## PLANS ARE MADE FOR FIGHT CARD ABOUT OCTOBER 11

Clyde Ward, local boxing promoter, announced today that he is arranging for the first card of the fall season to be presented October 11, or at some date near that time. It is his plan to make the card one of the best he has ever presented, and is endeavoring to secure some real underdogs for the engagements which he will stage.

In his present plan so make the main bout a 10-round engagement between Scott Holley, colored boxer from San Diego and Frankie Thurnell, the "Portland Hurricane" Holley is well known to Roseburg fans as he has fought here several times previously. He is a ring veteran and has proved his ability by knocking out some of the best men of his weight in Oregon and Washington. He has been working regularly with good divisions in Salt Lake, according to reports received here. Burnett is one of the fighters now making a reputation for himself in the Portland vicinity and a fight between these boys should be a real drawing card.

The card will really be a double main-event, with Pat Padelford, former Roseburg boy, as one of the principals on the second match. His opponent has not yet been selected. Padelford has at

ways had a great ability as a boxer, but has neglected his training. He is now settling down to real work, however, and has been given excellent training during the past year, so that he is making an exceptional showing. At Medford last night he beat Lasky Morrison, "The Tiger of the Philippines" classed as one of the best fighters of his weight in the world. This victory immediately advanced Padelford into the first rank of the 123-pound class. It is hoped to match him with some boxer who will give him a tough battle, so that a victory for either fighter will be strongly in their favor.

### TRIO USED MAILS TO DEFRAUD PEOPLE

PORTLAND, Ore., Sept. 29.—Elmer C. Spickelmier, J. H. Bailey and Ray Shuman have been arrested by federal authorities under an indictment charging mail fraud in which relatives of deceased persons were victimized.

J. W. McCulloch, deputy United States attorney who will prosecute the case, declared the men followed the obituary columns daily, sending packages of cheap jewelry to the deceased person's address with collect charges and a \$2 C. O. D. fee.

The express company was instructed to send the money to box 400, Sacramento, Cal., in turn, a check for the money was mailed to box 111, Medford, Ore.

Mourning relatives would pay the fee and accept the packages, believing the packages legitimately ordered.

Spickelmier was arrested at Westfall, Ore., while the other two defendants are in jail at Medford.

## Lindy Becomes a "Musketeer"

Col. Charles A. Lindbergh reverted to stunt flying at the national air races in Los Angeles when he took place No. 13 and joined Lieutenant W. C. Cornelius (left) and Irwin Woodring in his training stunts. Lindy took the place of Lieut. J. J. Williams, killed at the next week in stunts with the other two army men as "Three Musketeers."

## This "Blanket" Is Costly

The blankets to be made from this ram's woolly coat may be the best in the world. They are made from the wool of a single ram which was killed by John K. Mason at Mt. Pleasant, Utah, and sold at the recent national fair at Salt Lake City.

## HOOVER AHEAD OF SMITH ON SECOND WEEK STRAW VOTE

Literary Digest Poll Shows  
Half Smith Strength  
Coming From the  
Republicans.

Hoover again leads Smith in the second week's straw vote from two states in The Literary Digest's bi-monthly "hatred" presidential "straw" poll.

Smith is given 52,855 votes, or 51 per cent, and Hoover has 49,722, or 47 per cent of the total of 102,577 votes reported received. The 2 per cent remainder is distributed among the three minor candidates.

A significant feature of the poll is that over one-half of Smith's votes to date have come from former republican voters while Hoover has gained only about 12 per cent of his strength from voters who are democratic according to an analysis of "how the same voters voted in 1924."

No returns are scheduled as having been received yet from any of the states in the "Solid South." Maryland shows 11,564 votes for Hoover as against 7,296 for Smith.

The democratic strength in the 1928 poll is twice that of the 1924 poll at the same relative time and with comparative returns. The Literary Digest points out. Coolidge was the leading Davis by a margin of over 4 to 1 in 1924, while Hoover now leads Smith by 2 to 1. In the 1924 returns the Coolidge-Davis vote was reduced to less than 2 to 1. If the democratic strength now gains similar strength as the present poll progresses it is predicted that the contest will be closely fought.

While Hoover is leading Smith by 23,934 to 12,822 votes in the latter's native state of New York, it is indicated that these votes are only a fraction of the total to be received and include as yet none from New York City.

"Several details combine to temper the strongly republican suggestion of this early vote," The Literary Digest states. "Perhaps the most significant is that Governor Smith seems to be drawing more than one-half of his total vote from those who were republicans in 1924. For in his total of 52,855, it will be noted, 23,817 republicans as of 1924 were represented as against only 23,051 democrats. Nor is this surprising, for the republican counterbalance by the democratic drift to the republican candidate.

