BY GRACE CARROLL

All Contributions to this Page—Society, Women's Clubs, and Personals—Should Be Telephoned to the Society Editor by Friday of Each Week.

A diversity of entertainments and amusements following one on the heels of the other has occupied the attention of society folk the week past and despite the blustery weather there has been the showing of a few new smart clothes for the several delightful afternoon affairs of the past few days.

Notably interesting and charming among the varied affairs of the week was the reception and tea on Friday for Mrs. L. V. Wallace of Monte Vista, Colorado, who with Mrs. Wallace in a visitor in the city, at Merline Place, the home of Mrs. George A. Bradburn. A large number of society folk were bidden to the affair. Mr. and Mrs. Wallace are being extensively feted during their visit in Roseburg.

Another visitor, whose coming is anticipated with interest, is Mrs. J. G. Frankel, president of the State Federation of Women's Clubs, who will be the guest of the Roseburg Woman's Club at their meeting on Tuesday, April 5. A most interesting program has been prepared for the afternoon. Mrs. Frankel will be the honor guest at a luncheon to precede the meeting.

There are several additional events of interest for the new week and there will continue to be at intervals until Easter-tide when entertaining will break out anew. Society folk will find much of interest in the concert to be given by Emilie Lancel at the First Methodist church on the night of April 4 under the auspices of the Music Teachers' Association and the Helpline Conservatory of Music. The senior class of Roseburg high school will have something worth while to offer in the presentation of their annual play, which is this year "Grumpy," to be given on April 8.

Several things are developing for later spring, one of the most attractive to be the annual Easter Ball to be sponsored by Umpqua Post of the American Legion Auxiliary on Easter Monday.

Plans are fast going ahead for a musical comedy which the Roseburg Woman's club will give in May, the comedy to be called "Hello There." The club has secured the services of Miss Rosella Zura of Chicago, who will arrive the middle of this month to start directing the rehearsals.

National Music Week, May 2 to 8, will have as an opening feature the presentation of the cantata, "The Great Light," by the Roseburg Choral Society. It is hoped by those having charge of the observance of the national week in the city that all members will renew their interest in the work and keep music week in the city a memorable and successful enterprise. The cantata will be open to the public and only a small offering will be taken to assist in the defraying of expenses.

This much seems to be promised, that there is a busy month in the offing with clubs active and several conventions not far off.

How Grumpy solves the mystery and finds the diamond provides a very interesting story. Cyril Maude, one of the greatest of English actors of today, created the very lovable and delightful character, Grumpy. Easter Answers by Smart Paris Hatters

Germaine Finds Three Interesting Models which Move Her "to Scrap All Previous Editions of Millinery"

"Seductive grayish rose" felt.

Strands of green grosgrain—for sport.

Straw, with green flowered crown.

Paris, April 2.

Yesterday, Aunt Louise and I lunched together and though I am sure both of us had honorable intentions not to run my poor father in debt, each of us felt a desire to express ourselves in spring millinery.

It all began harmlessly enough, talking casually about Easter which is now at least a month away, and before we realized it, we had cut luncheon short without dessert in order to have a long afternoon for shopping. And we really got very much in the spirit of spring. For hats are ever so interesting, this year, and though they don't seem radically different from what we have been having, they are enough to make you want to scrap all previous editions of millinery.

Ordered Three

I fell shamelessly from grace and ordered three hats. One that intrigued me particularly was at Marie Aphonsine's. It is of felt in the most seductive shade of grayish rose, upturned in front and pinched in on the crown, and at the side was a lovely pompadour effect of even mode faded tulle.

My second defeat occurred at Suzy's. There I found a sport hat that just matched in color and feeling my new green sport dress, and I felt there was nothing to go about the matter but bring together these two kindred garments.

This one, a photograph of which I am sending you, is made of green grosgrain ribbon, put together with a lace stitch in silk that is just a shade or so lighter. The trim turns down all the way around and the crown can be folded slightly or worn plain—I think I shall wear it plain.

A sport hat not relieved of its plainness in some way, always seems to me to lack something. And this one, while sporty in line, is very feminine in treatment. It will be very attractive with white dresses, or I could wear it with my navy blue suit if the desire possessed me.

But of course, I realized I didn't want it for my suit at all when temptation knocked for the third time at my door and found me saying, "Yes, be sure to have it ready in a week," to a third model which had its own scart, which I, too, had to have.

Blue and Gold

It is made of black taffeta, with a crown of Roman striped ribbon and a band of black tulle ribbon about the crown. All the nice shades of blue and gold that I particularly care for are repeated in the colored section, and the scarf is a real joy in those gorgeous shades—I needed a scarf anyhow.

You can see that I burst out into color, and greeted spring in its own language. So did Aunt Louise. She surprised me by forsaking felt and buying a straw model in green with a closely fitted cap of felt in the front and an extension of flowers further back on the crown—the flowers are of light and dark shades of green. Across the face is a tiny insert of green grosgrain ribbon. It is very stunning on Aunt Louise because she has the strong type of features that can be treated so unconcerningly, and never mind at all. Love makes this sort of millinery marvelous.

I noticed that many of the new bangkoks and felt hats are up in the front and trimmed across the back with a flat bow or some flat arrangement of velvet. Yet I saw ever so many that were up in back and down in the front and folded at either side of the brim to accent the side ever so slightly. I did not see many large hats, possibly because we did not look for them. Large hats are nearly always made up for American trade since French women do not take kindly to them.

Why Worry Now?

I have not yet broken the news to father of my afternoon's extravagance. The hills will not be in for a few weeks, and no use spoiling his days before I have to. I have no desire to make him unhappy now since he is in such a pleasant mood and has all but promised to take us to Spain for Easter. You know he is the dearest thing in the whole world, even though we disagree slightly as to the amount of money needed to keep an unmarried daughter from looking too pitiable. All my love, GERMAINE.
