Figure It Out For Yourself

The chances are good that if you have been keeping house in an apartment or a cottage you have paid out enough in rentals since you have been married to have built a good home, and you don't have a thing in the world to show for it. Just figure it out.

A Chinaman, doing a hauling job for a building material dealer in San Francisco was informed that he could not get his money until he had submitted an itemized statement. After much meditation he evolved this bill: "3 comes and 2 goes at 4 bits a went—\$3.00."

Dr. H. C. Church is building a garage—that is—Ben Chilson is doing the work and Dr. is doing the bossing. Dr. admits his part of the work is the hardest.

An Itemized Bill

An old church in Switzerland was in need of various repairs, so the authorities called in, among others, a painter to touch up the paintings. When he presented his bill, payment was refused because it wasn't itemized, so he took it back and here's the corrected bill as submitted:

"For correcting the ten commandments, combing the Pentecost Pilate and putting new ribbons on his hat.....\$ francs

Putting tail on rooster of St. Peter and mending his comb 4 francs
Replumbing and sliding left wing of Guardian Angel.....6 francs
Washing High Priest's Servant.....5 francs
Renewing Heaven, adjusting stars and cleaning up the moon.....7 francs
Brightening up the flames of Hell, putting new tail on the devil, mending his hoof and doing several odd jobs for the damned.....12 francs
Touching up Paragatory and restoring the lost souls.....7 francs
Mending the shirt of the Prodigal son.....3 francs
Total.....53 francs

Certain-tyed paint-sales were excellent last week, among those painting and redecorating were B. A. Itorback at Garden Valley, C. E. Mainfield on Winchester St. and E. K. McLendon on his E. Second Ave. property.

HONEY-DEW FROM TREES REMOVABLE FROM CARS

The honey-dew dripping from the leaves of shade trees on sidewalks and cars in some Oregon towns is caused by the aphids, according to A. L. Peck, superintendent of the state college campus. The insect sucks the sap from the tree and secretes a sugar solution on the leaves.

"Honey-dew is slowly soluble in warm water and thus can be removed from automobiles if caught early," says Professor Peck.

"The aphids is fought by spraying with black leaf-hopper nicotine solution obtainable from local dealers. The solution is diluted to the strength printed on the container. It is a contact poison and must hit the insect directly, necessitating thorough spraying. The first spraying should be followed by others when aphids are flying.

"A natural check is a parasitic fly which lays its eggs on the aphids. The young flies in hatching ultimately kill the aphids. Cold spring weather retarded the hatching of the flies this year. Nature was thus thrown out of order and the aphids multiplied very rapidly."

"Clover mildew has come to Oregon to stay," says H. P. Baras, plant pathologist of the Oregon experiment station. "Infections in southern and eastern Oregon, especially in the irrigated sections have caused many inquiries for the clover mildew treatment. Applications of dusting sulphur will kill the mildew. In most cases this is not necessary until after the first mowing."

taken by Benton citizens in an effort to obtain executive clemency for him in case he aids the state in clearing up mystery surrounding several bank robberies and other crimes attributed to the Birger gangsters.

In the trial just ended Birger was charged with the planning the killing of Mayor Adams, whom the young chief, contended harbored the rival Shelton gang in West City. Newman was alleged to have been Birger's advisor in the crime, and Hyland was charged with driving the automobile that carried the slayers to Adams' door, where he was shot down.

ing of a serious nature. Mr. Mahoney's tragic death has been a great shock to his many friends in Roseburg and Oakland. He was a member of one of the most prominent families of the county, his parents having been early pioneer settlers of the Oakland community where he was born and reared. He is survived by a widow and one child and by five brothers, Harvey of Portland, Harry of Oakland, Paul and Arthur of Portland and Wallace of Bend, and also by three sisters, Mrs. M. ORGANIZATION OF SOUTH UMPQUA CLUB PROGRESSING

By-Laws Drawn Up at Meeting of Board of Directors—Program of Work Outlined.

The board of directors of the South Umpqua Rod and Gun Club met in the new post office building at Tiller Saturday and drew up a set of by-laws to present to the membership at the regular meeting to be held in the Tiller school house Friday, July 29. It was a lively meeting that lasted till the coming of a new day and many important phases of civic improvement work were discussed and tentative plans made for carrying them through.

In addition to the routine matters usually covered by by-laws, the members created five standing committees as follows: a predatory animal committee to be headed by the president, George Norman, a membership committee headed by the vice-president, Guy Pennell, a fish and game committee headed by the secretary-treasurer, John Gross, a roads committee headed by the field captain, Oliver Cook, and a financial and entertainment committee headed by the social director, Clay Ulman. These committees, each consisting of five members will be charged with the handling of the different phases of the club's activities.

Among others, one plan was discussed that bids fair to do a great deal for the South Umpqua as a hunting country. It is proposed to create an official guide and packer's bureau which will handle all inquiries from sportsmen who wish to go into the great deer-hunting country around Tiller. All sportsmen's associations in the state will be notified that visiting sportsmen will be cared for by the

bureau and packers and guides recommended and arranged for. This bureau will, without doubt, prove a real asset to the community, welcoming the sportsmen and sending them away satisfied.

Clay Ulman, social director, is laying plans for one of the biggest blowouts this country has ever seen, to be held in the near future. His intention is to invite all the sportsmen in the county and give a dance and feed that will be long remembered. The date will be announced at the meeting next Friday.

Oliver Cook, who will be chairman of the roads committee, is a good roads enthusiast and there is no doubt but that under his able direction real progress will be made in highway improvement.

With a bunch of live-wires such as now head the organization there is no reason why the South Umpqua Rod and Gun Club should not prove the most important movement the South Umpqua country has seen in many years.

MARKETS

(Associated Press Local Wire)

PORTLAND, Ore., July 25—The local produce market opened this morning with prices mostly steady with last week's close excepting for several lines of fruit. Despite heavier receipts from California, watermelons have been stimulated to a higher consumption demand, due largely to current torrid weather conditions, and are now priced at 4 cents per pound retail. Cantaloupes and honey dew melons remain at 10 cents a piece for average sized melons and five cents for smaller sized lots in a few instances. Supplies continue strong.

Plenty of first quality raspberries may be had at 10 cents per box. Black caps are priced the same and loganberries are plentiful at 8 cents per box, two for 15 cents.

Potatoes are easy at 15 cents per pound, retail. Potato receipts are greater and prices tend to be lower with Oregon Burbanks are selling at 10 lbs. for 25 cents, retail.

Country dressed meats and poultry opened slow this morning and barely steady at Saturday prices. Lambs are easy at 20 cents, prime hogs at around 13 cents and veal 18 to 19 cents. Light hens continue to move slowly at 13 cents.

Butter and egg prices are unchanged from Saturday but dealers are expecting butter to advance again shortly since production in the local territory is falling off.
