

**COLLISION COSTS LIVES OF 5 MEN OF AMERICAN NAVY**

(Associated Press Leased Wire) PANAMA, Jan. 21.—Five American navy men were drowned yesterday when an officers' gig of the U. S. S. Whitney collided with a barge in the Panama canal channel. Separate investigations are being conducted today by canal officials and by Rear Admiral Frank H. Clark, in command of the American destroyer squadrons. The men drowned were: Captain Ralph Griswold, commanding officer of the ninth destroyer scouting squadron, and Chief Pay Clerk Arthur S. Wren, both of Washington; Coxswain Fred W. Swelbourn of West Orange, N. J.; Steward Herbert D. McDowell of Jacksonville, Fla.; and Fireman Earl D. Tibbitts, of Haverhill, Mass. Four other occupants of the gig saved themselves. They were: Captain William J. Giles, commander of the destroyer tender Whitney, and Seaman Walter C. Howell, Albert W. Gatewood and James P. Powers. Captain Griswold was in command of the transport Kroenke land during the war, for which he received the navy cross. Last fall he completed a tour of duty in the war plans division of the office of naval operations and then was ordered to sea. He was a native of Pennsylvania and was graduated from the naval academy with the class of 1892. More than half of his naval service was at sea. He was 43 years old.

**RIDDLE SCHOOL NOTES**

A Riddle vs. Lookingglass basketball game was played at the pavilion last Friday, January 11, resulting in a victory for the Riddle high school team. The score was Riddle 23, Lookingglass 22. Following the game, the high school student body held a reception for the Lookingglassers at the home of Principal T. S. Thompson. Hot cocoa and nuts were served and everybody enjoyed the event. DeWayne Knight from the Lookingglass school is a new pupil in Mrs. Blundell's room. Mrs. Pfaff has started a poster

**Shootings, Bombings and Upset in City Government Mark Long Strike of Union Knitters in Kenosha, Wis.**

(Associated Press Leased Wire) KENOSHA, Wis., Jan. 21.—Pistol shots that found human targets, crudely fashioned bombs that damaged homes, street fights and crowds of men and women going gaily to jail, the chapters in the 10 month labor controversy between the Allen A. Knitting company and its former employees. The trouble, which began in February, 1928, eventually involved the United States district court, brought disension into the Kenosha city government, and finally, a demand from 1,000 citizens for a grand jury investigation. Labor Slashes in Cause When the company sought to introduce the two-machine system, whereby one operator and two apprentices managed two knitting machines, the knitters opposed the move. The old method allotted one knitter and an apprentice to each machine. The Allen A. executives held that the two machine plan increased production and the knitters walked out. On February 15, the company announced that they might return if they gave up their union membership. The following day 236 men and 100 women did not return. The company called it a "strike" and workers a "lockout." Allen A. retreated from its original position, offering to treat individually with the union people and permitting them to retain their membership. The workers asked that a board of arbitration be named. Both offers were refused. Bombs and Bullets During the trouble more than 450 arrests for disorderly conduct have been made. Homes of present knitters have been bombed, explosives ripped a hole in an Allen A. warehouse, and another charge damaged the summer home of Roger M. Kimball, vice president. Men, chiefly mill hands, have been

**CHLORINATED WATER IS OBJECT OF ODD RUMORS**

By DR. MORRIS FISHER, Editor, Journal of the American Medical Association and of Hygiene, the Health Magazine. So many cities and institutions now use liquid chlorine and calcium hypochlorite for disinfection of water supplies that the process would not seem to require any further defense before the public. Only a few institutions still use ozone and ultraviolet rays for this purpose. Strange superstitions arise, however, which need to be contradicted; for example, the assertion of a physician in Columbia that the use of chlorinated water would cause sterility and a decrease in the birthrate, and the assertion by other people that chlorination of water might produce changes in the kidneys or ulcers of the stomach. The actual facts of the matter are that there is not the slightest evidence to support the contention that the amount of chlorine in the water after the chlorination process is sufficient to be of the slightest harm to any one. On the other hand, the installation of chlorination spreads space. The first practical apparatus, as pointed out by George C. Bunker, was made in 1913. In 1926, four billion gallons of chlorinated water a day were being used in 2209 American communities. About 75 per cent of the population of the United States is today drinking water that has been disinfected with chlorine. Furthermore, the method has been adopted as the one of choice for assuring pool disinfection, for the disinfection of water mains, and for the treatment of water used by travelers. Various methods are now being studied with a view to finding those that are cheapest and most efficient, and new types of chlorinators are being developed, the most recent type being an electrolytic device which permits the utilization of common salt for the development of the chlorine and avoids the use of tanks of pure chlorine gas.