"An important factor in the first scattering vote from New York State, shown as 30,814 for Hoover to 12,822 for Smith, is the fact that this balance thus far tabulated came entirely from districts outside of New York City.

"This more than two-to-one vote in favor of the republican candidate may be compared with analogous figures from the second week of The Literary Digest poll in 1924, when 17,529 New York voters were shown for Coolidge as against 7,764 for Davis, a proportion of more than two to one as against two and a half to one in the present poll.

"The actual election vote in New York state in 1924 gave Davis 329,736 to 1,829,759 for Coolidge; while in the same election, Smith ran ahead of Roosevelt by 1,627,111 to 1,518,552. The vote of New York City, generally admitted to be strongly for Smith, will be added to these columns in the near future, together with the vote of the "Solid South," as yet unreported.

"These factors, judging on the basis of the 1924 poll, may be expected considerably to cut down the republican lead. It may be true the two candidates to a practical parity.

## JOURNAL BATTLES FOR VET'S CAUSE IN SQUATTER CASE

The Oregon Journal in today's issue carries the following lead editorial concerning the imprisonment of the North Umpqua squatters, Deak and Davis:

"On the night of June 5, 1918, the American and French lines near Bellows Wood, France, were attacked by the famous Prussian Guard. An advance line of the French broke and fled through the American lines," throwing away their guns as they ran.

A company of American marines was in the American force. One of the 250 men in the company of marines is in Oregon.

The attack of the Prussian Guard was met and both of the two regiments in the assault were cut to pieces. A second attack by the Fourth and Fifth Prussian Guard was similarly disposed of. These and further operations carried the American force into Bellows Wood, where the company of marines was cut to pieces by machine gun fire. The line was refilled, and again cut by casualties to only 27.

Out of these operations, among the bloodiest in the war, a surviving member of the company of marines, who is now in Oregon, emerged gasped and with a crippled ankle, injured by an exploding shell.

This crippled ex-serviceman came into Oregon and tried to get a piece of land in the mountains on the headwaters of the North Umpqua. He is now in the Multnomah county jail because he tried to occupy land in the forest reserve, shifting for herself meanwhile, his wife is waiting for him to come out his sentence. So are three young children.

She is leading a cabin on the North Umpqua land and occupying it. The former ex-serviceman was indicted for the same offense on the grounds that the land was not agricultural land. He went back, filed a mining claim, and again, occupying his cabin with his family, was arrested brought to Portland, found guilty of contempt of court, and is now in the Multnomah county jail.

But a big power corporation owned as the Umpqua project, of Oregon, had \$1 million of power lines on the headwaters of the North Umpqua, which is the 10,000 acre.

August 15, 1927, the power corporation was given by the federal power commission a permit for construction of 64 miles of low power lines on the North Umpqua between Little and Lake Deves and to make explorations on what would be a comprehensive power development. The permit is given in the same month as in the case of the Umpqua project of the North Umpqua.

Which it is not that one of the 100 power corporations that in 1927 owned 60 per cent of the electrical output of America has \$8 million of the whole power line on the North Umpqua built up for the future plans, but a crippled veteran, who is now in Oregon, emerged gasped and with a crippled ankle, injured by an exploding shell, and he is now in Oregon, emerged gasped and with a crippled ankle, injured by an exploding shell.

## BRIDE PLUNGES FOURTEEN FLOORS TO TERRIBLE DEATH

NEW YORK, Sept. 29.—A bride of two weeks, the socially prominent Mrs. Charles Dwight Sabin, Jr., is dead, victim of a fall from the fourteenth floor of the Hotel Weylin.

She was the second prominent woman to be killed in such an accident in 24 hours. Mrs. Evelyn Reynolds, daughter of Henry L. Stoddard, fell from her father's fifteenth floor apartment in the Hotel Mayfair, Thursday night.

Mrs. Sabin complained of vertigo on Thursday and was not well yesterday morning. She had returned a short time before from a shopping trip and was alone in the apartment when her husband returned to the hotel. He was stunned by news of the tragedy. He said his wife had complained of feeling ill but they had not considered it serious.

She and her husband, a grand nephew of Samuel Tilden, who contested with Rutherford B. Hayes for the presidency in 1876, were married two weeks ago and spent their honeymoon at the Sabin estate in Maryland, Va. They returned to the city Thursday night and were spending a few days at the hotel while their apartment was being made ready.

Mrs. Sabin, before her marriage, was Mrs. Mary Boylan, of New York. Mr. Sabin, a descendant of Mayflower stock, is a son of the late Charles Dwight Sabin, who was a member of the New York produce exchange. He is interested in horse breeding and kept a large stable at his Virginia farm. He is a graduate of Williams college, class of 1916, and served overseas with the 27th division during the World war.

## BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of laryngeal irritation, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)
