

COUNTY BRIEFS

HOME ECONOMICS CLUB AT MELROSE ENJOYS MEETING

(News-Review Douglas County Special)
 MELROSE, Mar. 20.—The Melrose Home Economics club met on Thursday afternoon, March 15, at the home of Mrs. Frank Brown.
 A pleasant time was spent with needlework. Several members were absent because of illness.
 The hostess served a delicious luncheon to Mesdames Carrie Kruse, J. C. Leedy, E. A. Busenbark, Emma Woods, W. T. Chosh, M. Myers, L. E. Thompson, O. O. Matthews, E. R. Fenn and D. N. Busenbark.
 The April meeting will be held at the home of Mrs. D. N. Busenbark.

MELROSE GRANGE DRILL TEAM GIVES FINE EXHIBITION

(News-Review Douglas County Special)
 MELROSE, Mar. 20.—The Melrose Grange met on Saturday night with a good attendance. After a short business session the evening was spent in games and stunts that all enjoyed.
 The ladies drill team put on a drill for the benefit of a delegation from McKinley Grange of Coos county. Miss Shone and Mr. and Mrs. Laird. Miss Shone being lecturer and drill team captain, is planning to put on the floorwork in that grange.
 Mesdames R. A. Busenbark, C. E. Mahley, Carrie Kruse and E. R. Fenn acted as hostesses at the St. Patrick's luncheon that was served to fifty members and visitors.

FARMERS NEAR MYRTLE CREEK TO UTILIZE POWER

(News-Review Douglas County Special)
 MYRTLE CREEK, Mar. 20.—Some of our enterprising farmers east of town are making arrangements with the city to have the power line extended to their farms. Those soon to be supplied with "juice" are: J. H. Morrison, R. R. Peters, E. C. Lathrop, W. H. Chase, R. L. Ramsey and Herbert Hermann.

SISTER MYRTLE CREEK WOMAN DEAD

(News-Review Douglas County Special)
 MYRTLE CREEK, Mar. 20.—Mrs. A. O. Huntley of Nurget received the sad news of the death of her only sister, a Mrs. Conklin, of Walla Walla, Saturday. Mrs. Huntley left Monday for Walla Walla to attend the funeral. She has the sympathy of many friends in her sad bereavement.

MYRTLE CREEK LOCALS

(News-Review Douglas County Special)
 MYRTLE CREEK, Mar. 20.—Roy Anlauf spent the week end visiting friends in Eugene.
 Prof. Thomas Ireland visited with home folks in Corvallis over Sunday.
 Capt. H. P. English has been having quite a serious time with some sinus trouble but is able to be back in school for part time work this week.
 Mrs. George Godfrey has been visiting with friends and relatives in Portland and Eugene for the last week.
 Mrs. W. A. Mulkey and Mr. P. G. Rice are both reported to be recovering from their recent illness.
 J. W. Bowman has taken a contract for cutting some sawlogs for the Steiner mill. The timber is on South Myrtle and Mr. Bowman is being assisted in the work by Messrs. F. J. Cornell and E. C. Wood.
 W. F. Dyer, (Uncle Bob) has returned from Mayville where he has been visiting his son, E. E. Dyer and family.

GREATEST SOLDIER SINCE NAPOLEON, VERDICT ON FOCH

(Continued from page 1)
 Tarbes, a little town in the Basque country along the Spanish border, in October of 1851. His father, it is interesting to note, was named after the great Bonaparte—Napoleon Foch. From his youth the son was dedicated to the army.

He was a new officer when the war of 1870 broke, and he served under fire in that conflict. It was after the war, however, that he began to win the attention of French army leaders. At 25 he became an artillery captain, and later he served five years as professor of tactics at the Ecole de Guerre—the French military academy. Then, by slow stages, he rose in rank until he became a brigadier general, when he was made director of the military school. Later he returned to field service, and when the World War broke out he was in command of the twentieth army corps, at Nancy.