**A Strength-building Food For Feeble People SCOTT'S EMULSION**

Rich In All Cod-liver Oil Vitamins

Scott & Bowne, Bloomfield, N. J.

Winifred and Fern Yarbou are two new pupils in Miss Whipple's room. They are from Fall City. L. A. Steiner, representative of the Underwood Typewriter company, visited the high school Thursday. He tested the ten new typewriters of the school and gave a fine talk to the students. Williamita Logsdon and Keith Henry have each received a valuable silver medal emblem. These emblems are of polished sterling silver and are awarded for a net speed of 50 to 59 words a minute for fifteen minutes in a speed test in typing.

**Gas Forces Woman to Sleep in Chair**

"Nights I sat up in a chair, I had stomach gas so bad, I took Adlerika and nothing I eat hurts me now. I sleep fine."—Mrs. Glenn Butler. Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Nathan Fullerton, druggist.

**WARNING**

Any person or persons found dumping cans, rubbish or refuse of any kind along county road right of way in Douglas county, will be prosecuted to the full extent of the law.

**DOUGLAS COUNTY COURT.**

By W. S. Hamilton, Judge.

**OAKLAND TEAMS BEAT YONCALLA**

OAKLAND, Jan. 21.—(Special to the News-Review)—The Oakland high school took both games in the double-header Saturday night with the Yoncalla high school. The girls won 35 to 24, and the Oakland boys won 29 to 18. In spite of the boys' low score the game was fast and clean.

The boys' game started with the Oakland boys jumping in the lead in the first quarter, but they were soon over taken in the second period when Yoncalla got 14 points. The half ended 16 to 10 for Yoncalla.

The Oakland boys came back in the third quarter and soon tied the score. In the fourth period the Oakland team won the game. This is the hardest earned victory that the Oakland high has gotten this year. The Oakland team has won five games.

This game also puts Oakland in second place in the northern Douglas county league. The Drain team holds the lead. Oakland's chances to tie for first place blew up when Sutherland defeated the Oakland team last week due to over confidence, toughness and fumbling on the Oakland team's part. At the end of the Sutherland game all that was lacking to make it a football game was a football and football suits.

Next week the Oakland team will meet the Drain team on the Oakland floor.

Line up for the Yoncalla game: Yoncalla: Guard f Henninger; Wis f Goodman; J. Churchill c Haines; L. Churchill r Jones; Turner e E. Todd; Oakland substitutes—F. Todd, Cleveland, Hand, Cain, Lindquist. Rolfe of Oakland refereed the game.

**How Best to Use Vicks VapoRub After the Flu**

Late Winter Colds are Doubly Dangerous this Year; Don't Let them get a Start.

**AVOID PNEUMONIA OR A SECOND ATTACK OF FLU**

If you catch a fresh cold, don't keep it overnight. If possible, go home and go to bed. Take a laxative and a hot beverage, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks. Spread on thickly and cover with warm flannel. Leave the bed-covering loose, so that the vapors released by the body warmth may be freely inhaled. At the same time, Vicks acts through the skin like a poison. Repeat this treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

Mothers especially appreciate Vicks for the children. As it is applied externally, it can be used freely and often, without upsetting delicate digestion, as too much "dosing" is so apt to do.

**NEWS BRIEFS**

CLARKSBURG, W. Va., Jan. 20.—A needle which was believed to have traveled through a man's body for 60 years was removed by physicians here. The patient is Porter L. Smith, 63, of Hooanoke, Va. The needle was removed from his right shoulder.

CHICAGO, Jan. 20.—Denied a motion for a new trial, Dr. Avramie Bennett, was sentenced Saturday to serve from one to 14 years in the state prison on conviction of manslaughter in connection with the death of Miss Loretta Endera. The doctor was charged with permitting Miss Endera to die after a criminal operation because she had no money to pay him.

SAVANNAH, Ga., Jan. 19.—Mrs. Edward C. Alumbaugh, of Macon, Ga., accused of circulating a spurious oath attributed to the Knights of Columbus, was convicted Saturday of a charge of criminal libel and sentenced to pay a fine of \$500 or serve six months in jail.

COLORADO SPRINGS, Colo., Jan. 20.—When Arthur E. Pauch, a bottler, offered a bottle of pop to every school child having an "A" on his midterm report, said Le. did not realize how many smart youngsters there were here. He was besieged by 1,100 grade school children Saturday, some having as many as nine "A's" on their curls. Doubt that number are expected later when the junior and high school students come to collect their pop.

MINNEAPOLIS, Jan. 20.—It had to come, and as well now as later. A law suit over a cigarette lighter that wouldn't light.

For Opahl used in combination court seeking to learn what the law had to say about his paying \$2.97

ROSEBURG STUDENT TAKE CADET COURSE AT AVIATION SCHOOL

WASHINGTON, D. C., Jan. 20.—Three embryo fliers from Portland one from Roseburg, will be members of the new class of flying cadets which will begin training at the primary flying school of the army at March Field, Riverside, Cal., on March 1, the war department announced today.

