Advertisers Give Information

You want a home of your own—everybody does. You want to know about the cost or how to finance the building. Perhaps you want to buy the lot, or it may be to inquire about the furnishing of a room. Just ask the advertisers—they'll know.

BUILDING AND REAL ESTATE PAGE

Figure It Out For Yourself

The chances are good that if you have been keeping house in an apartment or a cottage you have paid out enough in rentals since you have been married to have built a good home, and you don't have a thing in the world to show for it. Just figure it out.

SCOUT CAMP AT ELK RIVER STARTS ITS LAST WEEK

The Boy Scout traing camp, which began at Elk River Sunday, July 31, is now half over, but enough scout work has all ready been done to satisfy any leader's desire for a two week period, according to the scout executive E. A. Britton. Next week will be given over to hikes, both overnight and short day hikes and athletics. A few scout tests will be given as the boys are found proficient.

The camp is made up of 32 scouts who are: Gordon Applewhite, Gordon Gedney, and Cloyce Taylor, of Roseburg; Roscoe Bekher, Roy Belloni, Merlyn Clinton, Donald Farr, Dewain Fitzgerald, Fred Fuhrman, Ellington Glaisyer, Alvin Shaver, Tom Stevens, and Lynus Seeley, of Coquille; Mac Bohmie, of Powers; Harold and Raymond Britton, George Chappel, Ronald Curren, Earl and Francis Davidson, Harry Helmhir, Frank Henry, Carol Hunt, Bud Lagore, and Irwin Rundleman, of Bandon; Derl Carver, of Myrtle Point; George Corey, Tom Pennoch, and Wraymond Stewart, of Marshfield; Robert Jenkins and Paul Olser, of North Bend.

These scouts are divided into 4 patrols with Irwin Rundleman, Merlyn Clinton, Donald Farr, and Gordon Applewhite as leaders.

Six brand new members have completed their Tenderfoot work. Four have complied with the second class requirements and four more will be made second class before leaving camp. Several are nearly ready to pass their first class tests, and at least 5 more are expected to earn their badges.

Eleven merit badges have been awarded and more are to follow. Swimmers are learning to swim better and some are training to qualify as life savers. Out of seven scouts who could not swim before coming to camp, 5 are swimming the other two do not care to enter the water, so of course are not learning.

The championship baseball game will be played between the two patrols winning the semi-finals, and the horseshoe championship will also be decided. A water carnival will be held which will include demonstrations of swimming diving, life saving, beginners methods, and swimmed's strokes.

The camp has been improved by the business men of Bandon, who are taking a keen interest in this work for boys. The camp is in charge of E. A. Britton, scout executive, Maynard Bell, of O. A. C., and Stanley Kidder, of Roseburg, both are eagle scouts. Mrs. L. S. Taylor, of Roseburg is serving as chef.

Mr. J. L. Bean, Scoutmaster of Troop 17, Bandon, will come to camp and take the boys of his troop up Elk River canyon on a two or three day fishing trip. Other hikes will be taken to Port Orford, Cape Blanco, Sixes River, Agate Beach, and up Elk River.

CHURCH NEWS

Church of Christ. The revival meeting in the ten located in Bellow's grove began yesterday with a fair attendance. Evangelist, J. A. Craig, of Fresno, California, is doing the preaching. Meeting each evening at 7:45 throughout this week. The subject for discussion tonight is, "Whom Will God Bless?' found in Romans 9:15, 16. "For He saith through Moses, I will have mercy on whom I will have mercy, and I will have compassion on whom I will have compassion. So then it is not of him that willeth, nor of him that runneth, but of God that showeth Mercy." Come and hear this able man preach the gospel. C. T. Springs, minister.

The McCormick-Deering tractor is a high grade machine. The upkeep is very economical. Thousands of them are in use in this county as well as most all foreign countries, See this super-tractor at Wharton Bros.

DELANEY TO TRY AGAIN FOR PLACE AMONG BIG ONES

Will Give 14 Pounds Next Thursday When He Meets Uzcudun, Who Has Not Been Defeated.

