# COMING SPECIAL SESSION TO TEST HOOVER STRENGTH

## Legislation on Tariff and Farm Aid Will Show If President's Ideas Are Dominant.

### Democrats May Attempt to Force Equalization Fee Into Bill to Help Agriculture.

By D. HAROLD OLIVER
Associated Press Staff Writer)

WASHINGTON, April 8.—(A. P.)—The special session of congress promises to provide an early test of strength of the Hoover policies on at least two major subjects and possibly others.

The first test will come on farm relief, which, with the tariff, will be discussed by the new executive in a message to the congress probably the second day it meets.

While Mr. Hoover has his own ideas on this subject, revolving principally around better marketing facilities, the democrats in congress are threatening to raise an old issue by reviving a plan closely resembling the equalization fee.

The republicans, with increased majorities in both houses—15 in the senate and 100 in the house—see little chance of any such minority program being adopted, but they apparently will have to face a fight just the same.

**Tariff Vital Issues**

The tariff will supply another test for the president. He wants the rate changes, outside the agricultural section, limited to a few schedules where economic shifts prove them to be necessary. Republican leaders have pledged to back him up on this, but they admit they are tackling a difficult task.

Still another test—not so important as the others—will be afforded by the effort of the republican leadership to limit the session to consideration of farm relief and the tariff. The democrats and even some republicans are opposed to such restriction and are prepared to offer other bills. These, however, would develop in the senate, for the house has taken advantage of its rules and prepared to organize only those committees needed to handle the twin subjects.

Representative Vandenberg, republican of Michigan, would like to have the senate pass upon the house reapportionment bill. The house is ready to consider such a bill, provided the senate acts first.

**Aliens Law in Balance**

Should the squabble over the national origins clause of the immigration act remain unsettled by the time the special session starts, it, too, may be injected into the proceedings.

President Hoover favors repeal of the clause, but under the law it will go into effect July 1 unless congress postpones the date. The effect of the provision would be to cut down immigration by about 15,000 a year, and increase the numbers allowed entry from England and discriminate against Germany and other countries.

Interest will not be centered alone on legislation at the coming session. Many new personalities will be on the congressional stage for the first time and several veteran members will be playing higher roles. The senate will have a new presiding officer and majority leader in former Senator Curtis of Kansas and Senator Watson of Indiana. Robinson of Arkansas will be at his old post as minority leader.

**Party Leaders**

The republican leadership in the house will be the same, with Longworth of Ohio wielding the speaker's gavel for his third term, and Tilson of Connecticut again serving in his capacity as majority leader. The democrats, however, will have a new floor leader in Representative Garner of Texas, who begins his fifteenth term at the opening of the seventy-first congress.

Garner will retain his post as ranking democrat on the important ways and means committee. He is looked upon as spokesman for the minority on all financial matters and his voice undoubtedly will be heard time and again during the debates on the new tariff bill.

Seven new senators will make their bow at the session, and 70 new members will be among the entire membership to be given the oath in the house—three of them women, all Ruths: Ruth Baker Pratt, republican, New York; Ruth Hanna McCormick, republican, Illinois, and Ruth Bryan Owen, democrat, Florida. Another new member is Oscar De Priest, negro, of Illinois.

### GEORGE NEUNER NAMES LIVY STIPP AS AIDE

(Associated Press Leased Wire)

PORTLAND, April 8.—George Neuner, United States attorney, today announced the appointment of Livy Stipp to his staff of assistants. Stipp, who at present holds the position of assistant attorney general for the state of Oregon and works with the industrial accident commission at Salem, takes the place vacated by Forrest E. Littlefield.

Stipp formerly was district attorney of Clackamas county.

### MATERIALS RECEIVED FOR LINE EXTENSION

A shipment of nine miles of copper wire, size No. 10, has been received for construction of the United States Coast Guard telephone line to Reedsport from Winchester Bay, according to the announcement of Capt. P. M. Clark, says the Port Umpqua Courier.

In addition to the nine miles of wire, it will be necessary to use one mile of submarine cable, which is now at Astoria and will be shipped in the near future.

The construction work will be under the supervision of Verne Jamison, section supervisor of communications for the Coast Guard.

# ALL WET? WE'LL SAY HE WAS!

## HIGH SCHOOL GIRLS DUCK TOWN MARSHAL UNDER TOWN PUMP WHEN HE INTERFERES WITH THEIR CLASS FIGHT

MOUNTAIN GROVE, Mo., April 8.—Things never will be the same with C. J. Hinkle, town marshal of Mountain Grove.

The marshal's new blue uniform never will be as well fitted and his star may never have the same bright luster—for two dozen high school girls recently concluded the process of putting the marshal "in his place" by holding him under the town pump while streams of very wet water poured upon him.