Student of Napoleon
 Throughout all of this time Foch was quite unknown to the public at large. He had won a very enviable reputation in the army, however, and two of his books—"Principles of War" and "Conduct of War"—were widely read in military circles. Napoleon had been his model, and his friends said that he had studied each of Napoleon's campaigns without ceasing, for years, in order to perfect his knowledge of strategy. Like Napoleon, he was a great believer in the importance of the artillery arm—a fact which stood in his favor in the World War, where artillery was more important than ever before.

Finds Foes Thin Spot
 After hostilities began Foch was not long in showing his capabilities. His army corps was in the center of the French line during the first great German drive on Paris, and it was probably Foch as much as Joffre who saved Paris. Foch bore the brunt of the desperate German attack that followed Joffre's flank attack. He waited, tenaciously, for the enemy to betray that weak spot that his maxim called for. Eventually he saw it; the German line had been stretched over thin in one spot, and he sent his famous message to Joffre:

Germans Fall Back
 "My right has been driven in, my left has been driven in—therefore with all that I have left I will attack in the center."
 Foch attacked, and the Germans fell back.
 Six weeks later, at the head of a mixed army of French, British and Belgian troops, Foch again defeated the Germans in the battle that was fought for the channel ports, Ypres and Cambrai. This victory won him the Order of the Bath from King George of England, and moved Joffre to pronounce him the ablest strategist in Europe.
 Later Foch took an Anglo-French army to Italy to bolster up the Italian line at a moment when the Austrians were breaking through. Then he returned to France, eventually to rise to the high command and direct the strategy that brought the war to a victorious conclusion.

Led United Assault
 Once Foch took the high command the German cause was lost. The Germans had repeatedly faced heavy offensives on the western front before, but the efforts had never been co-ordinated properly and had not, in consequence, seriously shaken the German lines. Under Foch, however, all armies struck at once. The British attacked in Flanders, the French along the Somme and the Americans in the Argonne. Before these simultaneous blows the German line crumpled.

While working on the gym Wednesday D. H. Whitted had the mis-

TALK ON CHRISTIAN SCIENCE GIVEN BY OFFICIAL SPEAKER

James G. Rowell, of Board of Lectureship, Brings Fine Address to Local Members.

James G. Rowell, C. S., Christian Science lecturer, presented a very interesting address last night at the local church before a large audience. Among other things, the speaker said:

"Christian Science teaches that one needs neither medical books nor material medicine if one fully accepts the Bible as his sufficient guide to eternal life, for 'The Bible,' as the Christian Science text book states on page 496, 'contains the recipe for all healing.'"

God Subject
 "Many people are unwilling to read about God, to talk about God, and especially to think about God. To them this is a subject fraught with a good deal of mystery and not a little dread, one which they would postpone to a more convenient season. But why? Surely it is because they have a false concept of God, and lack true knowledge of what He really is. If you thought that God was unable or unwilling to help you in your hour of need, that He was afar off, a partial god, the incentive to know Him better would be lost. If but one of the truths which the Bible teaches about the nature of God were more generally known, and even partially understood, this unwillingness would give place to such eagerness to know Him better, that God's kingdom on earth would soon be established."

"The Christian Scientist believes with John 'that God is love.' He understands divine Love, or God, to be that wise, just, compassionate intelligence that knows no limitation. Christian Science with its reasonable teaching about God and its practical proofs of health and usefulness restored through understanding God's true being is showing many the folly of avoiding this subject. If they but knew the study of the nature of God holds for them unlimited possibilities of health, happiness and success."

"Think what it means that divine Love is the creator of the universe! How readily, how unflinchingly one would turn for guidance and help to a Father who is divine Love. If one has made a mistake and longs to correct it, it is divine Love that quickly and fully forgives sin by destroying sin. If one is fearful, especially of death, Christian Science has for him a special message of hope and good cheer. Christian Science reveals that the material sense of existence is a delusion, a mesmeric state of thought, in which a false material sense, has been substituted for the true, the spiritual sense of existence. Christian Science shows one how to break this mesmeric spell and enables him to lay hold of Spirit and its things of Spirit, real and tangible, here and now."

