JOE WELSH GREAT BOOSTER FOR NORTH UMPQUA DISTRICT

Is Enticing Friends by Means of Letters Praising the Recreational Features of River.

If Roseburg had a few boosters within her own confines, equal in enthusiasm and action to a resident of a city several hundred miles away, there would be no stopping of the immediate progress of this community.

Last year Joe Welsh, nationally known manufacturer of fishing tackle, a sports writer and enthusiast who is known the world over for being a real sportsman without pose or emouffage, made his first visit to the North Umpqua. He was accompanied by Jack Boaz, a fishing expert for a Pasadena hardware firm, and together they two men passed a most enjoyable visit on the North Umpqua, where they were presented with a fishing lodge as the gift of Roseburg sportsmen.

Mr. Welsh was greatly pleased and impressed by the recreational features of the district. He is a great nature lover, and despite the fact that he is an outstanding fisherman he spent much of his time hiking through the hazy woods to points of scenic beauty. Mr. Boaz was successful in catching several big fish, but his greatest success was in losing practically all of the tackle the party brought with them while trying to pull out some of the big fish that took his life.

Mr. Welsh went back to Pasadena just bubbling over with enthusiasm regarding the North Umpqua and he has been one of the most influential and consistent boosters Roseburg has ever had. Several articles for newspapers and magazines have been published and given wide circulation, and in addition to this work Mr. Welsh has put forth a great deal of personal effort.

For instance, there has recently been received locally a letter containing a copy of a message sent by a representative of one of the leading insurance companies of the country to Mr. Welsh. The writer of the letter is a resident of Los Angeles, and wrote to Mr. Welsh as follows:

"Your kind and highly descriptive letter relative to the Umpqua received, and read by myself several times, by most of my angling friends, and finally, to have done its full good, sent to a friend of mine in Colorado who will read and return it to me. That letter said so on the northern stream, and we shall be there in July and hope will have the pleasure of meeting you there. Speaking of fishing in Diamond Lake, have done some lake fishing, but as a rule the fish in still water fall to fight hard and not being aided by the current the capture is tame.

"We shall leave here some time about the first, probably the first day, or if not then, about the 5th or 6th, and in that case will see you on the 18th, but if on the first will be back in California by that time."

A Pasadena paper, commenting on Mr. Welsh's activities recently stated:

"Joe Welsh, noted Pasadena fisherman, who for a generation has been a staunch advocate of conservation of game in California, is now offering his aid in Oregon in a similar endeavor. He is located from Roseburg, in that state. Mr. Welsh is highly regarded in the North, as was shown when Roseburg and Douglas county sportsmen some time ago decided to him a cabin on the North Umpqua river, in the midst of some of the finest fishing in the country.

"This stream is 200 miles long, rises in the Cascade mountains and is the longest stream in the land, states Mr. Welsh, which has no connection with any other river before reaching the ocean. It is full of trout and salmon.

"An endeavor is now under way to protect the game fish of that section of Oregon and Mr. Welsh is lending his strong support."

FUNERALS BRING MAYOR 'BILL' FACE TO FACE WITH FOE

(Associated Press Special Wire)

CHICAGO, May 1.—Funerals on two occasions have been the medium of bringing Mayor Thompson face to face with the man he has fought bitterly and without quarter at the polls.

It was at a funeral several weeks ago that Thompson was publicly rebuffed by former Mayor William E. Dever, whom Thompson had defeated for re-election. Dever refused to shake hands with the mayor and the incident led to statements in which each made it clear he had no desire for further acquaintance with the other.

Similar meeting yesterday between Mayor Thompson and United States Senator Charles S. Deneen had more pleasant results. Senator Deneen who was here for the funeral of the late Congressman Madison, led the ticket which defeated the Thompson slate in the republican primary election, April 10.

A dinner was being given at which three senators and several congressmen were among the guests. Arriving late Mayor Thompson found the only vacant seat adjacent that of Senator Deneen. Aware of the political difference between these two, the other guests turned their eyes to see what would happen.

They saw the mayor extend his hand, which the senator shook. The

MORE U. S. MARINES REACH NICARAGUA

PUERTO CABEZAS, Nicaragua, May 1.—Determination by American authorities to prevent any raid by rebels on the east coast of Nicaragua was seen today in the arrivals of the cruisers Cleveland and Galveston with detachments of American marines.

The Cleveland and Portland later proceeded north while the Galveston and Denver remained.

This reassured those who have been fearful that General Augusto Sandino would suddenly descend upon Puerto Cabezas. There have been indications, however, that Sandino's raiding activities are over for the time being since there are persistent rumors that he has been ill for some time at a small plantation northeast of Matagalpa.
