

AUTO LIABILITY INSURANCE BILL PASSES HOUSE

Provides Lien on Car and
License Suspension to
Collect Damages.

\$7,500 MAXIMUM FIXED

Senate Overrides One Veto
and Sustains Another;
Inquiry Asked of
Cabinet Plan.

(Associated Press Special Wire)

SALEM, Ore., Feb. 27.—Oregon's automobile liability legislation was enacted in the lower house Wednesday morning when H. B. 325 passed after having been defeated Saturday. The bill, introduced by Henderson and Brown, both of Multnomah, will in effect make automobile liability insurance compulsory.

It provides that in case of accident a lien may be placed on an automobile to satisfy the claim for damages. The lien will be a first lien. It provides also when a judgment is entered against an automobile driver, that the secretary of state suspend his driver's license until the judgment is satisfied.

An amendment was added to allow the driver's license to be returned when an amount up to \$7500 has been satisfied on a judgment. Completion of the connecting links in California with the three important roads built on the east side of the Cascade mountains in Oregon is urged in a memorial to the California legislature, introduced to the lower house Wednesday by the resolutions committee of the house.

The resolution is substituted for a similar resolution proposed by Representative Andy Collier and omits mention of the Pacific highway and Roosevelt highway links which were also urged in the first resolution.

Veto Overridden
With 21 yeas in the affirmative the senate today overrode the veto of Governor Patterson on senate bill 164, providing that the judge of the probate court in Multnomah county be empowered to ap-

point and fix the compensation of the employees of his court.

Governor Patterson's veto on senate bill 35, which proposed to increase the salary of the Multnomah county constable from \$200 to \$275 a month, was sustained by the senate.

The senate today defeated senate bill 94, providing that the state board of forestry be empowered to set aside forest fire protection areas and impose regulations thereon in relation to use of the areas by vacationists, also to restrict the use of camp fires, etc.

Senator J. O. Bailey's bill, providing that a department of public works support the state public service commission, was tabled at his request for the reason that it is expected to take up much time in debate.

By indefinite postponement the senate today killed house bill 524 which provided that a portion of Union county be annexed by Baker county.

For Cabinet Plan Quiz
Adoption of an interim commission of members, to be known as the joint commission on administration to make a study and report on the proposed cabinet form of government, is sought in house joint resolution No. 27, introduced in the lower house today by the joint committee on administration and reorganization.

The commission is to be formed by two members of the senate and three from the house.

This commission will make a study of the operation of cabinet governments in effect in other states. It will make an analysis of functions exercised by all offices, boards, and commissions in this state at present and will make a tentative classification of those functions under the departments to be created by the provisions of the resolution. An estimate of the savings to be effected in the cabinet form is also requested.

The resolution provides that the commission's report must be in the hands of the secretary of state for publication not later than March 1, 1930.

Four Bills Signed
SALEM, Ore., Feb. 27.—Governor Patterson today signed the Kindergarten bill and the bill providing for an increase in the salaries of circuit judges.

Other bills signed by the governor were:

H. B. 163, by Mettsker—Providing for appeals from municipal court judgments.

H. B. 344, by Howard and Burdick—To create a game refuge in the Three Sisters district in Lane and Deschutes counties.

H. B. 425, by McCready—Relative to the disposition of interest on funds of the state university.

S. B. 27, by Edly—To provide for the punishment of persons convicted of furnishing liquor to persons under 21 years old.

Fresh garden seeds in bulk or packages are sold at Wharton Bros.

JANUARY SHOWS BUSINESS GAINS RESERVE DISTRICT

SAN FRANCISCO, Feb. 28.

The first month of the year 1929 was a month of greater than seasonal activity in business in the reserve federal reserve district, and available data indicate a continuance of this activity during the early days of February. The major industries of the district operated on heavier schedules during January, 1929, than during either December or January, 1928. The volume of trade transacted in the district was larger than a year ago, and declines from the December peak of trade activity were mostly smaller than the seasonal expectation. From all parts of the district have come reports of generally sound business conditions.

