

The unmistakable flavor of Hills Bros Coffee is due to Controlled Roasting

Hills Bros. roast their coffee as a good cook makes gravy.

A few pounds at a time—that's the way Hills Bros. roast coffee—always under perfect control at every step. You follow a similar rule when you make gravy. You add the liquid a little at a time as you stir, and as a result of this precaution you get a smooth, pleasing consistency.

This exact process of Controlled Roasting belongs to Hills Bros. exclusively. No other roasting process can approach it in flavor-producing efficiency. And, since Hills Bros. Coffee is packed in vacuum, all of this wonderful goodness comes to you. Ask for Hills Bros. by name and look for the Arab on the can. Send for a free copy of "The Art of Entertaining." Address Hills Bros., 2 Harrison St., San Francisco, Calif.

HILLS BROS COFFEE

GASOLINE WAR IN THREE STATES

(Associated Press Leased Wire) NEW YORK, Oct. 7.—Gasoline price-cutting warfare has started in three states, Louisiana, Ohio and Michigan reporting decrease of two to five cents a gallon.

The largest cut was made in New Orleans, where the price dropped from 18½ to 17½ cents a gallon in two weeks. A two cent reduction on services and tank wagon costs by the Sinclair Oil company of Indiana, which brings gasoline to the consumer for 14½ cents a gallon exclusive of the state tax.

LOOKING GLASS NEWS ITEMS

The dreary job of prune picking which has employed all our young boys and girls will soon be over in this valley, although the unfavorable weather is delaying the picking and keeping too many out of school.

School opened Monday morning, Oct. 4, with a good attendance in all rooms. There are two new grade teachers this year, Miss Moser in the primary grades and Mr. Merrill in the intermediate grades.

Steps are being taken to organize boys and girls basketball teams. Mr. Charles Merrill will be the coach for the year.

Tom Strickland, a former high school student has returned from Diamond Lake, where he has spent the summer working in the forest service. He is now attending high school in Roseburg.

Fern Hutchins left for Roberts Creek, Oct. 2, where she will teach school this winter. Ruth Rodley also left Oct. 2 for Millwood near Cleveland where she will spend the winter teaching. Both girls are graduates of the Looking Glass high school.

We have two new high school students coming from outside districts this season. Elijah Ollivant from Ojala and Elizabeth Telford from Happy Valley.

—L. G. H. S.

The Douglas Chapter of the Music Teachers' association has adopted the rule which requires students to pay for all missed lessons except in case of PROTRACTED ILLNESS or absence from the city, in either case the teacher must be notified BEFORE the lesson period.

USE DOGS IN WAR ON SMUGGLERS

By NEA Service

PARIS.—As a result of the tobacco-smuggling activities along the Franco-Belgian frontier, dogs are carrying on the war between officials and law-breakers.

In Belgium, where there is no state control, a pound of tobacco can be bought for about 20 cents. But in France, the state monopoly has pushed the price up to \$1.20 leaving \$1 a pound profit for the smuggler who can get his contraband across the border.

Most of the smugglers have carefully trained dogs which they take into Belgium. At night, they strap a few pounds of tobacco on each dog's back and tell them to go home. Customs officials, to combat this practice, have trained dogs to catch these law-breakers. The animals always battle to the death, the smugglers often winning the fight because they are equipped with spiked armor.

STEWED SQUIRRELS ENTERTAIN POLICE

By NEA Service

KANSAS CITY.—A few hours after police had dumped twenty barrels of mash into a private ravine in a park here they were called to see the result of their work. They found about a dozen squirrels, hilariously drunk. The little animals tried to crawl like roosters, walk on their front legs and do the Black Bottom. They did everything but bite the street cars and talk back to the cops.

Fencing. Full gauge wire lasts longer. Red Strand fencing is never under gauge. 939 Square Deal or hinge joint, 35¢ per rod at Stearns & Chenoweth, Oakland, Ore.

ALL MOUSE'S FAULT

FOND DU LAC, Wis.—When O. W. Gunz was driving his car the other day, he didn't know he had a mouse as a passenger. The mouse didn't like the idea of motorizing, so he dashed up Gunz's trouser leg. Gunz let go of the wheel and stepped on the gas ramming a line of parked cars. A pedestrian walking between two of them got a broken leg.

CATS COLOR BLIND

LINCOLN, Neb.—It's a very drab and colorless world for cats. Prof. F. M. Groez of Nebraska Wesleyan University, who has been experimenting with the color sensibility of night-prowling animals, says that cats lack all color perception. Even dogs are almost color blind.

Challenger

TOMMY LOUGHRAN
If you will take his word for it, Tommy Loughran will be the next light heavyweight champion of the world. Mike McTigue, who was handed the title when Jack Delaney stepped down, thinks differently, however, and the two will settle their difference of opinion in a title bout early in October.

PRINCE OF WALES IS A GOOD SPORT

(Associated Press Leased Wire)

LONDON, Oct. 7.—Members of the American Legion good will party in England today were chuckling over a story concerning the latest example of the scorn of the Prince of Wales for conventionality.

Enroute from Scotland to London to welcome the legionnaires, the royal train stopped at midnight to change engines and the station employes got quite a shock to see the prince leave his compartment clad in pajamas and stroll unconcernedly up and down the platform until the train was ready to start.

WHEEL RUINS RAILS

TECUMSEH, Neb.—A broken wheel on a fast freight train has caused a loss of \$300,000. For a distance of 20 miles, the wheel left a deep impression every nine feet on one of the rails and finally derailed two cars. The rails were so deeply dented that the entire 20 miles must be replaced with new rails.

U. OF O. TO FIGHT JINX IN VANDAL GAME SATURDAY

UNIVERSITY OF OREGON, Eugene, Oct. 7.—(Special)—Captain John J. McEwan, head football coach at the University of Oregon, is an army man. And being such he is not adverse to belief in a "jinx."

"This week Captain McEwan is developing his machine to meet the attack of University of Idaho here Saturday in the opening game of the Pacific coast conference. Under the belief that all he had to do was to defeat the Vandals, sports writers of the university have unearthed a "13 jinx," the worst thing possible.

The "jinx" says its background from the fact that Oregon and Idaho have met 18 times on the gridiron with the Webfoots winning 13, losing two and being in three ties. Prior to 1922, Oregon had won every game from the Vandals with the exception of 1901 when a tie was played.

But since winning his 13th victory, Oregon has not even crossed the Idaho goal line. In 1923 the game was played. The following year Idaho won 13 to 0 and in 1925 scored a 6 to 0 victory. The teams did not play in 1926.

Now McEwan not only has to defeat Idaho but faces the "13 jinx" as an added problem to overcome.

MONTH SEPTEMBER BELOW NORMAL IN HEAT AND RAINFALL

The September weather was colder and wetter than usual according to the monthly meteorological report filed by Arthur W. Pugh, meteorologist in charge of the local weather bureau station. The mean temperature for the month was 61 degrees while the normal is 62.9 degrees. The total rainfall was 1.72 inches as compared with a normal of 1.64 inches. As the wet season statistics start on September 1 of each year, running to May 1, the accumulated excess for this month is .08 of an inch.

There were 8 clear days, 10 partly cloudy and 12 cloudy. There were 13 days in which precipitation was recorded. The highest humidity was 98 and the lowest 25.
