STATE TAX RELIEF BOARD ANNOUNCES RECOMMENDATIONS

(Associated Press Leased Wire)

PORTLAND, Ore., Jan. 6.—Members of the state property tax relief commission debated yesterday over various details of suggestions to the legislature for reducing taxes. The commission is working on a set of recommendations which if adopted are expected to cut taxes in Oregon.

Much of the session was devoted to a proposed recommendation to have the legislature review the expenditure of millage taxes raised for state institutions at higher learning. A sub-committee had recommended:

"A specific authorization by the legislature or other taxing body prior to each subsequent levy of a continuous millage tax, the levy to be limited to such amount as is approved in the budget for which the elected taxing body is responsible." After discussion this was adopted with the addition of the words, "not heretofore voted by the people," to follow the words, "millage tax."

It was pointed out that under the original text of the sub-committee's recommendation the legislature could pass an expenditure of the funds raised for the University of Oregon and Oregon State Agricultural college through the millage tax voted by the people.

People Running Wild
Bruce Dennis, of Klamath Falls, a member of the sub-committee, who spoke in favor of the report said: "We are talking too seriously this stuff passed by the people. A bogey-man is running about this state called the people voted it. The people are voting our taxes higher and higher. One of the chief causes of our high taxes is that we have let the legislature duck its responsibilities."

Claude E. Ingalls, of Corvallis, and Judge L. T. Harris, of Eugene, spoke against the report. Both said it would bring back old log rolling methods of the legislature.

Recommendations
There was a wordy battle over a recommendation that the state funds be given the state fair, but this was passed.

Consolidation of the state government into the cabinet form, and plans for reduction of real property tax, are prominent features of the commission's recommendations.

repeal of the two-mill elementary school tax on property, substitution of a one-cent gasoline tax or other motor fees for a state property tax of 1 mill, and relief of county property taxes by one mill and relief of county property taxes by one mill by abolition of a requirement that this tax be levied

NOTICE

The Rod Arrow freight is now located in the Croason Building, 714 North Jackson St. Phone 592.

In order to obtain county pro-rata of the state market road fund, are proposed. Creation of a full-time state tax commission of three appointive members to supervise assessments is another recommendation.

PATTERSON NOT GUIDED BY PORTLAND COMPLAINT

PORTLAND, Ore., Jan. 5.—In making his appointments of members of the public service commission yesterday Governor Patterson did not wait for transcript of the Portland complaint warning over a letter of Kenneth G. Harlan, rate expert, it was revealed at the city hall today.

At the hearing Harlan explained his reasons for stating that the council should demand new commissioners be appointed by the governor. He accused Commissioner Corey of bias in favor of the Portland Electric Power company, and declared that in order to get a fair hearing of its case before the commission the city should see to it that new commissioners were named.

The council decided to make no demand on Governor Patterson, but hired a court reporter to make a transcript of the hearing to be forwarded to the governor for his information. The transcripting of the reporter's shorthand notes was completed late yesterday and despite the governor's having made his decision the transcript was sent to him by special messenger today.

PATTERSON CUTS \$4,200,000 FROM THE STATE BUDGET

(Associated Press Leased Wire)

SALEM, Ore., Jan. 6.—Oregon's governmental requirements for the year 1929 and 1930, as recommended by Governor Patterson, state budget officer, a.s.v. at \$23,115,351, according to the biennial budget of proposed expenditures completed here today by state A. Kouer, state budget commissioner.

Of this amount \$23,150 will be raised by fixed appropriations, while \$1,952,856 will be received through millage levies within the 6 per cent limitation. Millage levies outside the 6 per cent limitation total \$6,195,273. The amount recommended by Governor Patterson for appropriation to the legislature without the 6 per cent limitation is \$175,352. Aid from license fees and other incidental revenue, in addition to appropriations or millage levies, was fixed at \$7,494,141.

Legislative appropriations for the years 1929 and 1930, as approved by the governor, are approximately \$4,200,000 less than during the years 1927 and 1928, and \$1,200,000 less than during the bienniums 1925 and 1926. The appropriations for 1927 and 1928 totaled \$27,359,457, as against \$24,456,246 in the years 1925 and 1926.

Total requirements to be provided for in 1929 and 1930 through property tax and other revenues applicable to the payment of the general governmental expenses was fixed at \$35,636,891.

MEXICO BECOMES HUMANE TOWARD ITS CRIMINALS

MEXICO CITY, Jan. 6.—The whip and the instruments of punishment are to be abandoned on the Mexican "Devil's Island" and trade schools and cooperative workshops are to be established for the benefit of the prisoners.

Emotional scenes were enacted among the prisoners on the island when General Francisco J. Mujica, new director of the penal colony, announced that henceforth only humane methods would be employed in dealing with the criminals exiled there. Many of the prisoners broke into tears when the general, in a speech to the members of the colony, made known the new policy.

The colony occupies the largest of a group of three islands off the southern coast of Mexico, known as Las Tres Marias. Only criminals of the worst type are sent there and the establishment long ago earned for itself the title Mexican Devil's Island. Prisoners shuddered at the idea of being

EXPOSURE BLAMED FOR DEATH OF CHURCH EDITOR'S DAUGHTER

(Associated Press Leased Wire)

NEW YORK, Jan. 5.—Death of the Rev. Dr. James Garfield Bailey, editor of the Presbyterian magazine, was attributed today by exposure suffered several days ago during a spectacular fire in the uncompleted Riverside Drive Baptist church, of which the Rev. Dr. Emerson Fosdick is to be pastor.

Arundel, piano tuner. Phone 189-L.

YONCALLA WINS FROM SUTHERLIN

teams defeated the Sutherlin high school team at Yoncalla Saturday night in two fast and interesting games. The Yoncalla girls won 46 to 34. The game was even until the last quarter, when Yoncalla girls staged a sensational rally and piled up a wide margin that gave them the victory. The game between the boys' team was exceptionally fast, particularly in the first half. In the second half Yoncalla suffered its lineup and the new combination proved very effective so that the game was won 34 to 17. It was the first game of the northern Douglas high school league, which consists of teams representing Sutherlin, Oakland, Yoncalla and Drain high schools.

ALLEGED CLAIRVOYANT IS ACCUSED OF SWINDLING

POCATELLO, Idaho, Jan. 6.—Dated a writ of habeas corpus A. H. Meyer, alleged clairvoyant, was being held here today facing charges of obtaining money under false pretenses.

Meyer was returned here from Salem, Ore., after Mrs. Agnes Schwabe of McCammon, Idaho, had charged she paid him \$400 to carry on a search for her supposed to have been hidden by bandits at "Robber's Rock."

Another charge brought by Mrs. H. C. Lyon, Idaho Falls, Idaho, accused Meyer of accepting money to get her daughter into the movies.

A third accusation against Meyer and his wife jointly charges them with obtaining \$200 from Karl Kasa of American Falls, Idaho, on a promise of securing employment for him at Carey, Idaho, where Meyer was declared to have asserted that Henry Ford contemplated the opening of mines.