"Perhaps we learn as used in 'The Scriptures teach that God

is omnipresent, which means present everywhere, and more fully understood, the only presence there is. Christian Science teaches that God is omnipresent Mind. Mind to be God must be infinite and all-powerful—not a finite mind to whom man has to make known his needs, but the infinite divine Mind that knows man's needs before he discerns them himself. Divine Mind lovingly invites him into the way divine, where the supply for every need has been anticipated and awaits only man's perception and acceptance."
 "The infinite Mind which is impartial and unselfish Love does not bestow His rich blessings upon one man and withhold them from another. Mind's love, like the sunshine and the rain, blesses the just and the unjust. God gives to man His pure and perfect spiritual ideas and they supply his daily needs. If health and harmony are not being enjoyed in your daily experiences you need to examine your thoughts, for a all erroneous thoughts must eventually be replaced by Godlike right thoughts. The remedy is as old as Christianity itself. Paul says 'be ye transformed by the renewing of your mind.'"

SPORTSMEN TO BANQUET HERE ON MARCH 28TH
 (Continued from page 1)

ation work particularly in the way of providing bird nests for migratory birds in western Oregon. Funds are also desired to secure wider advertising of Oregon's game resources and recreational advantages as a means of attracting sportsmen from other parts of the country.
 It is proposed to make dues for the local club \$2 per year instead of \$1 as formerly, with half the fee to go to the state organization. This is a matter that is to be thoroughly discussed at the coming banquet. The new system, however, will probably not go into effect, if adopted, until next year, as most of this year's members have already been signed up at the \$1 rate.

In preparation for the banquet, John Ewell, president of the club, appointed two additional committees, a reception committee composed of C. A. Lockwood, B. R. Shoemaker, Jack Harding, A. C. Marsters and Ivan Pickens, and a music committee consisting of J. D. Spencer, Charles V. Stanton and R. L. Whipple.
 C. A. Lockwood, representative from Douglas county to the state legislature, gave a brief summary of legislation pertaining to game activities, telling of the issues raised before the legislature. The changes in the commercial fishing bills and the hunting laws were particularly discussed, and were approved by the sportsmen present at the meeting.

A carload of McCormick-Deering farm machinery has arrived at Wharton Bros. Another car of American fence will arrive next week.

A carload of McCormick-Deering farm machinery has arrived at Wharton Bros. Another car of American fence will arrive next week.

Christian Science has been more misunderstood than the word Principle used as a name for God. Webster defines principles in part as "A source, an origin, primordial substance." In Christian Science, God is conceived of as divine infinite Principle, in other words, as divine infinite source, origin, primordial substance, governing His creation throughout eternity by His righteous, changeless laws. That God is always correct Himself and never changes His plans or laws governing His children even though petitioned by mortals to do so, does not to the Christian Scientist take away from God those gentle mother qualities of watchful care and tender interest belonging to divine Principle which is also Love."

JUDGE HARDY'S TRIAL DEVELOPS FIRST BATTLE

position, as she is out of the state of California and beyond jurisdiction of an ordinary subpoena.
 Plur argument is anticipated as the defense has already announced its desire to "keep Mrs. McPherson" and testimony against her alleged kidnaping "out of the case."
 Four Charges Made
 Judge Hardy will stand trial at the date set today by the senate for impeachment on four counts against him, namely, practicing law while in judicial office, obstruction of justice during the investigation of Mrs. McPherson's "kidnaping" story, the acceptance of a \$2500 check for alleged "legal" services rendered her and for alleged intimidation of Wallace Moore, a witness in the "kidnaping" investigation.

