THE "CANARY" MURDER CASE

BY S. S. VAN DINE AUTHOR OF THE BENSON MURDER CASE

CHARACTERS
Philo Vance.
John F-X. Markham, district attorney of New York.
Margaret Odell (the "Canary") Charles Cleaver, a man-about-town.
Kenneth Spotswoode, a manufacturer.
Loula Mannix, an importer.
Dr. Amoroise Lindquist, a fashionable neurologist.
Tony Skeel, a professional burglar.
William Elmer Jessup, telephone operator.
Harry Spively, telephone operator.
Ernest Heath, Sergeant of the Homicide Bureau.

THE STORY THUS FAR
Vance believes Skeel was innocent of the murder of Margaret Odell and that he lay hidden in a closet while the stranger did his work. Markham ridicules the theory but Vance is unshaken. He shatters Cleaver's alibi of being out of the city the night of the murder and urges Markham to check up thoroughly on Mannix's whereabouts. Dr. Lindquist, who had lied once before, is brought in again and questioned.

CHAPTER XXXII
Doctor Lindquist winced and considered the matter at some length.
"And if I admit that my affection for Miss Odell was other than paternal—what then?"
Markham accepted the question as an affirmation.
"You were intensely jealous of her, were you not, doctor?"
"Jealousy," Doctor Lindquist remarked, with an air of ironic professionalism, "is not an unusual accompaniment to an infatuation. Authorities such as Kraft-Tbing, Moll, Freud, Erenexzi and Alder, I believe, regard it as an intimate psychological corollary of amatory attraction."
"Most instructive," Markham nodded his head appreciatively. "I am to assume, then, that you were infatuated with—or, let us say, amorously attracted by—Miss Odell, and that on occasions you exhibited the intimate psychological corollary of jealousy?"
"You may assume what you please. But I fail to understand why my emotions are any of your affair."

"Had your emotions not led you to highly questionable and suspicious acts, I would not be interested in them. But I have it on an impeccable authority that your emotions so reacted on your better judgment that you threatened to take Miss Odell's life and also your own. And in view of the fact that the young woman has since been murdered, the law naturally—and reasonably—is curious."

"He shifted his eyes. "I am not a married man; my emotional life has not been staided as it were; and I am constantly coming in close contact with hypersensitive and overwrought people. During a period of abnormal susceptibility I conceived an infatuation for the young woman, an infatuation which she did not reciprocate—certainly not with an ardor commensurate with my own."
"I suffered deeply," and she made no effort to mitigate my sufferings. Indeed, I suspected her, more than once, of deliberately and perversely torturing me with other men. At any rate, she took pains to hide her infidelities from me. I confess that once or twice I was almost distracted. And it was in the hope of frightening her into a more amenable and considerate attitude that I threatened her. I trust that you are a sufficiently discerning judge of human nature to believe me."
"Leaving that point for a moment," answered Markham non-committally, "will you give me more specific information as to your whereabouts Monday night?"
Again I noted a yellow tinge creep over the man's features, and his body stiffened perceptibly. But when he spoke it was with his habitual suavity.
"I considered that my note to you covered that question satisfactorily. What did I omit?"
"What was the name of the patient on whom you were calling that night?"
"Mrs. Anna Brendon. She is the widow of the late Amos H. Brendon of the Brendon National Bank of Long Branch."
"And you were with her, I believe you stated, from eleven until one?"
"That is correct."
"And was Mrs. Brendon the only witness to your presence at the sanitarium between those hours?"
"I am afraid that is so. You see, after ten o'clock at night I never ring the bell. I let myself in with my own key."
"And I suppose that I may be permitted to question Mrs. Brendon?"
Doctor Lindquist was profoundly regretful.
"Mrs. Brendon is a very ill woman. She suffered a tremendous shock at the time of her husband's death last summer, and has been practically in a semiconscious condition ever since. There are times when I even fear for her reason. The slightest disturbance or excitement might produce very serious results."
He took a newspaper cutting from a gold-edged letter-case and handed it to Markham.
"You will notice that this obituary notice mentions her prostration and confinement in a private sanitarium. I have been her physician for years."
Markham, after glancing at the cutting, handed it back. There was a short silence broken by a question from Vance.
"By the bye, doctor, what is the name of the night nurse at your sanitarium?"
Doctor Lindquist looked up quickly.
"My night nurse? Why—what has she to do with it? She was very busy Monday night. I can't understand. . . . Well, if you want her name I have no objection. It's Finkle—Miss Amelia Finkle."
Vance wrote down the name and, rising, carried the slip of paper to his health.

"Sergeant, bring Miss Finkle here tomorrow morning at eleven," he said, with a slight lowering of his eyelid.
"I sure will, sir. Good idea." His manner boded no good for Miss Finkle.
A cloud of apprehension spread over Doctor Lindquist's face.
"Forgive me if I say that I am insensible to the sanity of your cavalier methods." His tone betrayed only contempt. "May I hope that for the present your indignation is ended?"
"I think that will be all, doctor," returned Markham, politely. "May I have a taxi cab called for you?"
"Your consideration overwhelms me. But my car is below." And Doctor Lindquist haughtily withdrew.
Markham immediately summoned Swacker and sent him for Tracy. The detective came at once, polishing his pipe and yawning affably. One would have taken him for an actor rather than a detective, but his ability in matters requiring delicate handling was a by-word in the department.
"I want you to fetch Mr. Loula Mannix again," Markham told him. "Bring him here at once; I'm waiting to see him."
Tracy bowed genially and, adjusting his glasses, departed on his errand.
"And now," said Markham, fixing Vance with a reproachful look. "I want to know what your idea was in putting Lindquist on his guard about the night nurse. Your brain isn't at par this afternoon. Do you think I didn't have the nurse in mind? And now you've warned him. He'll have until eleven tomorrow morning to coach her in her answers. Really, Vance, I can't conceive of anything better calculated to defeat us in our attempt to substantiate the man's alibi."
"I did put a little fright into him, didn't I?" Vance grinned complacently. "Whenever your antagonist begins talking exaggeratedly about the insanity of your notions, he's already deuced hot under the collar."
"But, Markham, old thing, don't burst into tears over my mental shortcomings. If you and I both thought of the nurse, don't you suppose the wily doctor also thought of her? If this Miss Finkle were the type that could be suborned, he would have enlisted her perjurious services two days ago, and she would have been mentioned, along with the comatose Mrs. Brendon, as a witness to his presence at the sanitarium Monday night."
"The fact that he avoided all reference to the nurse shows that she's to be wheedled into swearing falsely. . . . No, Markham, I deliberately put him on his guard. Now he'll have to do something before we question Miss Finkle. And I'm vain enough to think I know what it'll be."

Stabbed By Neuritis!

Many people suffer attacks by this archfiend, commonly called "nerve inflammation." The first warning is usually a sharp, stabbing pain, which may "come and go" or hurt constantly. You may feel it in the shoulder, neck, forearm, small of the back, or down the thigh and leg to the heel. It is sometimes mistaken for sciatica, rheumatism or neuralgia, which troubles often do end in neuritis.
No matter where you have nerve pains or what caused them, you can get quick relief without using narcotics or poisons. Apply Tysmol over the part that hurts and the pain will soon be gone.
Tysmol is absorbed through the pores of the skin. It has a soothing, healing effect upon the diseased nerves, gradually helping to restore them to healthy condition.
Don't suffer any longer. Get a supply of Tysmol at any good drug store. Price \$1 everywhere.
