburg schedule and in summer camp. At present a basketball team is functioning very satisfactorily, having defeated the Medford team in their last game. A summer's vacation at the beach on pay is also included in the year's program.

The company maintains locker rooms, a reading room, and a billiard table at the armory which are open to members of the company at all times.

The officers of the company are at all times attempting to make the work, social events and training as interesting as possible.

Any young man interested in joining the company may do so by going to the armory on Monday nights or by getting in touch with Captain Marstors or officers and men of the company.

LAURELWOOD TO GET SIDEWALKS AT EARLY DATE

(Continued from page 1.)

poleon Rice, Dr. A. C. Seely, and A. J. Lilburn.

Sidewalks Favored

A talk in favor of the sidewalks was made by Carlos Page. Mr. Page called attention to the congestion of traffic, which he admitted occurred only as school was taking up or dismissed. At such times, he declared, the lives of the pupils are endangered by careless driving and by the great number of cars passing over the streets. 108 cars passed in a period of 35 minutes he told the council. The auto drivers, he stated, are entitled to reasonably safe driving conditions while pedestrians should be provided a safe place to walk. In the present financial condition of the school district, he said, it will be many years before the Harvard Avenue entrance to the school grounds can be opened, and in the meantime some way of reaching the school should be provided.

Walks Recommended

The street committee, which has had the matter under consideration submitted the following report:

"With reference to a petition received some weeks ago requesting that a sidewalk be constructed from the West of the Oak Street Bridge through Laurelwood to the new high school, the committee has made a thorough investigation in this matter and find that while there is considerable opposition, mostly on the part of the residents of Laurelwood against the construction of a sidewalk, there is, however, a real necessity for a sidewalk leading to the new high school.

"There is no walk there at the present time and all pedestrians, pupils, and others going to and from the school have to walk in the street where they are more or less endangered by cars.

"We therefore recommend that a sidewalk be constructed in accordance with the city ordinance governing the same from Military Avenue along the east side of Madrone Avenue to Chapman street, thence along the North side of Chapman street to the high school.

"Also that the large tree located in the center of Madrone Avenue, near Chapman street, be removed as we consider it dangerous and an obstruction to traffic.

"Respectfully submitted
"S. L. KIDDER
"F. P. CLEMENS
"G. W. YOUNG
"Street Committee."

Other Business Light

Aside from the sidewalk matter the council had little important business for consideration.

The resignation of Joe Frederickson as night fire truck driver was submitted and referred to the committee on fire and water.

A communication from Fred Walch, claiming that an error has been made in a property description and a lein placed against his property when it should be on a corresponding lot in an adjoining block was ordered investigated.

An ordinance levying the assessment on the Block 53 sewer was placed on first and second readings.

An ordinance was ordered prepared to prohibit the peddling of apples at the depot, as considerable protest has been made by the merchants in that section.

Plans were presented for the construction of a new bridge over Deer Creek. The state has offered to prepare the specifications if the city will furnish the necessary engineering information and this was submitted to the council last night. The council was asked to designate the width of the bridge, which was fixed at 42 feet. There is no intention to immediately build the bridge, unless necessity demands, but as the present structure is rapidly becoming unsafe the council is looking forward to the time when a new bridge must be provided. As it is possible to secure state plans with little expense at the present time it was deemed advisable to secure the specifications now and have everything in readiness when the time comes to build.

The following bills were allowed:

Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs.

Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

NATRON AUTOIST, IN MYSTERIOUS ACCIDENT, DIES

(Associated Press Leased Wire.)

EUGENE, Ore., Mar. 8.—Virgil Miller, 23, of Natron, died here last night at a result of a mysterious automobile accident late yesterday afternoon. The accident occurred when Miller drove his car into another machine parked beside the road east of Springfield.

There were no witnesses to the accident.

People in the house near where the accident occurred rushed out when they heard the crash, and found Miller lying under the wreckage. He was brought here in an ambulance, and died later at a hospital.

TEMBLOR THROWS THRILL IN SALEM FOLKS' REUNION

(Associated Press Leased Wire.)

