## GREAT CROWD AT MEDFORD FOR FETE HELD YESTERDAY

(Associated Free Leased Wice)

## BETTER BUT PRICE STILL UNCERTAIN

PORTLAND, Ore., Sept. 16.—
While prospects are more encouraging for business in the dried prune market, there is nothing in the situation at present to indicate improvement in prices, in the opinion of prune men here. The demand at the moment is not active. The California crop is running to small sizes, whereas the Oregon crop is practically all large size. This should force buyers to come to Oregon for large truit, resulting in a clean-up of the moderate crop. Whether prices in this state will be strengthened thereby, or whether the abundance and cheapness of small prunes in California will have a depressing effect on the market as a whole, remains to be seen.

The market looks better, there-

seem. The market looks better, therefore, in that Oregon growers should be able to sell their crop, but the future of prices is uncertain. The eastern trade has not come into the market yet for Oregon prunes, nor have the English buyers begun to operate. Germany will require a large toninge, but not of small sizes.

# INSURANCE THAT PAYS four ways What other investment could you make that pays back four ways—that offers you full protection from misfortune while you build up an estate? The Oregon Life 4-Square Life Insurance policy is an unusual value; it returns you these four things on your investment:

A 4-Square policy pays you \$10,000 cash at the age of 60.

2 It pays you \$100 a month during permanent dis-ability until maturity, then \$10,000 in cash to you. 3 It pays your dependents or your estate \$10,000 if your death occurs before age 60.

4 It pays your dependents or your estate \$20,000 double its face value—in case death is accidental.

If anything should happen—or if nothing happens—you get more than you paid in, with protection added. What better investment could you make? The coupon will bring you full information without obligation to you