(Associated Press Leased Wire)

NEW YORK, Aug. 8.—In a second attempt to gain a foothold in the heavyweight ranks Jack Delaney will engage in a 15-round battle with Paolino Uzcudun, the Spanish woodchopper, next Thursday night here. Jimmy Maloney of Boston, who suppressed Delaney's aspirations last February, will open up a busy week in the metropolitan sector tonight by taking on Jamaica Kid, the burly negro whom Delaney met in the first defense of his light heavyweight title, which he relinquished recently with the announcement he could no longer make the required weight.

Delaney expects to enter the ring against Paolino weighing 178. The Spaniard will weigh close to 192. Whereas the French Canadian has fared none too well against heavyweights, his Spanish opponent has not lost a bout since he came to the United States.

Since he knocked out Harry Wills in four rounds, Paulino is more confident than ever that he is headed for a championship match. The Spaniard eagerly sought a match with Dempsey and showed no reluctance to try conclusions with the sharpshooting Delaney, who has cast aside his light-heavyweight title to concentrate on a comeback as a full-fledged heavyweight.

There are few hardier specimens in the ring than Uzcudun. In fact, observers of his first few fights in this country labelled him more of a "chopping block" than a woodchopper. His powers of assimilation seemed greater than his punching powers but since then he has displayed the knockout blow that felled the giant Wills at Ebbets Field. The negro offered little resistance on that occasion but it took a full-powered wallop, nevertheless, to bring him down.

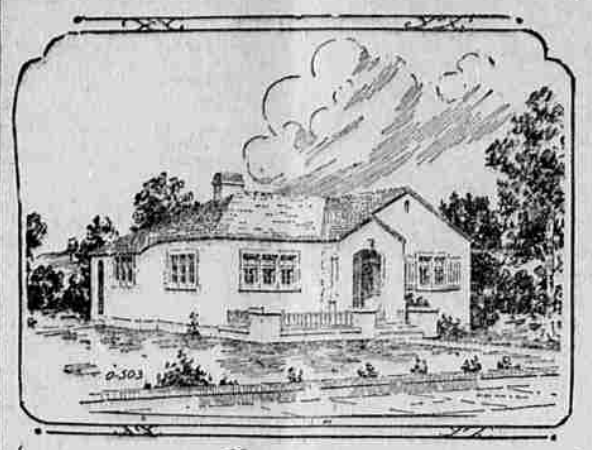
"If Delaney couldn't bring down Maloney in ten rounds or even jar him, what chance has he to topple Paulino?" the Spaniard's followers ask.

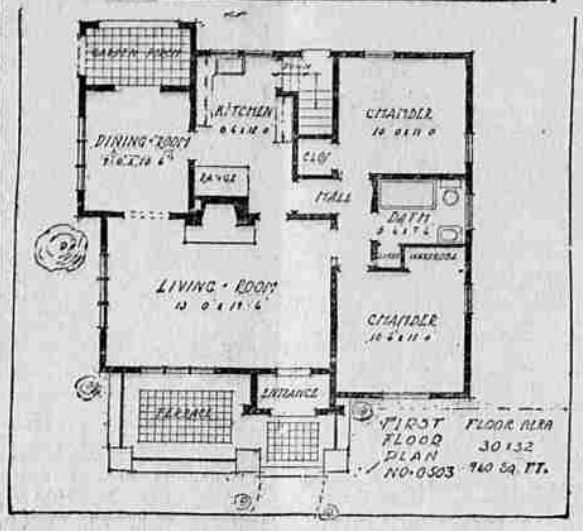
"Paulino is made to order for Delaney," counter the latter's admirers. "Jack will box the Spaniard dizzy and then knock him out."

DEATH CAR DRIVER HELD

PORTLAND, Ore., Aug. 6.—W. J. Smith, driver of the automobile which struck and killed Mrs. Anastasia Sulewski, 40, and her daughter, Mary, 7, last Wednesday, today was bound over to the grand jury. He was released under $2500 bond.

SPANISH TYPE HOME IS MORE POPULAR HERE





5-ROOM HOUSE SHOWN ABOVE PRACTICAL IN ARRANGEMENT

Spanish design homes are becoming more and more popular in the Pacific northwest and many are being built at the present time.

The small but well planned five-room house shown in the accompanying design is practical in arrangement of rooms and has a beautiful exterior.