These tendencies in the credit situation which were a noteworthy feature of the year 1928 persisted during January, 1929. Commercial demand for credit was moderate but member bank loans on securities continued to expand. Borrowings from the Federal Reserve bank of San Francisco increased during January and the first week of February. During the second week of February discounts at the reserve bank were reduced slightly. Interest rates were firmer during January and the first half of February, 1929, than at any time during the past two years.

Industry employed a larger number of men than is usual during January, and output of copper, steel, metal and machine shop products, lumber and petroleum was exceptionally high for this season of the year. The building and construction industry, though relatively quiet, showed some improvement as compared with recent months. Value of sales at both retail and wholesale was substantially larger than during January a year ago, and much smaller than last year and less than normal.

There was a slight increase in the general average of commodity prices during January, 1929. Most significant from the standpoint of this district were advances in prices of wheat, copper, and lumber.

The rains and snows of January and February have improved the agricultural outlook of the district. Total rainfall for the season, however, has been less than last year and less than normal.

Several of the Glengary neighbors are sick with bad colds. Mrs. Berdine is down to visit with her husband for a while. He is slightly lame from his recent accident.

Mr. Dedrick French's daughter at Robert Creek has the chicken pox. The Women's Christian Temperance Union of Glengary met the twenty-seventh with Mrs. Earl Agee in the afternoon to take a comfort for the bazaar.

Green had quite an interesting Sunday school last Sunday and a good number out.

Mr. and Mrs. Chandler, our neighbors at Keller, Oregon, were shopping in Roseburg today.

Mr. Chambers of Winston has sold his home there and is moving to California.

Mr. Erickson's family from Myrtle Creek were visiting at the home of John Claypool Sunday.

Mr. and Mrs. Bushnell are living on the Van Horn property now, near the Happy Valley bridge.

Archie Mettcheby is able to go back to his work at the quarry again after his accident.

D. C. McGehee's mother celebrated her eightieth birthday Sunday at the home of her grand daughter, Mrs. Harold Smith.

NOTICE TO CONTRACTORS
Sealed bids will be received until 2 o'clock p. m. March 4th at the home of Willard Smith for the construction of a new church at Glide, Oregon. Plans and specifications may be seen at the office of L. W. Metzger, Roseburg, or First State and Savings Bank, Roseburg, or at the home of Willard Smith, Glide. The right to reject any or all bids is hereby reserved.

WILLARD SMITH,
Chairman of Board.

**Here's the Way
to Heal Rupture**

A Marvelous Self-Home-Treatment
That Anyone Can Use on Any
Rupture, Large or Small

COSTS NOTHING TO TRY

There is no longer any doubt but what the plan used by Capt. Cookings is the only way to completely heal rupture without any operation.

If you are ruptured, no matter how bad or how long, send your name and address to Capt. W. A. Collings, Inc., 978 Collins Bldg., Watertown, N. Y., and try free the wonderful invention that healed him of the worst two ruptures you ever heard of. He threw away his truss; never had to wear it again. His two large ruptures, that had kept him bedridden for years, were both healed naturally by his own muscles without support of any kind. It was a marvelous cure of rupture, and you can have a free trial of his wonderful home treatment by merely sending name and address, no charge whatever. Don't fail to send for this free test. It is certainly wonderful.

AGENT'S LETTER

(By Seymour Jones)
Large Business Done

The detailed report of this department for the 23 months ending November 30, 1928, filed with Governor Patterson, shows the following quantities of grain received at the terminal points of this port during that time:

Cereals	Barley	Rye	Corn	Flaxseed	Northwest flaxseed	Feed oats	Mixed feed oats	Wheat
Wheat	2,249,691,237	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Barley	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Rye	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Corn	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Flaxseed	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Northwest flaxseed	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Feed oats	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Mixed feed oats	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922
Wheat	24,442,959	1,412,542,234	307,598,927	213,294,065	1,497,239,285	259,357,533	264,376,960	28,28,922

during that period 1,775 cars of hay were imported; 23,889,062 bushels of wheat and 1,952,969 barrels of flour were exported.

