MOVING MOUNTAINS

To widen your horizon it is best to go up on a mountain. If you can't do that, however, it will serve just as well if you can level the hills and mountain peaks that surround your valley.

Bigness is the watchword in this country, and there doesn't seem to be any getting around it. Edward A. Filene, Boston merchant, and a close student of American economic conditions, reveals that in 1925, the last year for which complete figures are available, 52 per cent of the total profits earned by U. S. business were made by one-fifth of one per cent of the number of corporations.

We sincerely hope, when the time arrives to let the contract on the new court house for this county, that the work, so far as possible, be given to local contractors.

Thomas Pillion attended a movie in Chicago. The movie went serious on him. A subtitle, supposed to be very earnest and deeply moving, was flashed on the screen.

Taxpayers and others who met at the court house today to discuss the advisability of constructing a new court house ought to be convinced by the general appearance of the old shack that the only remedy is a new, modern and substantial building.

A man admitted to citizenship in New York bears the name Constantine Pappadimitrakopoulos, and announces he will keep it. Maybe he wants to keep out of the headlines.

Al Smith urges local self-government, but it's what the boys do when they're away for conventions that worries most of the little women.

CLACKAMAS BARD FAITHFUL TO DOG

PORTLAND, Ore., Jan. 21.— Monk Sanders, "bard of the Clackamas," was on his way back to his cabin on a remote trail along the upper reaches of the Clackamas River today with his boon companion, Boots, after having Boots treated here for injuries.

When Boots, his dog, was caught under a tree which Sanders was telling for firewood, Boots was so seriously injured that his life was in danger. Sanders put the dog in a gunny sack and carried him to Portland, getting a few lifts from motorists.

Arriving in Portland, Sanders sold two skunk pelts for enough to pay the veterinarian and he supported himself by doing odd jobs during the time that Boots was recovering. Yesterday the dog was pronounced fit to travel and Monk and Boots set out together for home.

GOOD INTEREST AT REVIVAL AT THE BIBLE STANDARD TEMPLE

A good crowd was present at the revival now being conducted by Evangelist Chas. G. Bonham at the Bible Standard temple, 408 E. Douglas street.

The evangelist spoke last night on "Purpose," illustrating his subject by referring to the great men of Bible days and of the present time. Interest is keen and on the increase.

All enjoy the musical treat presented by these musical messengers and the selections that the home band play.

Meetings will continue each evening at 7:45 until Sunday, January 29. This will be the closing service of the campaign. Be sure to attend or you will miss a rare treat.

JAPANESE DIET DISSOLVED TODAY

(Associated Press Leased Wire) TOKYO, Jan. 21.—The long threatened dissolution of the Japanese diet took place today.

The opposition immediately presented a motion of censure upon the reassembling of the diet after a new year's recess.

The government, however, forestalled an actual vote by announcing the dissolution as soon as the finance minister had finished his speech.

The denunciation of the government by the opposition was due to the latter's dissatisfaction with the government's Chinese policy and with measures attempted for readjustment of the financial and economic situation in Japan.

The opposition in particular held the government responsible for the outbreak of anti-Japanese movement in China and denunciation of the expedition to Shanghai as an unforgivable blunder.

As the law requires a general election within thirty days after dissolution, elections were fixed for February 20.

electric chair as prison superintendents testify, instead of frightening murderers make them feel heroic.

Two men kidnaped and murdered little school girls. The first crime was committed in California where they have capital punishment. The criminal is now in jail, having his picture taken, reading his 'fan' mail, not much worried about the hangman, while alienists work over him. His crime was committed more than a month ago.

In Michigan where they have no capital punishment, Adolph Hotelling, an elder in the church of Owosso, murdered a little girl. Three days after he was caught he was in Marquette prison, to spend the rest of his life at hard labor. Which is the better system?

A. D. Lasker, who ran the shipping board, once a young, brightly energetic boy, sitting in the outside office of Lord and Thomas, in Chicago, now even more brightly energetic sits in the inside office and owns the place.

He and his wife have just given a million dollars to Chicago university to study the 'causes, nature and prevention of degenerative diseases.'

Within 300 years the average life has increased from 30 to 60 years, but a man of 50 has very little better chance of life than a man of that age 100 years ago.

Lasker wisely gives money to find out why it is that human beings after 50 break down so quickly.

If the scientists will let him Lasker should use some of his money investigating suggestions that medical science would call "all nonsense." All nonsense is what the doctors called the theories of Pasteur, who taught them more than they ever knew before.

A dispatch from Nicaragua says Sandino, the rebel bandit who killed some of our marines, has been killed by a bomb from one of our airplanes.

The Nicaragua rebels now know that they have no more chance against United States flying machines than a rabbit has against eagles.

That is satisfactory so far as our Nicaragua fight goes.

But our president, congress, and army and navy departments, should remember that several countries in Europe and at least one in Asia exceed us so greatly in air power that they could do to us, if they chose, what we have just done to Sandino.

STORY BY HAL COCHRAN — PICTURES BY KNICK

"My, are you hurt?" the slim man cried, as Scouty toppled from his ride. "That surely was a pretty spill that flopped you to the ground." "Oh, I'm all right," wee Scouty said. "I didn't land upon my head. You see I'm sitting up, and so I landed safe and sound."

CHEVROLET TO MAKE MORE THAN MILLION CARS IN 1928

From a communication to Hans T. Hansen, proprietor of Hansen Chevrolet Company, local automobile merchant, from R. H. Grant, general manager of the Chevrolet Motor Company, we read—We look forward to the best Chevrolet year we ever had. We are planning for a production of well over a million cars and trucks during 1928, as compared with approximately a million even in 1927, our best year up to this time. There is every reason to expect that the industry as a whole will produce more units this year than last.

The country is in a prosperous condition and the situation, in my opinion, will remain good.

Used cars will probably present a more serious problem this year than last, which is only what we can expect as a natural consequence of a higher production of new cars. Prices will not change greatly from established levels in the near future. We do not expect to make any further changes in Chevrolet prices. Following recent plant extensions, Chevrolet this year is in a position to produce 1600 more cars a day than in 1927.

Elsewhere in this issue will be found a fountain pen coupon, redeemable at Marsters' Drug Store.