The new cadets from Oregon are Theodore B. Anderson, R. Dale Butler, and Louis B. McNair of Portland, and Charles E. Just of Roseburg.

18,000 SEE \$41 EXPERT SET MARK OF 166 FEET

GARY, Ind., Jan. 21.—Ski jumping is increasing in popularity in the midwest.

More than 18,000 persons attended the meet held by the Dunes Ski Club last week yesterday, while a week ago 18,000 braved a temperature of ten degrees below zero to

**Making & Baking a 9-FT. Pie would certainly keep you guessing**

No GUESSWORK, however, when you bake a small pie, because you can tell when it's done. And there's no guesswork when Hills Bros. roast their coffee. A few pounds at a time by a continuous process roasts every berry evenly and develops the utmost in flavor. No other coffee tastes like Hills Bros., for none is roasted the same way.

**HILLS BROS COFFEE**

Watch another meet at Cary, Ill. Casper Olsson of the Norge ski club, Chicago, won first honors in the class "A" competition yesterday with a leap of 166 feet, while his club mate, Gutorm Paulsen, won first place in class "B" with a 142 foot jump.

**AL SMITH MAY CALL ON HOOVER ON FLORIDA TRIP**

(Associated Press Leased Wire) NEW YORK, Jan. 21.—Cryptic remarks by Alfred E. Smith on his departure for a vacation were interpreted by his friends today as indicating that he would call on Herbert Hoover in Miami.

**SUPPOSED MONEY OF WIFE OF SOLOMON PROVES FAKE**

(Associated Press Leased Wire) JERUSALEM, Jan. 21.—A story published by the Cairo newspaper Al Morattam and the London Daily Mail telling of the finding here of the mummy of King Solomon's favorite wife and of a scroll giving details of her tragic death turned out today to be pure fiction.

**GOVERNOR ROOSEVELT'S SON HAS PNEUMONIA**

(Associated Press Leased Wire) ALBANY, N. Y., Jan. 21.—James Roosevelt, eldest son of the Governor and Mrs. Roosevelt, today lay ill in the executive mansion with pneumonia which developed after early symptoms indicating he was suffering from influenza.

**HOOVER OFF FOR FLORIDA**

(Associated Press Leased Wire) WASHINGTON, Jan. 21.—President-elect Hoover left this morning for Florida, where he will remain until his return here for the March 4 inauguration. Mr. Hoover is going to Belle Isle, near Miami, where he will reside at the J. C. Penney estate. His special train is scheduled to reach Miami tomorrow afternoon.

**NEW SWIMMING RECORD**

(Associated Press Leased Wire) SVENNEY, Australia, Jan. 21.—Swimming at Manly, New South Wales, Arne Borg of Sweden today covered a mile in 21 minutes, 6.4 seconds, beating his own world's record of 21 minutes, 31.3-10 seconds.

**MR. BALL BURIED**

The funeral services of Lorenzo H. Ball, held in the Methodist church at Canyonville, last Friday, was largely attended by relatives and friends of the deceased. Many friends who had known Mr. Ball for a life time were in attendance, and the church was filled to capacity. Floral offerings were numerous and beautiful. Rev. Rummel was the officiating minister. Funeral arrangements were in charge of H. C. Stearns of the Douglas Funeral Home.

Relative humidity 5 p. m. yesterday (per cent) 77  
Precip. in inches and hundredths: Highest temperature yesterday 20  
Lowest temperature last night 25  
Average temperature for the day 25  
Normal temperature for this date 41  
Precipitation, last 24 hours 0  
Total precip. since 1st month 3.11  
Normal precip. for this month 5.31  
Total precip. from Sept. 1, 1928, to date 11.45  
Average precip. from Sept. 1, 1927, 17.49  
Total deficiency from Sept. 1, 1928, 4.24  
Average seasonal precip. Sept. 1 to May, inclusive 21.15  
Forecast for interior southwest Oregon: Unsettled tonight and Tuesday, with snow turning to rain; rising temperature.

**DOGGS CAUSE MORE DAMAGE TO SHEEP THAN DO COVOTES**

Oregon sheep owners are greatly interested in a bill that is to be presented to the legislature during the coming session to license dogs and create a fund for paying damages done by dogs to sheep. There is a very heavy annual loss due to sheep-killing dogs and some action, sheepmen say, is necessary to lower these damages.

The proposed bill would license all dogs and the license fees would be placed in a fund to reimburse sheep owners for animals killed by dogs. There is at present a law that permits recovery of damages, but it is often difficult to locate the dog guilty of killing the sheep.

