FOR SALE

FOR SALE—9 months old Boston Bull dog, 345 Fowler St.

FOR SALE—Corridale bucks, \$15. Phone 14F34, L. E. Gilliam.

FOR SALE—6 shorthorn, about 75 or 80 lbs. John Wilkinson, Rt. 1, Box 91.

FOR SALE—Choice grey seed outs, Mrs. A. J. Dunn, Camas Valley, Oregon.

FOR SALE—8 ewes, reasonable, herd broke, C. A. McNabb, Umpqua, Ore.

FOR SALE—Cucumbers, 20c per gallon, Mrs. J. S. Marr, or phone 34F2.

FOR SALE—Ford truck cheap, Will also trade for Jersey cows, Box 416, Youell, Ore.

FOR SALE—Nest—Evergreen sweet corn for general D. C. McGhee, Phone 5E13.

ELBERTA peaches now ripe, bring boxes, J. R. Wilson, near Winston bridge, Phone 2F31.

FOR SALE—20 cords wood, can get it with truck, \$3 per cord, R. V. Hatfield, Phone 3F14.

COAL—Rock Springs, Utah and Diamond briquettes, which will you have? Prices, Phone 242.

HORSE for sale—9 yrs old, gentle, Inquire E. F. Brown, 1 mile this side of Glile, P. O. Dixonville.

FOR SALE—Turkeys, old and young, Phone 30F13 or call at ranch, Frank Warner, Edgemoor.

FOR SALE—11 saddle horses and one work team at McNabb place in Oakland, Harry Bernard, Oakland, Ore.

FOR SALE—5 sows and 9 or 10 pigs, Phone 30F22 or 12F11 or write Mrs. H. G. Hastings, Rt. 2, Roseburg.

WILL TAKE liberal discount on \$1200 stock of general merchandise, if taken at once. Address X. Y. Z., care News-Review.

FOR SALE—Angora bucks, yearlings, and one three-year-old, also ten does, all registered stock, J. I. Chapman, Wilbur, Ore.

FOR SALE—Cheese, 17.5c per cwt. Gray oats 65c per bu. Also O. I. C. pigs 2 mos. old, \$5 and \$6 apiece. Roy's Farm, 4 mi. South Myrtle Creek.

FOR SALE—Purple vetch with a light mixture of oats and barley, 3c and 3 1/2c per lb. Also oats and vetch hay, baled, W. A. Bogard, Grand Hotel Bldg. Phone 303.

FOR SALE OR TRADE—Garage with stock and equipment, doing a nice business in a dairy and farming center, good location in Willamette valley town, Box 73, Seio, Ore.

FOR SALE—Sweet corn, apples and tomatoes, Phone Star Dairy, 4033. We also have lots of milk and cream. We start delivering at six in the morning at 6:30 in the evening.

FOR SALE—On the ground, 33 tier oak and laurel blockwood at \$1.50 per tier, 21 tier oak and laurel stove wood at \$2 per tier, G. W. Finley, 1 1/2 miles north of Looking Glass.

CANNED TOMATOES—No. 21 cans, 12 1/2c; No. 2 cans, 10c. Sweet peppers, 10c lb., cucumbers, 3c lb. These prices good all week. Fresh tomatoes every day at market prices. We start canning Monday, S. Salsberry, Myrtle Creek, Ore.

FOR SALE—190-acre fruit and sheep ranch 3 miles east of Myrtle Creek, on south Myrtle road. If you want a home go look at it and make me an offer. Small payment down, balance easy terms. Harvey C. Hill, Wampa, Idaho, Rt. 2.

SALE OR TRADE—7 h. p. gas engine, mounted on trucks, 36 in. swing cut-off, mandrel, pulleys, belting complete. Also White drag saw complete. Sell reasonable or trade for good car. Max Stewart, Dixonville, Ore. Phone 7F6.

FOR RENT

FOR RENT—Rooms with board if desired, 132 N. Stephens.

FOR RENT—Apartments, new, modern, close in. Call 645-J.

FOR RENT—Furnished modern apartment, close in, 221 W. Lane.

FOR RENT—Two-room furnished house, \$7 per month. See elevator man at Perkins building.

FOR RENT—5-room furnished modern house, Wood and gas ranges. Call at 514 S. Pine.

W. C. T. U. TO BACK ONLY "UNDOUBTED FRIENDS" OF LAW

(Associated Press Local Wire)

MINNEAPOLIS, Aug. 29.—Support of only those candidates "who are the undoubted friends of prohibition" is pledged by the National Women's Christian Temperance Union in its platform adopted at the annual convention here today.