The finish of the exterior wall is stucco, which may be treated in any one of a large number of manners to suit the individual taste. A good roofing tile of slightly varigated shade makes a home which would look good in any neighborhood.

The living room is sufficiently large and there is easy access from it to any other portion of the house. There are two bedrooms with bath between. Each chamber is provided with a closet and there is another one for linen in the bathroom.

Plans for this house and for others shown in The Master Builder may be obtained from the News-Review. Two complete sets of blue prints will be furnished for a fee of $15.

RUTH OUTHIT FOR HOMERS BUT TWICE IN NINE YEARS

NEW YORK, Aug. 8.—If Babe Ruth is beaten by his walloping young team mate, Lou Gehrig, in the 1927 race for home run honors, it will be the first time in nine years that the battering bambino, in full health and strength and during a full season, has bowed to any rival.

Ruth has been out slugged twice in eight previous seasons of home run carnage, on both occasions by Rogers Hornsby, but the Babe had a good alibi each time.

In 1922, when Ruth, after his banner year, yielded home run laurels to Hornsby, the Bambino spent the early part of the season on the sidelines, under suspension for defying Commissioner Landis in making a barnstorming tour of the country. Starting late Ruth made a gallant effort to overtake Hornsby but fell seven homers short, their respective totals being 42 and 35.

Again in 1925 Hornsby got the advantage of an early start, while the Babe was out of action with his famous stomach-ache. The "rajah" led the pummeling parade that season with 39 homers while the invalid Ruth, below his customary form even when he did return to the lineup, collected only 25.

The only other year, outside of the current campaign, when Ruth's supremacy has been checked was in 1923 when the Yankee clouter was tied with Cy Williams of the Phillies at 41 homers apiece.

MORE BEDS NEEDED FOR TUBERCULAR PATIENTS

That public safety and the health of Oregon people requires the immediate provision of more hospital beds for tuberculosis patients in the official opinion of the board of directors of the Oregon Tuberculosis association, as expressed at a meeting of that body Thursday afternoon in Portland. The meeting, presided over by Leslie Butler, of Hood River, vice president of the association, took official action to authorize the president and secretary to lay before the Oregon State Board of Control the facts regarding the urgent need of proceeding with the construction of the Eastern Oregon Tuberculosis hospital which was authorized by a majority vote of $2,000 at the November election last year.

The waiting list for admission to the State Tuberculosis hospital at Salem is almost twice as great as it was a year ago, according to Dr. G. C. Bellinger, superintendent of the hospital. At this time last year, there were 42 patients waiting for admission to the State Tuberculosis hospital, while on July 26th of this year there were 71 tuberculosis patients waiting their turn to be admitted. Of this number, 31 are residents of Multnomah county.

Other members of the board attending the Board meeting were Dr. Merr Bisaillon, Dr. F. D. Stricker, Dr. E. A. Pierce, T. J. Gary, Miss Mary Campbell, R. N., Rev. W. G. Eliot, Mrs. S. M. Blumauer, Mrs. Mary Caufield, and Mrs. P. R. Whiteside.

FIVE EUROPEAN AIRPLANES TO TRY ATLANTIC ROUTE

German, British, French Aviators Waiting for Weather That Will Permit Hop-Off.

(Associated Press Leased Wire)

LONDON, Aug. 8.—Reports of improved weather conditions over the Atlantic had European trans-oceanic flight aspirants in buoyant mood today and the present week may see a veritable race for the honor of being the first to cross the ocean westward to the American continent.

A half dozen expeditions—three German, two French and a British—are ready or very near ready for the take-off when the weather man announces the exact conditions for which they are waiting. There is also the Bellanca plane Columbia, which Charles A. Lavine, its owner, has been preparing for a return flight to New York.

Captain F. T. Courtney, who will seek the honor for Great Britain, after a test flight in his "Whale" yesterday pronounced the general behavior of the flying boat satisfactory.

The wireless apparatus was not functioning perfectly, but he was said to be thinking of starting on Tuesday even if the experts could not fix it by that time.

