

County Court Appropriates \$23,366.36 for the Maintenance of 219 Miles of Market Roads

Appropriations totalling \$23,366.36 have been authorized by the county court for maintenance work on market roads of the county. Of this sum the market road tax furnishes \$10,500, special tax funds \$3,190.35, district funds \$8,275.25 and O. and C. tax refund, \$1,500. This money will be used to maintain approximately 219 miles of market roads, in all sections of the county, with the average cost per mile estimated at \$106.50 per mile. This money is for use only for maintenance work and is not for use in new construction. The county has available a large sum of market road and special district tax money for new work, but the program for the year has not yet been approved.

Maintenance money will be used chiefly in keeping the roads in condition, graveling and looking after the roads to keep them in satisfactory shape during the year. There are 13 of the maintenance projects, some of them involving roads in various districts. In some instances different patrolmen will cooperate in the projects while on other roads one patrolman will handle the maintenance in several districts.

The road districts involved, the amounts available, the number of miles of road to be paved and the patrolmen who will do the work are given below:

Source of Funds	Amount	Patrolman	Amount Available	Miles of Road

HIGH HEELS TAKE TOLL FROM WEARERS' HEALTH

By DR. MORRIS FISHBEIN
Editor of the American Medical Association and of Hygiene, the Health Magazine.

In Hygiene, Dr. S. E. Van Dyne, physician to one of the best known girl schools of this country, recently has considered the evidence against high heels.

She has found that young girls do not like to admit that shoes are to most instances the causes of corns, warts, calluses and bunions.

It is the opinion of most orthopedic surgeons that high heels are bad because they throw the leg into a position in which the circulation is interfered with, the posture bad, and strain placed upon ligaments which never were meant to bear it.

An examination of the members of the senior class in this school revealed that 39 per cent of 212 girls had had deformed feet on entrance into college.

At the time of graduation, 82 per cent had deformed feet. In many instances associated, according to Dr. Van Dyne, with the fact that more than half of these girls wear spike-heeled shoes for dress occasions, shoes too short

for many other occasions and low-heeled shoes with broad toes and straight lines for sports.

Of the 38 girls who had practically normal feet, 27 either did not wear high heels or else wore them less than one-third of the time.

Twenty-one per cent of the girls suffered with backaches, the large majority of them being wearers of high heels.

Furthermore, Dr. Van Dyne was convinced from her study of these girls that the wearing of high heels was associated with fatigue and with much discomfort to the girls in other ways.

Special emphasis should be placed on the fact that the wearing of high heels leads to much more danger of injuries from falls. When the heel is raised the tendon which holds the large bone of the heel tends to contract so that a return to low heels will at first cause considerable discomfort and pain.

Foot defects are responsible for a vast amount of misery in modern life. Many of them can be avoided by much more attention to the wearing of proper shoes and dress occasions, shoes too short

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with twofold action; it soothes and heals the inflamed membrane and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membrane and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION
FOR THE COUGH FROM COLDS THAT HANG ON

Ward's MID-WINTER SALE of Beddings - Linens - Wash Fabrics

Your big opportunity to save! Right now while prices are down to bedrock lay in your supply of these big values. Many housekeepers find the answer to their needs for several months to come in these splendid assortments and

quality items. This sale includes Lingerie and Underwear materials, Dress fabrics, Table Linens, Muslins and Bedding to which is added our famous brands of dependable Sheeting, Pillow Tubing, Blankets and Bedspreads.

Splendid Lingerie Materials

Dainty durable materials that launder beautifully. Fashion's favorites for lingerie. A few of the splendid values are...