Following closely the requests of officers, who in their annual reports urged relentless war on office seekers running without "dry" planks in their platforms, the union unanimously voted to actively campaign for candidates "who really care that America shall receive full benefit from prohibition."

Pleading for "willing obedience to the letter and spirit of the law as plain American duty" the union in its platform declares that "alcoholic liquors have no place in the home medicine chest, and deprecates the home manufacture of home brew and home-made wine."

Merchants are requested "to discontinue the sale of ingredients and utensils plainly merchandised for use in the manufacture of alcoholic beverages."

Condemning the abuse of prescription privileges, the union brands as "a public menace" the "bootlegging druggist who sells liquor without prescription and who connives at the diversion of industrial alcohol to medical or beverage use."

"Writers and entertainers," who eliminate from stories, plays and scenarios the idea that drinking is essential to a good time, "are commended in the platform which states that 'the average American family has nothing in common with the sort of life portrayed in many current novels and up the screen and stage.'"

CANADA MODIFIES EMBARGO ON AMERICAN PEACHES AND PEACH NURSERY STOCK

The Canadian government has lifted the embargo on fresh peaches and peach nursery stock imported from the United States into Canada, except the Provinces of Ontario and British Columbia, according to an order in council, copy of which has been received by the United States department of agriculture.

Under the amended regulations the embargo against the importation of fresh peaches and peach nursery stock into the Provinces of Ontario and British Columbia from all states east of the Mississippi and St. Croix rivers continues in effect. Importation of these products from the states of Arkansas, Louisiana, Missouri and Texas into British Columbia is also prohibited. No restrictions are imposed against the importation of peaches and peach nursery stock into British Columbia from states west of the Mississippi river other than the four states named.

Importation of these products into the Province of Ontario may be made from any state west of the Mississippi river provided the shipments are accompanied by a certificate duly signed by the consignor indicating the name of the state in which the products originated.

The importation of peach fruit pits or seeds for propagating purposes into the province of British Columbia is prohibited from all states east of the Mississippi and St. Croix rivers, and from the states of Arkansas, Louisiana, Missouri and Texas. Peach fruit pits or seeds for propagating purposes originating in other states west of the Mississippi river may be imported into the province of British Columbia, provided shipments are accompanied by a certificate duly signed by the consignor, indicating the name of the state in which the products originated.

The new regulations do not prohibit the movement of fresh peaches, peach nursery stock, or peach fruit pits, irrespective of their point of origin, passing through the province of Ontario to a through bill of lading and consigned to points in the Dominion of Canada outside that area, with the exception of the Province of British Columbia.

BELIEF ART OF HARDENING COPPER LOST ERRONEOUS

How the ancients hardened copper is a mystery to many other wise competent scientists who classify this process among the "lost arts." Every year, according to the Copper and Brass Research association, thousands of dollars are spent in an effort to re-discover this supposedly forgotten formula.

That there is no justification for the popular belief that the early process of hardening copper has become a "lost art" is pointed out by William G. Schneider, metallurgist of the Association, in a paper just prepared for the Engineering Foundation of the United States.

He declares that "present-day metallurgists not only understand how the ancients hardened their copper and bronze but also know how to produce copper and bronze products that are even harder than those left to us and which represent the evidence of the so-called lost art of hardening copper."

It is pointed out that the ancients produced cutting edges on swords, daggers, knives and other implements by hammering or cold-chambering the metal. Early metal workers used this method to harden both bronze and copper implements. The implements were often heated in open fires, resulting in the formation of considerable copper oxide which alloyed with the copper and hardened it. Misguided individuals who claim to have rediscovered the art of hardening copper commonly make the mistake of heating it in a forge. In this way the metal becomes saturated with copper oxide that combines with the copper to form a much harder and more brittle product.

Two methods of hardening copper are regularly practiced today, just as they were centuries ago. One of these consists in alloying the copper with some other metal or several other metals, such as zinc, tin, nickel, cadmium, chromium, cobalt, silicon, aluminum, iron, beryllium and arsenic. The other method is to cold-work the metal or copper alloy. In fact, says the paper, it is possible to work the metal to such a stage of hardness that a slight amount of additional work will cause it to break.

All copper hardening may be credited to either of these methods, or a combination of the two.

Microphotographs of an ancient copper spear-head indicate that it is extremely hard and that apparently this hardness was obtained by cold-working.

Mr. Schneider points out that while it is possible to make swords, knives and other cutting tools of copper, such implements under ordinary conditions offer no advantages over tools made from steel. Occasionally, however, it becomes necessary to use copper or bronze tools such as knives. Bronze knives are virtually essential in a powder plant or other establishment where sparks must be avoided.

