CONTAMINATION OF WATER IS THOUGHT DUE TO FLOODS

Wells and Streams Showing Unusual Amount of Pollution This Year.

The wells, springs, creeks and rivers of the county are showing an unusual amount of pollution and contamination this year, according to reports from the state board of health where samples of water from the various streams have been tested in the laboratories.

While no definite reason for this condition has been advanced it is generally believed that the bad floods in February are responsible. The water was higher at that time than at any other period for more than 40 years.

At Canyonville the city council is preparing to call a special meeting to consider a bond issue to provide a municipal water system where the water for domestic use can be treated and kept pure.

SURVEYS GIVE VISION OF NEW RAILROAD LINE

plausible explanation of the presence of the surveying crews is that the Rogue River Timber company is seeking an outlet for its hold-

James H. Owen, general manager of the Owen Oregon company plant said yesterday that he did not know anything about the purpose of the surveying crews or by whom they were employed.
