Any reliable baking powder will raise dough, but there is one kind that is more wholesome than others. That's cream-of-tartar! That's Schilling's! Ask your doctor -- he knows.

ADVISORY BOARD TO HOLD MEETING FRIDAY, MARCH 9

Word was received today by the Chamber of Commerce from H. J. Arnett, executive secretary of the Pacific Northwest Advisory Board of the American Railway Association, that the board's district meeting to be held in Roseburg will convene Friday, March 9. This will be the first time that a meeting of this board has ever been held outside of a large city. Previous meetings having been held in Portland, Tacoma and Seattle. Because, however, of the importance of southern Oregon as a shipping point it was decided to hold the 1928 spring meeting of the board in Roseburg, and it is expected that there will be at least 500 shippers and representatives in attendance representing all of the railroad lines and the various concerns engaged in large shipments from southern Oregon. The date of March 9 places the meeting in the midst of the broccoli season when the railroad officials will have an opportunity to see broccoli harvest in full blast.

**YOUNG WOMEN
MAY KEEP WELL**
By Taking Lydia E. Pinkham's Vegetable Compound Here is Proof

St. Paul, Minn.—"Here is a little advice I would like to have you put in the paper," Mrs. Jack Lorberer of 704 Delwood Place wrote to the Lydia E. Pinkham Medicine Company. "If young women want to keep their health and strength for the next thirty years of their lives, it is best to start taking Lydia E. Pinkham's Vegetable Compound. I have tried the Compound myself and received fine results. In describing her condition before taking the Compound, she writes, 'I was afraid in my own home in broad daylight. I used to lock the doors and pull down the shades so that nobody could see me.' One day a booklet advertising the Vegetable Compound was left on her porch and she read it through. In so doing she found a letter from a woman whose condition was similar to her own. 'I bought the Vegetable Compound,' Mrs. Lorberer continued, 'and have had fine results. The condition I was in made me a burden to my husband. Now I am happy and healthy.' And he says, 'It is just like being in Heaven!'"

The Food that Makes the Man

There has come to my attention a letter in the local paper of Jan. 15, commenting on "Poultry Notes," and mentioning the climatic conditions of Douglas county.

The Office Cat claims this the best climate in the world! I agree with the "Cat."

Perhaps I should apologize to the writer of the letter for not writing on one of the primary, and most important subjects in which the poultry industry is concerned, climatic conditions.

I took for granted, though, that all who lived in such a climate as Douglas county has, would surely know of its beneficial benefits and charms. But this is a correction I meant to come, as we should call it to the whole "cockeyed" world, and not keep it to ourselves!

But in order to show the vast difference of climate between this locality and that of just a short distance away, I will quote from a letter received from a friend in Portland, Oregon. Has Roseburg or vicinity recently had any such weather as this?

January 8, 1928.—We have had one of the worst snow and sleet storms in years—was about 9 inches deep and all ice. Heavy snow could run right on top and not leave a track—and without chains.

Well, you were just S. O. L. It fell on New Year's Eve, and is still about 4 inches deep in our yard—solid all the way through!

The effect of this weather on egg production—Portland eggs prices advanced some.

What did it do to their green feed? We can only guess.

Roseburg has the lowest wind velocity of any place in the U. S. Compared with conditions elsewhere, our winters are extremely mild. This will promote winter egg production, and broccoli can be grown here successfully, too.

Don't forget that these leaves are excellent green feed for poultry, and if you do get some kale and cabbage in broccoli, just call it more chicken feed. At least, it's not a complete loss.

The summers are not hot enough to cause heat prostration among birds under heavy production, as in parts of sunny California (most parts, at that!).

So remember, don't put all your eggs in one basket, but just say, "Broccoli and birds."

If your broccoli crop should happen to fail—feed it to your hens—the eggs may carry you through. Cut our corners, but don't jaywalk.

No, friend poultry keeper, Kail Berry is not a myth, but just one of Douglas county's poultry men, who hopes to see a great poultry industry in this county.

A few words from Mr. Cully and Mr. Leedy would help on this subject, as they are well versed in the advantages of Douglas county climate in everything.

I have written mostly on incubation, brooding and diseases as they

are of most vital interest to poultry raisers at this time of the year.

Yours truly
KAIL BERRY.

STORY WRITER IS A DEATH VICTIM

SAN DIEGO, Calif., Jan. 26.—William H. Hamby, widely known local writer, who died at his home here yesterday, after a long illness, was known through his books, articles and short stories to thousands of readers, not only in this country, but abroad, where many of his works have become popular.

He was probably best known for his short stories, but he wrote a number of books which were widely read. Among them were "Tom Heaney of Wahoo County," "Getting and Holding," "The Way of Success," "The Sound of the Hammer," "Vagabond's End," and "The Seventh Hunch."

He was born March 18, 1875 in Wright county, Missouri, and was educated at the University of Missouri. He is survived by his widow, and a son 14 years old.

He was buried at the Presbyterian church Friday, Jan. 27.

BUICK

Leads in 1927

In sale of all automobiles regardless of price, except two light four cylinder makes.

Registration figures for the year 1927 show BUICK far in the lead of any other motor car in the State of Oregon and Multnomah County, excepting Chevrolet and Ford.

	State of Oregon 1927	Multnomah County 1927
1st—Chevrolet	5427	1775
2nd—Ford	4147	1180
3rd—BUICK	2087	845
4th—4 and 6 Cylinder Line	1443	455
5th—Light Six	1422	595
6th—4 and 6 Cylinder	1421	530
7th—Light Six	1316	399
8th—4 and 6 Cylinder	1132	286
9th—6 Cylinder line	985	447
10th—4 and 6 Cylinder line	918	210

The above figures prove that the motoring public realize there is no other car in the BUICK price class that even approaches the BUICK in dollar for dollar value. For more than 23 years BUICK has year after year lived up to its well-known slogan,

"When Better Automobiles are Built, BUICK will build Them"

CHAMBERLAIN'S TABLETS "Help You Stay Well"

Another youth who had been convicted in the lower court with Abbie was found not guilty by the jury in Judge Hamilton's court, but in the Abbie case the jury found the defendant guilty.

The jury, however, declared it did not approve of the manner in which the evidence had been obtained, and declaring that the violation was not one of importance recommended that every leniency be shown, if not a parole.

JUDGE HAMILTON SENTENCES YOUTH

PORTLAND, Jan. 26.—The prohibition laws were placed in the statutes by the citizenry of the state and therefore the courts must enforce these laws, otherwise the courts will be criticized.

This was the view expressed by Circuit Judge Hamilton when he ordered that the sentence of 30 days in jail and a fine of \$200 imposed upon George Abbie, a Portland youth, in municipal court, in connection with the conviction for the sale of a case of gin, should stand.

The jury, however, declared it did not approve of the manner in which the evidence had been obtained, and declaring that the violation was not one of importance recommended that every leniency be shown, if not a parole.
