ROSEBURG VILLAGE WEDDING OF 1875 IS CELEBRATED

Mr. and Mrs. R. A. Emmett Now of Klamath Falls Congratulated on Anniversary.

Judge and Mrs. R. A. Emmett, Douglas county pioneers, who later moved to Klamath Falls, celebrated their fifty-third wedding anniversary last Sunday, May 6, receiving the congratulations of many friends and acquaintances.

On May 6 in 1875, in the city of Roseburg, then just a village, the pioneer couple were married, leaving three weeks later for Klamath Falls where they have made their home for more than one-half a century.

Mrs. Emmett, as well as her husband, claims the honor of being one of Oregon's oldest pioneers. When she was but 12 years of age she crossed the plains with her parents, coming to the little town of Coles Valley, Oregon...

Upon coming to Klamath Falls, Mrs. Emmett led a pack horse over the mountains from Roseburg, while her husband drove cattle. The couple, then married less than three weeks, were on the trail for more than three weeks.

Settling first on the old Lee ranch, five miles south of the city, Judge Emmett raised the first grain in Klamath county. Here they lived in a small log cabin with a dirt floor. Later they moved near Keno where Judge Emmett purchased a ranch, which he has owned throughout these many years.

Mrs. H. C. Miers of Santa Cruz, California; Mrs. Edward Propst and Mrs. W. Paul Johnson, both of this city, are the daughters of Judge and Mrs. Emmett. They have five grandchildren and thirteen great grandchildren.

(Associated Press Special Wire) ABERDEEN, Wash., May 8.—Ted Krache, Hoquiam, Wash., welterweight put up his best fight in many months last night when he slugged it out for six rounds with "Punch" Em Paul, Delaney of Spokane, Wash. The referee called it a draw and nearly started a small riot.

Ted Clauffer, one of Krache's seconds, jumped into the ring to protest the decision. He was followed by Leo Lomski, Aberdeen light heavyweight, contender, who seized the second by the shoulders. Clauffer stumbled and fell backwards and the ring was immediately filled with milling fans.

When Lomski explained that his only object was to prevent a disturbance the fans were mollified and left the ring. It was a slugging toe to toe battle, but the majority of the fans thought that Krache had a slight edge and deserved a decision.

THE LATEST word of the dietitian: "Whole cereals—home-cooked—for growing children." For it is the bran and the germ—rich in minerals and vitamins—which help regulate and build sturdy bodies.

Albers Carnation Wheat is a whole cereal and because it is untoasted every bit of the priceless growth-promoting protein is preserved.

For a growing-breakfast—Carnation Wheat.

SCARLET FEVER IS REPORTED IN PARTS OF COUNTY

Due to the fact that there are several cases of scarlet fever in the county and that a few people have been exposed during the onset of these cases, Dr. DeWalt Payne, county health officer, issues the following warning with some information about the disease:

Scarlet fever is transmitted by the secretions of the nose and throat and not by the scales as we used to think. The patient may be infective for two or three days previous to the eruptions and during this time there may be no symptoms, but usually there is a feeling of indisposition and a sore throat. This sore throat may be considered just tonsillitis and thus many people may be exposed before the scarlet eruption appears. The onset usually occurs from two to seven days after exposure and may be severe accompanied by a chill and vomiting in young children.

The disease has very serious effects on the heart, kidneys, joints and ears. There is a method of immunization against it and an antitoxin for the disease, as with diphtheria.

If you have a sore throat do not go to school or any gatherings and take a chance on exposing someone else. Call your family physician or report to the Health department.

According to the Oregon Public Health Laws of 1925, section 9, when no physician is in attendance the following must report the occurrence of any contagious disease, in writing or on the proper blank, to the city or county health officer: (a) Any person practicing the art or science of healing; (b) anyone having the care of a patient, if (1) the head of a household, (2) the proprietor of a hotel, (3) the proprietor of a lodging house, (4) the proprietor of a boarding house, (5) the proprietor of a dairy or produce farm, (6) the superintendent or manager of a private hospital or sanitarium, (7) visiting nurses, (8) heads of Monday visiting friends.

The Douglas County Health unit reports the following activities for the past week: 3 cases of communicable diseases investigated and quarantined, 12 diphtheria immunizations, 8 nursing calls, 5 health talks with an attendance of 325, 9 pupils treated at pre-school clinics, attendance 28; 4 visits to county home, 9 patients treated by health officer, 2 visits to the county jail, 9 antitoxic treatments, 25 office conferences, 49 letters sent out, 734 miles traveled by two nurses and health officer, 26 nurses' conferences.

EDWARDS, NOTED NEGRO RUNNER, TO VIE IN OLYMPICS

(Associated Press Special Wire) NEW YORK, May 8.—Phil Edwards, fleet negro runner and captain of the New York university track team, will compete for Canada in the Olympics this year but he will celebrate his final appearance in American college ranks by attempting to win both the 440 and 880 yard races in the intercollegiate championships at Harvard stadium May 25-26.

Edwards, not yet 21, has one of the most remarkable strides that any collegian has ever possessed. The New York U. captain said he traces this development of long walking contests with his brother King, who was a sprinter on the Violet team. The Edwards brothers were born in British Guiana, but their maternal grandfather came from Scotland and their paternal grandmother was an East Indian.

Edwards won the national 600 yard indoor title last winter and was unbeaten in seventeen indoor races except by Lloyd Hahn who twice raced the negro star. Edwards thinks that 1:51 is quite within the reach of present day half milers and hopes that perfect conditions will prevail when he goes after that mark at the Harvard stadium.

"I am confident," he said, "that current prosperity in the United States will continue. The business outlook is good and there is no factor in sight to disturb its future."

Of his own affairs Ford said that the Ford Motor company has about 1,000,000 orders on hand and that production was being increased as fast as possible to meet the demand.

Trapped by Her Past!

RECENTLY an actress, who a few years ago was popular on Broadway, submitted to True Story Magazine a most startling story. It told why she had left the stage at the height of her career never to be seen upon the boards again.

It was a tale of dread and terror as each night she swayed her thousands to smiles or tears, her eyes, masking the agony in her soul, were seeking, always seeking among the audience, the one man in the world who had the power to drag her down from the pinnacle of success to the ignominy of defeat. Deep in her heart she knew that some day he would come, and that when he did her career would end.

And so when one night she received a note from a man in the audience who was awaiting her reply, she realized the time had come to settle her account with fate. Her story entitled "Trapped by My Past," appears in True Story for June. With nothing hidden, nothing omitted she has put into it all the fire that perhaps once held you spellbound across the footlights. Maybe as you read it you will recognize her. If so you will then know the answer to a question you have probably asked yourself many times.