California has introduced the same difficult and has introduced a similar bill. In a recent issue of the Stockmen's Market Journal, published in San Francisco, a report is given for that state as follows:

"A partial report of losses inflicted during recent weeks by loose dogs upon the stock of dairymen, cattlemen, poultry raisers and sheepmen was made public today by the California Farm Bureau federation and the California Wool Growers association, joint sponsors of the proposed state dog law, which would curb the ravages on stock.

"Sonoma county seems to have suffered heavily during the past months but the dogs play no favorites and strike in every community of the state. War to the death has been declared by ranchers of the Laguna district of the county against the pack of dogs which recently killed seven cows and yearling calves. The dogs stampeded the dairy herds for the pleasure of the chase and the kill, according to ranchers of the district who are standing by with loaded rifles.

"Other Sonoma county fatalities include the killing of 70 sheep since last July owned by Charles Ward; a raid by dogs on December 24, on the ranch of Mechem Bros., Petaluma, in which 67 lambs and seven ewes were killed; the slaughter by dogs of 26 sheep owned by J. T. Azevedo. A few of the other killings made by dogs as officially reported follow:

"Joseph W. Algeo, Sutter county, 2 calves, 4 hogs, 6 sheep; James G. Moo, St. Helena, 19 turkeys; Joe Neik, Yolo county, 3 lambs; Grant S. Pyle, Calaveras county; great damage to wild steers caused by dog pack; Max Dotjens, Livermore, 29 ewes killed, 13 crippled.

"Livestock men assert that sheep killing dogs are more of a pest to ranchers than coyotes."

**GERMAN BENEFACTOR OF BLIND VETERANS DIES**

(Associated Press Leased Wire) BERLIN, Jan. 21.—Prof. Paul Silex, one of the best known German ophthalmologists, died today, aged 70.

He especially endeared himself to the German people by organizing a school for soldiers who lost their eyesight during the war.

**WATER TO IRRIGATE 1200 ACRES SOUGHT BY RIDDLE RANCHER**

(Associated Press Leased Wire) SALEM, Jan. 20.—O. V. Logsdon of Riddle has applied to State Engineer Luper for permission to appropriate 12 second feet of water from Dow creek for irrigation of 1200 acres of land in Douglas county.

**DATES ARE SET FOR TOURNAMENT ASHLAND NORMAL**

The annual invitational basketball tournament sponsored by the Southern Oregon Normal School will be held March 15 and 16, according to the announcement made at Ashland. This tournament is held for the benefit of all high schools in Coos, Curry, Douglas, Jackson, Klamath and Lake counties, except those in districts of the first class. Entries are limited to schools with approximately one hundred, or less, enrollment. Last year there were twenty-two teams competing. The trophy was won by Powers. Two Douglas county teams made good showings. This year it is expected that there will be twenty-five teams enter the tournament.

**NOTED PUBLISHER DIES**

(Associated Press Leased Wire) PHILADELPHIA, Jan. 21.—Colonel James Elverson, Jr., publisher of the Philadelphia Inquirer, died today from a heart attack.

Colonel Elverson would have been sixty years old in February. Colonel Elverson is survived by his widow who was Eleanor Mayo, daughter of Frank Mayo, the well known actor of years ago, and a sister, Madame Eleanor Lonia Patenotre, of Paris, widow of Jules Patenotre former French ambassador to the United States.

**GERMAN BENEFACTOR OF BLIND VETERANS DIES**

(Associated Press Leased Wire) BERLIN, Jan. 21.—Prof. Paul Silex, one of the best known German ophthalmologists, died today, aged 70.

He especially endeared himself to the German people by organizing a school for soldiers who lost their eyesight during the war.

**CRATER LAKE PARK HAD TRANSFERRED TO YOSEMITE**

(Associated Press Leased Wire) MEDFORD, Ore., Jan. 20.—Announcement was made Saturday by Col. O. G. Thomson, for six years superintendent of Crater Lake national park, that he had been named superintendent of Yosemite national park. The order was made effective January 15.

Col. Thomson said he would take active charge to Yosemite park within the next two weeks. No successor has been named but this is expected by February 1.

Col. Thomson succeeds Horace T. Albright at Yosemite park, who was recently named to succeed Stephen T. Mather, director of national parks, who retired on account of ill health.

**GERMAN BENEFACTOR OF BLIND VETERANS DIES**

(Associated Press Leased Wire) BERLIN, Jan. 21.—Prof. Paul Silex, one of the best known German ophthalmologists, died today, aged 70.

**COLDS MAY DEVELOP INTO FLU**

Coughs from Flu May Weaken Your System and Lead to Serious Trouble

You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to

the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. Creomulsion may help you avoid flu, but is not sold as a flu remedy. If you have fever, or think you may have the flu, see your doctor immediately. (adv.)