Two Junkers planes—the "Europa" and "Bremen,"—which will represent Germany in the trans-Atlantic effort, are reported in Berlin dispatches to be undergoing slight technical alterations which it is hoped will be completed by Thursday. The Europa, a plane which last week broke the American endurance record, will be piloted across the water by Cornelius Edzard and Johann Risticz, the two aviators who alternated in keeping it aloft for the record time of 52 hours, 53 minutes. The Bremen will be in the hands of Herman Koehl and Friederich Loose.

Lieutenant Otto Kennecke, who will pilot the third German plane, a Caspar machine, has announced his intention of getting away before Wednesday. There will be a passenger on each of the German expeditions.

Paris reports that the French are pinning their hopes on the Farman plane "Bluebird" and the Brequet plane, in which the French fliers, Dieudonne Coste and Captain Rignot made their long distance flight record to Persia, which was beaten later by Colonel Lindbergh and Clarence Chamberlin in their trans-Atlantic flights.

GOOD ROADS ARE BOON TO MERCHANTS

"Good roads development, the automobile, bus lines and other elements adding to the ease with which people may travel is a boon for all local merchants," says R. H. Smith, manager of the J. C. Penney store in this city.

"This is clearly shown in the volume of business that is being done at retail at the present time, especially in such necessities as dry goods and other department store merchandise.

"The store keeper who is on the watch for new customers can get them in steadily increasing numbers. This is clearly shown by the increase in business done by the J. C. Penney stores in the past six months over the same period of last year. This increase amounts to $13,637,692 and is the largest increase shown by any large store operating company.

"New customers are coming into every town in the country, brought by motor cars and trains. They are buying over the counter at a greater rate than ever before and they are showing excellent judgment in their selection of materials and styles."

"The constant migration of families by motor car, the influx of tourists and the general movement of the population of the country is also affording the local merchants a rare chance for increasing sales volume.

"Advertising, cooperation with customers, attractive store fronts and the faculty of being wide awake to the new business conditions which modern transportation has created will serve to make any well-organized community a better place in which to do business than ever before.

"The time is ripe for local bubsiness clubs and organizations to popularize their respective cities by furnishing attractions and conveniences which will bring the traveling population into the business districts."

SPANISH AMERICAN WAR VETERANS HOLD PICNIC

A reunion of the Spanish-American War Veterans of the county and their families gathered at the Robert Tjomsland home at Cleveland yesterday for an all-day picnic. A basket dinner was served at noon and the entire day spent in a general social time. Excitement was provided for the occasion by Tom Bordeaux who in backing his car around went over a grade and turned his car over into the ditch. Fortunately however, Mr. Bordeaux was not injured and his car was only slightly damaged.

A RENTED HOUSE

I love my rented house!
I love each flower that grows
Before my rented door;
I love the polished sheen
Of my fine rented floor.

I love my rented house!
I love the low protecting sweep
Of my dear rented roof—
(I'll love it better when I know
For sure it's waterproof.)

I love my rented house!
I love to purchase rugs and draperies
For living room and hall,
Although they may not fit
My next DEAR rented house at all.

I love my rented house!
And when the "1st" comes round,
I love to have a stern collector stand
Before my door, take all my kale,
And leave a rent receipt within my hand.

I love my rented house!
And yet—sometimes—at night —
When Tom's away, and I'm alone,
I wonder why we've never had
A HOME — to call OUR OWN.
A. M. C.

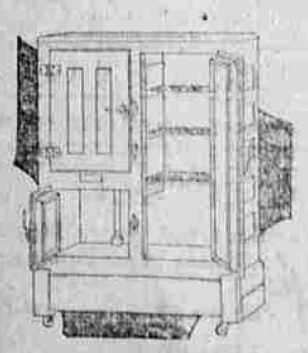
Facts That Make The Leonard Refrigerator *EXCEL OTHERS*



Porcelain and Oak Cabinets

Low Cost Operation

COLD FACTS

The corkboard used by Leonard consists of pure granulated cork compressed in metal molds and baked at a moderate temperature. The baking brings out the natural gum or rosin which binds the whole mass together firmly. No foreign binder is used. It thus becomes:

1. A good non-conductor of heat.
2. Non-absorbent of moisture.
3. Sanitary and odorless.
4. Compact and light in weight.
5. Structurally strong; easy to install.
6. Reasonable in cost.
