## DARING SCRIBE BRAVES LEAD FOR JUAREZ CLOSE-UP

(Associated Press Special Wire)

EL PASO, Tex., Mar. 8.—History records that a famous Roman ruler fiddled while Rome was burning, but his nonchalance was no greater than that of Lester B. Sutcliffe, a reporter for the El Paso Texas Herald today in Juarez, who though bullets from revolutionary rifles were flying about him thought only of the lack of cream for his morning coffee.

Concealed in an adobe house in Juarez directly in the line of opposing fire, Sutcliffe spent the night and early morning giving telephone reports on the progress of the battle for possession of the city to the editorial rooms of the Herald. With a pair of telephone earphones on his head, Sutcliffe from his vantage point on the floor directly beneath a window which gave him a commanding view of the hostilities kept his office constantly advised of the situation. "There was a little falling during the night. With the coming of dawn and the opening of hostilities with a vengeance, Sutcliffe began to take notes of things.

Put-pat-pat, came the sound of a machine gun to his ears. "Things are flying rather thick and fast here," Sutcliffe flashed his eyes.

"The fire is increasing—the rebels are advancing," Sutcliffe cried into his phone. The sound of the firing increased in intensity. From his "box seat" Sutcliffe could see the rebels advancing. Now and then a cloud of dust passing his window carried to him the knowledge that his "stronghold" was within the range of the gunfire.

"If you can't hear me, don't swear," he told E. Lepley, news editor of the Herald, who was in the newspaper office taking Sutcliffe's account of the battle.

"Here comes the milkman," shouted Sutcliffe through the phone, "now for our morning coffee."

The milkman approached the house from his wagon, which he left parked in the street. As he approached closer the women residents of the house started to the door to take the delivery. At the same time machine gunners got the range of the house and "let 'em have it."

The milk man started to flee, dropping the cream meant for Sutcliffe's coffee. The horses took their cue from the action of the milkman and started down the street in a direction opposite to that of their owner.

"Oh, oh," said Sutcliffe over the phone, "there goes the cream for my coffee. I guess I'll have to take it black today. Sure has been a long night and here I wanted my coffee. Darn these revolutions anyway."

With that out of the way Sutcliffe's thoughts returned to the battle for control of Juarez and he continued to reveal details of the encounter to Lepley.

BEQUEATHS HER ASHES TO MOUNTAINS THAT WON HER. (Associated Press Special Wire)

GLACIER PARK, Mont., Mar. 7.—Some day the ashes of Mabel L. Oggeson of Buffalo, N. Y., will be blown from the heights of Cut Park Pass in Glacier National park, if the request she makes while of sound mind and good health is fulfilled. Her ashes are to be scattered from the Rocky Mountain tops in the presence of two witnesses, and a substantial fee will go to the cowboy who sees that it is done.

Miss Oggeson declares that Mary Roberts Fincher is wrong when she rode 200 miles through place of "precious memories and aching bones." Miss Oggeson

## STINSON AND PAGE TRY TO SET NEW ENDURANCE MARK

(Associated Press Special Wire)

RAY CITY, Mich., Mar. 8.—Edwin Stinson and Randolph Page, Detroit aviators, made a successful take-off from the lee of Saginaw bay this morning in an attempt to establish a new non-refueling airplane endurance flight.

Flying their Stinson-Detroit monoplane, the "Sally Sovereign," they made a graceful take-off with some of the difficulties that marred their attempts last week. The plane carried approximately 500 gallons of gasoline, which Stinson hopes will keep it in the air close to 80 hours. They seek to better the record of the Germans, Ristler and Zimmerman, of 65 hours and 31 minutes.

The Sally Sovereign is the first plane to be equipped with a new nine cylinder air-cooled radial engine developed by the Wright Aeronautical corporation, known as the J-6. Aeronautical engineers are awaiting results of the long, grueling trial to measure the value of the new engine which has several new features.

To cut down air resistance and decrease the plane's fuel consumption, Stinson has built his plane with a retractable landing gear of unusual design, since the wheels and undercarriage fold up into the wings of the plane. Engineers claim that 21 per cent of the resistance is cut by folding the under carriage into the monoplane wing.

The pilots calculate that the plane should be able to remain aloft at least 80 hours, and perhaps the time can be stretched to 90 or 100.

FUNERAL SERVICES FOR MRS. BUELL SUNDAY. Funeral services for Mrs. Ophelia Buell, who passed away at Kansas City, will be held Sunday afternoon at 2 o'clock at the Roseburg Undertaking company chapel. Rev. E. J. Penhall, pastor of the First Baptist church, will officiate. Interment will take place in the Lookingglass cemetery.
