VARE GROUP IS STILL IN LEAD

(Associated Press Leased Wire)
PHILADELPHIA, Sept. 21.—The Republican organization under the leadership of Senator-elect William S. Vare, apparently was still in control in Philadelphia today despite efforts of independent voters within the party for a new order of things.

Returns from yesterday's primary election from nearly one-half of the 1,517 divisions gave the organization a comfortable lead. But it was far below pre-election estimates of the leaders. At the majority contest, in which the fight centered, figures from 715 divisions showed that Harry Mackey, organization candidate, was leading J. Hampton Moore, independent, by 58,174. The vote in these divisions was Mackey 116,931 and Moore 58,757.

Mackey, campaign manager for Vare, whose right to a seat in the United States senate as a result of alleged excessive campaign expenditures and charges of fraud is under consideration by the Reed senate committee, had the individual support of the city's 48 ward leaders.
