Mr. Leele has a home here and is looking after interests while in the city. With Mr. and Mrs. Eugene Prince and family, Mr. and Mrs. Leele and family motored to the Oregon Caves for Sunday and Monday.

Really, there is Nothing Perplexing about deciding on an Oil Burner

The selection of an oil burner is a process of simple thought. You know the features you want. Simply check what you want against what any certain burner offers you and when you find agreement—buy. This simple process has brought hundreds of home owners to Nu-way in the last few months. Sales have been more rapid than in any past year of Nu-way history.

Size

You want a burner of the right size for your needs. Nu-way offers a range of sizes and capacities that make it the efficient burner for buildings from five-room bungalows to fifty-apartment structures.

Simplicity

You want a simple burner, one that responds with sureness to automatic control and one that has but few places where any weakness can ever develop.

Nu-way is the simplest burner made in which are embodied the four fundamental principles governing perfect combustion of oils.

Safety

You want a burner not only safe but one that can cause you no annoyance. Nu-way is listed as standard by Underwriters' Laboratories. Not only that but it has devices that prevent any chance of delayed ignition with its attendant "back fire" and any chance of ruining your basement with oil leaking from the burner.

Long Life

Simple and free from vibration

Nu-way

Roseburg Plumbing and Heating Company

324 North Jackson St.

Roseburg, Oregon

Phone 151

Listed as Standard by
Underwriters Laboratories

the Nu-way enjoys a long life of service. Long life is assured, too, by the quality of accessories—such as fuel feed and ignition system—which are made by firms standing highest in their respective fields.

Finish

Nu-ways all are excellently finished but there is a DeLuxe finish that fits Nu-way harmoniously into any basement, no matter how lavishly furnished. This finish—highly polished brass and nickel and porcelain enamel in Dutch Blue or Ivory, is somewhat higher in cost than the standard and is optional.

Come In

Come in and see this simple burner, that will keep your home heated without labor, dust or ashes, within a healthful range of two degrees, despite the weather outside. Your neighbors are going to enjoy Nu-way comfort and ease this winter. Why don't you? Phone or come in, today.

The McCormick-Deering Engine WILL LAST A LIFE TIME

The removable cylinder, which is different from other engines, with new piston and rings can be replaced for about one-tenth the cost of a new engine.

Sizes 1 1/2, 3, 6 and 10 h. p.
