**500,000 Candlepower Headlights in the Wings Show Way by Night to Colonel Lindbergh's New Airplane**

SAN DIEGO, Calif., April 13.—The shades of night will mean nothing to Col. Charles Lindbergh when he roams the air lines in his new air yacht, just completed by the factory which created the famous Spirit of St. Louis.

Not only is the new ship equipped with parachute flares which when dropped will illuminate the ground for an area of 10 square miles.

It also has two huge headlights, innovations in aircraft construction, streamlined into the front of the plane's wings. They are 40 feet apart, and each lamp is capable of developing 250,000 candlepower. So the air sea may land in the full glare of the parachute flares, supplemented by half a million candlepower of light from his own headlights.

Powerful lenses in the lamps concentrate the lights, which get their power from batteries carried by the new ship. So strong are the lamps and they draw so much current that the batteries will keep them going for only about 10 minutes, but this is considered ample, as they will be used only momentarily during landing to pick out obstacles in the plane's path.

Lindbergh's new plane, following the same general lines as the Spirit of St. Louis, is in striking contrast in several respects.

Instead of the Spartan simplicity of that of the Spirit of St. Louis, the cabin of the new plane is luxuriously upholstered and has accommodations for five persons. The periscope that enabled Lindbergh to see ahead on his memorable journey to Paris is missing in the new craft, and instead there is a glassed-in compartment, which makes the periscope unnecessary.

The wingspread of the new machine is the same as that of the Spirit of St. Louis. This is slightly greater than that of the brougham type, of which the Spirit of St. Louis was an adaptation. The greater wingspread was desired to obtain the carrying capacity Lindbergh desired.

With a gasoline tankage of 161 gallons, the cruising capacity will be 1,000 miles. At Lindbergh's express order the latest navigational instruments are a part of the plane's equipment.

There are no special markings on the plane to distinguish it from the regular brougham type, but the "eyes" in the wings and wide sweep of the monoplane marks it as different.

The flyer is ready to do some of the testing himself. First tests were made by one of the manufacturing company's pilots.

PORTLAND, Ore., April 13.—Butter markets were steady to a shade firmer today, many dealers inclined to believe the bottom has been reached in the price movement.

Pacific coast storage holdings increased 21,070 pounds last week, it was reported, with the total holdings placed at 238,470 pounds, an increase of over 40,000 pounds over last year at this time.

Except for an increase of 1¢ in the price of medium firsts, egg quotations were steady and unchanged today. Receipts yesterday were 2,490 cases of which 1,591 went into storage swelling the total to 28,555 cases.

**COUNTRY CLUB TO HAVE BUSY GOLF SEASON**

Schedule Now Being Completed for Special Sunday Events.

THREE CUPS OFFERED

Tournament Committee Has Complete Program Calling for Special Play Each Week.

J. W. Perkins, chairman of the golf tournament committee of the Roseburg Country Club, states that the committee has completed a schedule of Sunday playing that will provide the busiest and most enjoyable season the club has ever had. Some special features have been arranged for every Sunday from the first of May until the last of November, with several outstanding events included in the calendar.

The month of April is to be devoted, Mr. Perkins says, to "tuning up" and general preliminary playing in preparation for the strenuous season that commences the first of May.

The local tournaments will start on May 6 with a blind handicap, and each Sunday there will be other tournaments such as sweepstake, 3-ball tournament, mixed tournament, etc., something of a special nature being arranged for each week. These matches will be continued throughout the month of June and month for month for the out-of-town games which start in July. The tournament team will play away from town every Sunday during July and the first week in August, matches having been arranged with Medford, Eugene, Corvallis, Marshfield and Grants Pass.

During the month of August the handicap tournament for the president's cup will be played off, this cup being won through a series of elimination matches in which each player has an opportunity to join.

September is to be the big month of the season, starting off with the formal opening of the new grass greens. This will be made an outstanding event and an exhibition tournament will be played with such men as Dolf Willing, Junior and Egan present. All clubs of the state are to be invited to Roseburg for the day and it is expected that there will be a huge gallery present to witness the exhibition and to go over the new course.

The balance of the month will be given over to return matches with the outside clubs with which Roseburg will have previously played.

October is to be given over to the play for the Director's Cup, a trophy to be won by medal score, going to the best player of the club to be selected through a series of eliminations.

President Wilder has just purchased a cup for the club's tournament, and this will also be played in October, following a handicap tournament. The committee has set aside Thursday of each week as ladies' day and the ladies will have right of way over all other players on that day of each week.

The members of the club are looking forward to one of the busiest and most interesting seasons ever experienced here. The interest and attendance has so far been fine with the course crowded each Sunday.

Grass is now growing on the new greens and they will soon be sodded sufficiently for play. Expert golfers who have gone over the proposed new course say that Roseburg will have a course second to none in the state when the new links are ready and Roseburg will have a right to be proud of the course it will have to offer its visitors. It is expected that hundreds of visitors will be drawn to the city during the year and the course will prove a valuable asset.

ALBANY, N. Y., April 13.—Search lights, trained throughout last night on a downtown building at Middlebury college, Middlebury, bore evidence of the intensity of the effort which is being made by New York state to bring Clara Blanche Knapp to Albany to testify in the grand jury proceedings against her step-mother, Mrs. Florence S. Knapp.

Mrs. Knapp, formerly secretary of state, is under indictment for her administration of the 1925 state census, and further indictments are being sought.

Since Tuesday morning, Miss Knapp has been besieged in her dormitory by peace officers of Addison county, Vermont, and investigators of the New York state department of law in a vain attempt to serve a subpoena on her.
