TOOTH EXTRACTION BRINGS 1ST MIRTH AFTER 35 YEARS

TOKYO, April 21.—After 35 years without a smile, a gleeful or a hearty laugh, Taji Takaki, a Japanese resident of Nagano, is now one of the happiest and heartiest laughers of the countryside.

When Takaki was 9 years old he fell from a persimmon tree and landed on his jaw. Thereafter he could not open his mouth. Food in liquid form was given him through a hole in his teeth.

A severe toothache led to an operation and its extraction at a Red Cross hospital. Takaki opened his mouth and emitted roars of laughter, removal of the tooth having restored the functioning of his jaw.

CROP OF TOURISTS BRINGS MILLIONS INTO MICHIGAN

LANSING, Mich., April 21.—With the first breath of spring Michigan is bristling up a stock in trade which brings millions of dollars a year to the state—its tourist resorts.

Michigan has 53 state parks, more than any other state. All but three are situated on water. There are no "keep out" signs, and the only restriction on visitors is that they do not destroy property.

The growing tourist army left last year in Michigan an amount estimated at \$250,000,000, and the state counts its resort trade second or third among its assets.

MARKETS

PORTLAND, Ore., April 21.—Demand for butter and eggs coming through the local wholesale market continues good and prices today are firm with yesterday's quotations on all grades. \$40 additional cases of eggs were stored yesterday, bringing the total local holding to 34,669 cases. Butter storage stood at 5,734 cubes at the beginning of the day.

Trade and prices in fresh country meats were steady and unchanged generally in today's early trading. Poultry trade also was steady except that broilers showed a weakness to 25 cents per pound for medium choice offerings.

With the increasing supply of new potatoes coming into the local market consumers demand for old stocks seems to be declining and the light movement reflects a weaker feeling in most quarters.

The tariff on cherries imported was formerly 40 per cent ad valorem and this was reduced to two cents a pound. The cherry men of Washington and California are united in a plea to have it placed at three cents a pound.

new crop: Texas Giants, 6 to 8c per pound.

LUMBER SALES AGENCY FORMED AT LA GRANDE

LA GRANDE, Ore., April 20.—Organization of the Eastern Oregon Lumber Sales company, a lumber distributing firm, was completed here today with headquarters in La Grande and a general sales office in Kansas City, Mo.

The new concern will handle the products of the Grande Ronde Lumber company of Medical Springs; the Stoddard Lumber company and the Oregon Lumber company of Baker; the East Oregon Lumber company, of Enterprise; and the Bowman-Hicks Lumber company and the Mount Emily Lumber company of La Grande, effective about July 1.

STATE PLANS LAST SMASHING BLOW AT DEFENSE OF DOBBS

(Associated Press Leased Wire.)

SEATTLE, April 20.—A last smashing blow at the defense in the trial of Dr. C. C. Dobbs, Kirkland dentist, accused of the murder of Letitia Whitehall, school girl patient, was planned by Prosecutor Ewing D. Colvin, in superior court here today.

At the same time, George H. Crandell, defense attorney, indicated plans for a counter-offensive, stressing three major points to prove the innocence of Dr. Dobbs. Defense witnesses will prove, Crandell said, that the girl was seen alive by at least two persons after she left the dentist's office; that Dobbs can account for his whereabouts for practically the entire evening of October 30 when the girl disappeared and that pivotal state witnesses were mistaken.

Professor William M. Dehn, University of Washington chemist who analyzed the contents of the slain girl's stomach, and Professor C. C. Todd of Washington State College, were to be the principal witnesses. Their testimony, Colvin expected, would climax the state's case.

A few other state witnesses also remained to be called, but their testimony was regarded as less important.

The state has not yet definitely established the exact cause of the girl's death. Dr. P. West, city bacteriologist, expressed the opinion on the stand yesterday that she was killed by strangling. Dr. William J. Jones, county coroner, also included the dental anesthetic the state contends was administered by Dr. Dobbs as a cause of death, and Deputy Coroner W. H. Corson stressed the importance of the effect of the anesthetic.

CHINESE COMMUNISTS LOSE THEIR HEADS

(Associated Press Leased Wire.)

SHANGHAI, China, April 20.—Six prisoners described as communists and including the head of the Chinese seamen's union, were executed today at the national (Cantonese) headquarters in the native city of Shanghai.

This brings the total number of agitators executed since the moderates began their drive against the Reds to over 100.

Other prisoners are awaiting execution.

A mass meeting held in the native city today advocated aggressive measures against the communists. A resolution was adopted supporting the newly formed moderate government under Chiang Kai-Shek at Nanking and demanding the expulsion of all communists from the Cantonese movement. It also called for the arrest of George Hsu-Chien, minister of justice in the Hankow (radical) government; Teng Yen-Ta, chief of the political bureau there, and Michael Borodin, the Russian, who has been acting as adviser to the Hankow regime.

The resolution recommended the dispatch of a telegram to Moscow,

capital of Soviet Russia, declaring that Borodin, who was appointed as adviser by the late Sun Yat Sen, had used his position to stir up dissension.

WOMAN TELEGRAPHER HAS SERVED 54 YEARS

NEWARK, N. J., April 21.—Claiming the distinction of being the oldest woman operator in the country, Mrs. Martha E. Donk, telegraph operator and ticket agent at this station, celebrates the 54th anniversary of her service this month.

Mrs. Donk became an operator for the New York Central in 1873, when she was 15 years old, and was transferred to Newark the next year. Locomotives in those days were still burning wood and the fastest train rarely exceeded 20 miles an hour. The sale of more than one ticket a week to New York City was very unusual.

THE IRON MONGERS

ENGLISH SOBRIETY IS WORRYING HOP GROWERS

CANTERBURY, Eng., April 21.—Hop growers are up in arms because Britishers don't drink beer. Beer consumption has fallen off to such an extent that the hop growers fear over production this year, and have proposed restrictive measures to protect the industry.

The situation has become so serious that the English Hop Growers Limited, has circulated its members to the effect that if the society's reiterated warning to restrict hop growing is not supported the directors will move for liquidation of the society and all its stock.

TWO WOMEN RUN 200-ACRE KANSAS FARM

DEVON, Kas., April 21.—Most women who take men's jobs do so in city offices, but Mrs. B. E. Butler and her daughter, Mrs. H. Walker, are doing men's work on a 200-acre farm near here owned by the former.

For 20 years they have milked nine cows daily and sold the product to a condenser. Part of the farm is rented out, and in this way a feed supply is obtained. Mrs. Walker wears overalls but will not bob her hair because she says she likes to look feminine when she goes to parties.

Pure whole milk and it's pasteurized. Roseburg Dairy. Phone 168.
