IT TAKES
A LONG TIME
TO WEAR OUT
A STETSON

A STETSON looks smart when you select it, and it's just as good-looking months later. The shape is there, and the up-to-the-minute style. You can't get a hat that will give you better wear.

There are plenty of new styles and new colors among the Stetsons we've just received. Come in today and try them on.

Harth's TOGGERY

Mr. Wallace in City—
J. T. Wallace, traveling agent for the Chicago and Northwestern railways, of Portland was in Roseburg Thursday.

SECOND LEVEL BREAK OCCURS ON MISSISSIPPI

(Continued from page 1)

Iowa cities along the river have been forced to shut down. Three pumps, each having a capacity of 40,000 gallons a minute, were at work in the Indian Grove district until water overflowed the pump house.

KNOWN TOLL OF LIVES IN MINE CATASTROPHE 46

(Continued from page 1)

destroyed by the explosion had been erected at a cost of \$1,000,000. Although it was much colder today, women and children who gave up their visit at the pit mouth late last night reappeared at the scene at dawn, hoping almost against hope that their breadwinners escaped the horrors of the catastrophe.

\$5,768,653 FROM AUTO LICENSE FUND DOLED IN OREGON

(Associated Press Special Wire)
SALEM, Ore., Mar. 22.—Net returns from motor vehicle licenses for the six months period ending March 15 and apportioned by the secretary of state to the state highway fund and the counties of the state aggregate \$5,768,653.92, according to a statement by the secretary yesterday. Of this amount one-fourth or \$1,442,163.48 was apportioned to the counties and three-fourths or \$4,326,490.44 to the highway fund. The present law provides for that proportion, but under an amendment of the 1925 legislature the county's share will be increased to one-third while the highway fund will receive two-thirds. The apportionment is made as of March 15 and September 15 each year.

The gross returns for the period were \$5,994,483.99. Of this \$2307.12 was refunded and \$233,522.91 went to administrative costs. Of the gross receipts \$5,845,786.82 is motor vehicle license receipts since January 1. Projections for this year show to date 178,308 passenger cars and vehicles under one ton capacity, 15,127 trucks and trailers, 910 motorcycles, 677 mopeds, 7452 chauffeurs and 5692 operators.

SECOND LEVEL BREAK OCCURS ON MISSISSIPPI

(Continued from page 1)

Iowa cities along the river have been forced to shut down. Three pumps, each having a capacity of 40,000 gallons a minute, were at work in the Indian Grove district until water overflowed the pump house.

Soon after the first break became known farmers began to move out of their property. Some of the more cautious had taken corn and machinery from the region several days ago. Wagons, motor trucks and automobiles were piled high with furniture, chickens, hogs, and odd articles as the farmers took to higher ground.

Thousands of bushels of corn were dumped on surrounding bluffs. There was time to remove a great deal from the region. The flooding of a great broad district of level land through a comparatively narrow gap takes time and the rush of the water slows as it spreads.

There is always time to escape from one of these drainage districts after a levee breaks, so no loss of life is feared.

Alabama Situation

MONTGOMERY, Ala., Mar. 22.—Reports of two additional deaths and of a new and indefinite rise in the Alabama river and tributaries were developments in the Alabama flood situation today. The condition of the rivers, government observers said, is very unfavorable.

Sheriff R. P. Hamner at Selma was advised of the deaths of two negroes at Vahaba near Selma, in backwater of the Cahaba river. The bodies have not been recovered. The deaths brought the of-

cially reported total in the state to 12.

P. H. Smyth, government meteorologist, reported a heavy rainfall over the entire watersheds of the Coosa, Tallapoosa and Alabama rivers today. The forecast is for continued rain. Flood gates on two major hydroelectric power dams on the Coosa river have been raised above Montgomery which will materially add to the volume of water in the already swollen streams.

HEALTH ASSN. TO MEET AT GLENDALE

The members of the Douglas County Health association residing in the southern part of the county will hold a meeting at the Community church at Glendale, on Thursday, March 28. There will be representatives from Roseburg, Myrtle Creek and Riddle and each of the parent-teacher associations of the city are expected to be represented.

Mrs. E. A. Post will give reports of the state conventions and Mrs. Karon will also give some reports. Mrs. Mildred Carleton, county president of the Jackson County Health association, of Central Point, will be a special guest. A picnic lunch will be served at noon.

NEURITIS and Rheumatic Sufferers

Casey's Guaranteed Remedy

THREE

SOCIETY

By GRACE CARROLL

Mrs. Clair Pettit was a hostess on Thursday, asking the matrons of the Northdale Sunshine club and added guests to her home.

The ladies sewed and chatted during the afternoon and later gathered about a pretty tea table. There were 16 guests.

Complimenting two Roseburg visitors, Mrs. W. L. McGeorge and Mrs. Booth Clibborn, who are here from Portland, Mrs. A. C. Marsters is entertaining at a smart luncheon today.

Sewing will be the afternoon's diversion. Twelve guests have been invited.

The Roseburg W. C. T. U. program for this week was a very interesting one. Preceding the entertainment were reports by directors of various departments on work done in several communities.

Mrs. Booth-Clibborn, a visitor here from Portland, was an invited guest and speaker of the afternoon.

Mrs. Margaret Arundel is entertaining Saturday evening at the home of her parents, Mr. and Mrs. C. R. Arundel, in West Roseburg. The hostess is observing her birthday anniversary, which occurred last week, by having a group of her friends together. There will be about 20 guests.

Sugar's five uses in the diet . . . Authority explains this delicious food

WE RECENTLY asked the food scientist at one of the great universities to describe the rightful place of sugar in the diet.

"Sugar has five distinctive uses," he said. "1. A conservator of foods. 2. A flavoring substance. 3. A satiation factor. 4. A staple fuel. 5. An emergency fuel."

The scientist showed that sugar is used as a conservator of many foods, especially fruits.

Discussing sugar as a flavorer, the scientist said: "One of the most praiseworthy developments of the modern diet lies in the expansion of the use of fresh fruits . . . contingent on the free availability of sugar."

Discussing sugar as a satiation factor, he said: "Topping off the meal with a sweet dessert gives a sense of satiation . . . an important item in the diet."

The scientist pointed out that "Sugar as a staple fuel ranks with starch . . . sugar is more rapidly digested than starch; otherwise they are entirely comparable fuels."

He then defined the use of sugar as an emergency fuel. "The process of resorption is so rapid," he said, "that sugar appears in the muscles (the fire-box of the body) within a few minutes after ingestion."

So it is that sugar is one of the most useful and least expensive of foods. As a flavorer alone, it deserves a place in every diet for making other healthful foods delicious.

Eat all kinds of healthful fresh fruits and vegetables, sweetening for pleasure, remembering the satiation value of ice creams, cookies and cake for dessert. The best cooks are generous with sugar. The Sugar Institute.

March CANNED GOODS Sale

This is the last Canned Goods Sale we will offer until New Pack goods arrive, next Fall. Many items in Canned Goods are now becoming scarce, which means higher prices. We stake our reputation, as food specialists, in assuring you the quality is right—and we know the prices represent very substantial savings. Consequently, the more you buy—the more you save.