DR. IRA LANDRITH SPEAKER CHRISTIAN CHURCH LAST NIGHT

The auditorium of the Christian church was crowded last night by the large audience gathered to hear the address of Dr. Ira Landrith, international Christian Endeavor officer, and former candidate for vice-presidency of the United States. Dr. Landrith is one of the outstanding religious speakers in the country and his message was greatly enjoyed by all present. He was brought to Roseburg under the auspices of the Douglas County Christian Endeavor Union. The Christian church, which is in the midst of a revival campaign, conducted by Dr. Childers of Eugene, interrupted the special meetings for the one evening in order to accommodate the Landrith lecture. Dr. Landrith was accompanied by Rev. Rosa Gulley, state Christian Endeavor field secretary.

LOOK WHAT THIS "CATERPILLAR" TEN WILL DO!

When you want to do it With great economy of fuel Without wasteful slippage or harmful soil packing.

Here's what a "Caterpillar" Ten will do under all ordinary farming conditions.

Implement	Size or Width	Acres per Hour
Plow (moldboard)	Two 14 in.	2 1/2
Plow (disk)	3 disk	2 1/2
Plow (one-way disk)	6 ft.	1 1/4
Lister (or lister-planter)	2 row	2
Disk Harrow (standard weight)	8 ft. double	2 1/2
Disk Harrow (heavy cover crop)	5 ft. double	1 1/2
Spike tooth harrow	4 sections (20')	8
Spring tooth harrow	8-16 ft.	2 1/2-3
Land rollers, light weeders	12-17 1/2 ft.	5-9
Rotary hoes		
Grain drills	One 12-14 ft.	3 1/2-4
Mowers	Two 7 ft.	4 (second speed) 5 1/2 (third speed)
Grain binders	Two 7-8 ft.	4-5
Combined harvester	One 10-12 ft.	2 1/2-3 1/2
Corn picker	(on fairly level land) One or two row	1/2
Potato planter	Two row	1 1/2
Potato picker	Two row	1 1/2

COMBINATIONS OF IMPLEMENTS

- Ten foot single disk harrow and two sections of smoothing harrow—3 acres per hour
- Ten foot single disk harrow and ten foot land roller or pulverizer—3 acres per hour
- Eight foot spring tooth harrow and eight foot land roller or pulverizer—2 1/2 acres per hour

Girls, don't worry about middle age

Lots to recommend it, if you keep fit.

TELL a sensible woman of 50 that she looks like the older sister rather than the mother of her children, and she just laughs at you.

"I'm middle-aged," she'll declare, "and not trying to hide the fact. Why should I? Middle age has a lot in its favor—that is, if you're well and healthy."

"Sick? Never had a doctor in my life except when my babies came. Never had the habit of dosing myself with pills and medicines, either. I just took Nujol—all the time my babies were coming, and in between times, too. I'll always depend on Nujol."

"Even the healthiest woman is better off by taking Nujol—especially at times when her system is apt to be thrown off balance and her regular functions upset. This pure substance keeps your system functioning normally and naturally even under abnormal conditions. It not only prevents an excess of body poisons (we all have them) from forming, but aids in their removal. It's these poisons that age people prematurely. Make them feel old and tired and useless."

Nujol isn't a medicine or drug. For this reason it can't possibly disagree with you or upset you. It is simply a pure natural product. It works effectively without being drastic.

Start Nujol now. You'll find Nujol at all drugstores. In sealed packages only. Get a bottle today.

LEIGHTY & MYERS TOBACCO CO.

"She can pick out my socks . . . and my neckties too . . . but I'll be dog-goned if I don't choose my own cigarette! I'd rather have a Chesterfield."

Hang it, yes! . . . Here's one cigarette that can satisfy without being harsh. It is mild, genuinely mild, but far from being insipid or tasteless.

Chesterfield

. . . mild enough for anybody and yet THEY SATISFY