"Not only do many persons spend a short while endeavoring to re-discover an art that never was lost, but some of them devote a whole lifetime to this effort. The tragedy, or rather, the denouement, occurs when they have evolved a hard copper. They next endeavor to find some use for it and then learn that, unless it has some special properties, no market exists. Copper wire, hard drawn, has a tensile strength of about 65,000 pounds per square inch and an elongation in 10 inches of about 27 per cent. This affords some basis on which to work when endeavoring to develop the hardening of copper. If, for example, it were possible to harden copper so that the tensile strength were materially increased above that just stated, without reducing the conductivity, a worthwhile discovery would be made."

Some recent methods of hardening copper by alloying have, to a certain extent, come about as near to actually "tempering" copper as would seem possible. In these methods the metal, silicon, plays a most important part because it forms silicides with other metals which in turn form eutectics with the copper. The decentralizing effect that silicon by itself exerts plays no unimportant part in finally allowing the metal to be worked and by heat treatment to develop a high strength, with a relatively high conductivity. This latter, however, is considerably below that of pure copper and second only, speaking of alloys from the standpoint of both strength and conductivity, to those of copper and cadmium. Alloys of copper with cadmium give, for a stated conductivity, higher strengths than those with silicon."

QUIET NECKING O. K.

ARKANSAS CITY, Kan.—"Neckling" so long as it is carried on quietly enough not to disturb the peace, is quite within the law, according to Harry V. Howard, county attorney. The roadside is public property, he says, and if people wish to park along it in their own cars they are violating no statute, he declared.

NOTICE OF BOARD OF EQUALIZATION

Notice is hereby given that on the second Monday in September being September 12th, the Board of Equalization will attend in the assessor's office in the courthouse in Roseburg, Douglas County, Oregon, for the purpose of examining the assessment rolls and correct all errors in valuations, description and quality of land, lots and other property assessed by the assessor, and it shall be the duty of persons interested to appear at that time and place appointed.

NOTICE TO CONTRACTORS

Sealed bids will be received by the Board of Directors of School District No. 21 of Douglas County, Oregon, at school building at Camas Valley, Oregon, on September 1, 1927, at seven o'clock p. m. for the construction of a new school building for said School District No. 21, according to plans and specifications prepared by F. Manron White, architect, Sherlock Building, Portland, Oregon.

Bids to cover all labor and material for the general work of the building separately from plumbing and heating, and plumbing and heating to be included in separate bids.

No bid will be considered unless accompanied by cash, or bidder's bond or certified check in favor of George H. Trueman, chairman, for an amount equal to at least ten per cent of the amount bid, said sum to be forfeited in case of failure to enter into contract and sufficient bond on the part of any bidder whose bid is accepted. The successful bidder will be required to furnish an approved surety company bond in the amount of fifty per cent of the contract price, to insure faithful performance of the work and payment for all labor and material, said bond to cover details mentioned in the specifications.

Plans and specifications may be obtained at the office of the Architect, 448 Sherlock Building, Portland, Oregon, or from R. J. Dunton, School Clerk, Camas Valley, Oregon.

A deposit of Twenty-Five

(\$25.00) Dollars will be required of each bidder to insure proper care and prompt return of drawings and specifications.

The right is reserved to reject any or all bids.

By order of the School Board of School District No. 21.

R. J. DUNTON, Clerk of said District.

SUMMONS

In the Circuit Court of the State of Oregon for Douglas County.
C. R. Atkinson, Plaintiff, vs.
Josephine Atkinson, Defendant.
To Josephine Atkinson, the above named defendant:

You are hereby required to appear and answer the complaint filed against you in the above entitled court and cause, on or before the expiration of the time prescribed in the Order for Publication, to wit: on or before the expiration of four weeks from the date of the first publication hereof, and if you fail to appear or answer for want thereof, plaintiff will apply to the court for the relief prayed for in the complaint which is in substance as follows:

For a decree of the court dissolving the marriage contract now existing between him and defendant and for such other and further relief as to the court may seem just and proper.

This summons is published pursuant to an order of the Honorable J. W. Hamilton, Circuit Judge of Douglas County, Oregon, made and entered August 11th, 1927, and the first publication hereof is made on the 14th day of August, 1927, and the last publication hereof is made on the 14th day of September, 1927.

Attorney for Plaintiff, Residence and address: Eugene, Oregon.

BOOK ON MONEY

Read this book entitled "Money Truly Explained," explaining truly the cause and remedy for hard times. Price, single copy, 50c, six or more copies 40c each. Satisfaction or money back. Address J. H. Morrison, Myrtle Creek, Oregon, or call at Roseburg Book Store.
