Diet the menace of Hollywood

Stars wrecked seeking slimmness

PHOTOPLAY MAGAZINE recently revealed that many motion-picture stars ruin their health seeking slimmness. The motion-picture camera adds from 5 to 20 pounds to the appearance of a star's figure, so that many of these celebrities become victims of dieting. One famous star died of tuberculosis brought on by weight reduction. Another ruined her career and was made an invalid by starvation. Still another resorted to quick reducing medicines and is today virtually an invalid. Another star is mentioned who collapsed on a set after trying to lose 10 pounds.

One of the alarming dieting extremes indulged in by the stars, according to Photoplay, is eating no food at all for breakfast, and seriously limiting nourishing foods for both luncheon and dinner. No person can be healthy without eating enough nourishing food daily and regularly. The tragic experience of motion-picture stars should be a warning to all women and girls to eat enough. Modern health authorities insist on a variety of foods, including milk, vegetables, fruits and meats. It is a dieting error to suggest eliminating sugar from the diet, for sweetness is the perfect flavor that makes all of the healthful foods so delicious. Serve applesauce, grapefruit, dried and canned fruits and cereals for breakfast sweetened for enjoyment. Learn the value of sweetening in the cooking of all vegetables for delicious flavors. Sweetening improves the taste and flavor of fruits and cereals. Sugar and flavoring make delicious milk-shakes and egg-nogs. See that every member of your family eats enough. The best cooks are generous with sugar. The Sugar Institute.
