CRASH OF PLANE KILLS AVIATOR AND PASSENGER

(Associated Press Leased Wire)

GRAVENHURST, Muskoka, Canada, Aug. 9.—Captain Charles Haines, pilot, of Miami, Fla., and Robert Erving, 18, of Pittsburgh, a passenger, were killed and five other passengers injured in a crash of the Loening Amphibian plane today. The plane fell 500 feet to the rocks near Beaumaris.

The injured are in a sanitarium here. They are Wallace Phillips of Pittsburgh, said to be internally hurt; Miss Lucy Hill of Boston, broken arm; James Reed, Pittsburgh, minor injuries.

Going to Empire—

Mr. and Mrs. Claude, Harvey of Fair Oaks were visitors in this city for a brief time Thursday. They were enroute to Empire for a week's vacation.

Ring Star of Christy Bros. Circus

The Christy Bros. Wild Animal Circus which will be here Friday, Aug. 17, for two performances is the only large circus in all the world that still retains the parade feature of the circus day with a two mile long gorgeously and brilliantly spectacular street pageant that will leave the show grounds promptly at noon.

The management of the Christy Bros. Circus are unique in one particular inasmuch as they don't claim to be the largest circus on tour but stress the fact that there is only one circus that outranks them in size, and there are only two circuses that can boast of five rings and a hippodrome track and the Christy Bros. Circus is one of them. In the circus world the Christy Bros. Circus is famed as the wonder show as it has grown from a three car nondescript affair to its present gigantic and stupendous proportions.

Among the features of the big show is the seven pole menagerie covering over a city block with fifty cages of wild animals and five herds of elephants with Miss Jumbo the oldest and largest of all pachyderms as the accepted leader, and thirty black maned African lions, the menagerie even has a real live stork and the only herd of Iceland reindeer.

The performance has such great circus attractions as the Chang Lio Hio troupe of Chinese acrobats, making a slide for life, suspended by their hair from the dome of the canvas on a slender swaying wire. Then the puchkini troupe of Costa Ricans are another big hit of the present season, and Senor Phillipe Castelinni the Spaniard who is one of the outstanding stars of the circus world, and is famed for his recklessness on the tight wire, standing on his head on the silver thread, and there is no net to catch him in case he falls from the top of the tent. Every time this dare-devil makes his appearance in the arena, he risks his life and looks death in the face.

Performances are scheduled for two for the afternoon and eight for the night performance.

When we contrast our dried up Umpqua valley farms with the luxuriant alfalfa fields and flower beds of our southern neighbors we feel very sorry for ourselves, and wish that we might see our lazy old river put to work to make beautiful a region which lacks only the magic touch of the water to convert it into a veritable Eden.

HABITUAL STOWAWAY MUST SPEND MONTH IN JAIL

(Associated Press Leased Wire)

SOUTHAMPTON, England, Aug. 9.—A stowaway to Europe aboard the steamship Aquitania is going to cost Miss Betty Simpson, 25, of Ada, Okla., four weeks in the jail at Winchester.

The American girl, who was accused of stowing away at least three times previously, was arrested on behalf of representatives of the Cunard line, who declared that her story of finding herself on the liner at sea after taking a couple of drinks and losing consciousness was false.

Miss Simpson pleaded that she met two young men on the pier in New York and at their invitations went aboard to have a drink. She had six drinks and remembered nothing more until she recovered consciousness the next day on the boat deck with the ship at sea. A representative of the Cunard line said that this story was not true.