Granges in Oregon
The new roster of grange officers has been compiled and distributed by Miss Bertha J. Beck of Albany, state secretary and distributor that there are 219 authorized granges in prosperous working order in Oregon, covering every county except Harney. Clatsop county leads with 19, Lane with 14, Washington 13, Columbia 12, Linn and Umatilla each 10, Marion and Wasco 9, Baker, Deschutes, Jackson, Polk and Wallowa 8, DeWitt, Coos, Deschutes and Yamhill 7, Grant and Klamath 6, Clatsop and Tillamook 5, Hood River, Jefferson, Josephine, Linn, Marion, Morrow, Sherman and Wheeler 4, Clatsop and Linn 3, Curry 1.

The Carrier's Responsibility
In a Mississippi case, a 30c. Oakes shipped a barrel of molasses to Palatka, Florida, with the understanding that he would be there to receive them, but the molasses, after

ROBITUARY

JONES—Mrs. Elizabeth Farmer Jones, who died at Drain February 25, was born July 22, 1870. Her parents were James and Isabel Farmer, who were early settlers in Lin Pat valley.

She was married to William Jones on December 31, 1898. Besides her husband she has left to mourn her loss a brother, Frank Farmer, Mrs. Fay Stores, both of Drain, and Mrs. Robert Brooks of Portland, Ore.

Like the pioneer people from which she sprang she knew no other way of life than that of work of honest endeavor, and like them, too, she was self-reliant and self-sustaining. The compensation and the reward she received in life never measured up to what she deserved.

Her gifts in love and service to her fellow beings were large and never quite matched in return. We know that of the many millions who have lived in the world with her she knew and was known by a few hundred at the most. But within that sphere she loved and was loved. Among those few she engendered kindness and good will.

She was burdened with more sickness and pain than is the usual lot of man or woman, more than seems quite fair for those who know her best, but she bore it all with a sweet patience and non-plaintive fortitude that finds scarce a parallel. She kept on strong and hoped for the best.

She was a good and faithful wife and sister and these alone call for the highest tribute that woman can ever merit or receive.

In comparison with these virtues all little, all degree, all fortune, all fame shrivel and fade in the estimate of genuine men and women. She was a noble woman, useful and good and that portion of the world in which she lived is a little better by reason of her life.

Love is an undefinable something that prevades all life from the lowest to the highest and those natures which receive its influence most deeply approach nearest to the ideals of a future life and the one thing that makes a future existence desirable, and this love was the dominant attribute of her nature. When she died one of the joys-lights of the world went out.

She left no title or legacy to her people, but she left something far more sacred for them to cherish and emulate: The example of a fine and industrious life, a good and honest name. She had no fear of death for there was no taint or tarnish on her soul. As the comforting shade of death gathered about her, obscuring all earthly interests and concerns, her pain-drawn face was changed to smiling radiance.

And we may rest in the comforting hope that with more than mortal vision she saw an inviting hand extended toward her through the shimmering scroll and heard with more than mortal ear a still sweet voice calling from across the dark waters: Come thou good and faithful servant, come into thy blessed reward. And now good, kind, loving, faithful friend, farewell.

—BENTON MILES

Dr. J. W. McDonald and Mr. and Mrs. J. F. McDonald of Hoquiam, Washington, were visitors in Roseburg yesterday on their way home following a trip south.

**STOP THE FAT
AND GET THIN**

The way to reduction is to stop the formation of fat. Modern science has found that way—by turning your food into fuel and energy—by supplying a natural element that helps do that. It is much better than starvation. That modern, scientific method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. Now the results in slender figures, new beauty and vitality, are seen everywhere.

Each box of Marmola contains the formula, also the scientific reasons for results. So you know that effects are beneficial, and why they all occur. Learn what so many have learned in 20 years about it. Do it now. Ask your druggist for a \$1 box of Marmola and learn what it means to you.

FREE, FREE!

With every purchase of one dollar or more will give free one Japanese Iris or one large package of plant flowers Zinnia seed, Schmidt's, Co. Jan. 1929.