SALEM, Ore., Mar. 8.—Two parties of prominent Salem people, each starting around the world in different directions, with plans to hold a meeting and reunion at Kobe, Japan, held the meeting and reunion under thrilling circumstances. Dan J. Fry, president of the First National Bank here, with Mrs. Fry were aboard the steamer California, which was rocked by the quake.

Mr. and Mrs. William McGilchrist, Jr., Mrs. E. C. Cross, Mrs. Andrew Hofer and Mr. and Mrs. T. B. Jones, all prominent residents here, made up the party aboard the Empress of Scotland, also in Kobe harbor at the time.

The Fry party on the California left last month from Los Angeles for the westward trip, while the other party left last August from New York.

When it was discovered that the schedules crossed the plans were made for the meeting in Japan.

Mrs. Kittie Harboard Graver, sister of Mrs. Fry, stated today that no word had come to her from the party there other than that received in the press dispatches.

MARKET RATINGS

(Associated Press Leased Wire.)

PORTLAND, Ore., March 8—Processing machines are working full capacity and egg storage is gaining momentum in the local market. Heavy receipts are readily being absorbed and the market continues to show a steady tone at ruling prices.

Receipts over Sunday dropped down to 889 cases but yesterday and today they have run better than 2200 cases. Storage holdings are now up to 4573 cases. No change is made in quotations on the local dairy exchange for the day.

The local butter market is showing a mixed tone with standards and firsts off a half a cent on the exchange while prime firsts are up a fraction at 43 cents. Extras held unchanged at the 43½ cent level

PORTLAND, Ore., March 8—Wheat: hard white, bluestem, baart, northern spring $1.34; BBB hard white $1.35; federation, soft white, western white, $1.33; hard winter $1.31; western red $1.30.

PORTLAND, Ore., March 8.—Wholesale prices:

Butter unsettled. Extra cubes, city 43½; standard 43c; prime firsts 43c; firsts 42c; prints 48c; cartons 49c.

IN BANKRUPTCY

In the District Court of the United States for the District of Oregon. In the matter of John Brandon, Bankrupt.

To the creditors of John Brandon, of Winchester, in the County of Douglas, and district aforesaid a bankrupt:

Notice is hereby given that on the 2nd day of March, 1927, the said John Brandon was duly adjudicated bankrupt; and that the first meeting of his creditors will be held at the office of the undersigned referee in Roseburg, Oregon on the 21st day of March, 1927, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

Dated March 8th, 1927.

C. L. HAMILTON,
Referee in Bankruptcy.

79 Years Young —Thanks Tanlac

Aged Lighthouse Keeper Tells Story of Health Restored.

Many men and women endure pain needlessly. As S. H. Borland, a respected resident of Milwaukie, Ore., says: "Without good health a man's life is unbearable. Sooner or later he breaks down.

"I've had a narrow escape. I neglected my health, and grew so nervous I couldn't sleep. My stomach would not digest food and had to stick to milk and eggs only. I forced myself to this and even then was tormented by sharp pains. I was in constant misery.

"A friend told me about Tanlac and I began taking it. This wonder tonic toned me up and made me a new man. Now, I eat everything without trouble. I sleep like a child. I'm almost 80 years old now, but feel stronger and better than in many years, thanks to Tanlac."

Tanlac, nature's own remedy made from roots, barks and herbs, is sold by your druggist.

COOLIDGE ASKS NEW PARLEY ON NAVAL LIMITS

(Continued from page 1.)

tance. The Japanese answer, in particular, may be delayed several days as the sessions of the Japanese diet now are approaching a close.

At the White House it was disclosed that President Coolidge regards the tentative advices thus far received from abroad as promising for the success of the three-power plan.

The president believes the five-power plan would have been more promising in practical results than a three-power project could be, but he is anxious to do the next best thing is a five-power meeting is impossible.

England Willing

LONDON, March 8—That the British government will accept President Coolidge's new proposal for a three power naval limitation conference at Geneva, with Japan as the third party, was stated in government circles today to be a foregone conclusion.

An official expression of Downing street's view could not be obtained because the actual invitation had not reached the foreign office.