The marshal was trying to quell a near riot when the senior and sophomore girls of the Mountain Grove high school waded into the annual class fight with the junior and freshman girls.

Marshal Hinkle, recently elected and very proud of his uniform and star and seriously bent on maintaining peace at any cost, hastened to the campus to bring order out of chaos.

But the young women would have none of his peace-making effort. Instead, the two hostile forces quickly became allies and the marshal was seized and dragged across the school yard to the town pump.

There, while he struggled in vain he was given a cold bath—uniform and star and all.

It was not until a fire alarm was turned in and Mayor C. H. Duvall and Fire Chief Otis Sherrill drove a hose wagon to the scene and hitched up the hose and turned a stream upon the young women that the marshal was rescued from under the pump.

But the marshal is not a bad fellow at heart. He forgave the girls—after having his new uniform cleaned and pressed.

Marshal Hinkle . . . the girls ducked him under the town pump.

### NAME PROPOSED FOR NEW BRIDGE AT SCOTTSBURG

That the honor of the name of the Scottsburg bridge be given to honor a pioneer woman is urged by a correspondent, says the Port Umpqua Courier. It is suggested that the new bridge be known as the "Margaret Hedden Bridge." Practically all of the major bridges in Douglas county, with the exception of one it is reported, have been named after pioneer women, and the sentiment is well expressed that the policy be continued, and that the bridge now under construction at Scottsburg be named after one who first pioneered in this community.

Excerpts from the letter sent to the editor are as follows:

"It has been suggested that the bridge at Scottsburg be named after a late leader of this community. Praise for the work he and other enterprising men have accomplished, but all of the other bridges, but one, I think, have been named after pioneer women. Therefore, it would be following a good example to name this bridge the "Margaret Hedden Bridge." She was a pioneer who crossed the plains in 1851, was married a year later to Cyrus Hedden, one of the participants in the historic fight at Battle Rock and in the L. L. Williams episode.

"She was the mother of John Hedden of Scottsburg. She spent her lifetime greatly loved and respected. I could name dozens of other pioneer women, but none who spent her life at Scottsburg. Therefore, I earnestly request that whosoever has the naming of this bridge, name it for a pioneer woman or else simply call it the Scottsburg bridge."

### NEW GARDEN CLUB IS STARTED AT REEDSPORT

A garden club has been organized in Reedsport, the object of which shall be to stimulate the knowledge and love of gardens to protect native trees, shrubs and wild flowers and to encourage civic beauty, says the Port Umpqua Courier.

An active membership was reported at the first meeting and plans for considerable activity in the near future were discussed. The next meeting will be held on April 12, at 2 p. m. at the home of Mrs. A. W. Burton. All interested are cordially invited.

Officers of the club are Mrs. W. G. Hoagland, president; Mrs. A. W. Burton, vice-president, and Mrs. W. H. Benson as secretary.

### AWARD OF HEROISM TO BE GIVEN SCOUT

EUGENE, April 8.—Because Oswald Thiel, of Coburg, saved his father's life by rescuing him from a high tension wire and applying resuscitation methods, he is to be presented with a certificate of heroism that is being rushed by airmail from New York to C. R. Clark, director of scout work here. The ceremony will be at the scout circus Monday evening in McArthur court.

This certificate is being presented Thiel by the national organization as a result of his heroic work in rescuing his father from electric shock in February.

**10,000 Bottles a Day**

Every day 10,000 women buy a bottle of Lydia E. Pinkham's Vegetable Compound. They know that there is no better remedy for their troublesome ailments with their accompanying nervousness, backache, headache, "blue" spells and rundown condition.

**Lydia E. Pinkham's Vegetable Compound**

### MILLIONAIRE IS SHERIFF AND BOSS IN TEXAS COUNTY

EDINBURG, Tex., April 7.—A king of democracy in the Rio Grande valley is A. Y. Baker, millionaire sheriff of Hidalgo county.

Baker's exploits in 17 years as sheriff are Texas history. Without a gun he has kept peace. Political turmoil frequently has revolved about him; immigrant republicans from the midwest have tried to oust him, yet every two years he is reelected.

The county sometimes is called "Hidalgo Free State," due to its unique political makeup. Baker's republican enemies often refer to him as the "czar." Texas rangers guarded the polls at last November's election, which was followed by charges of irregularities.

Baker, once a ranger himself, came to the Rio Grande valley 30 years ago when it was a thicket of mesquite and chapparal. When Hidalgo county was created in 1912, he entered the sheriff's office.

He is one of the valley's richest citizens, and heads a new bank housed in one of the valley's most costly buildings.

### MISSING DOCTOR IN VICE CASE SUED BY RELATIVE

(Associated Press Leased Wire)

PORTLAND, Ore., April 6.—Dr. George Blaine Garrison, Portland physician who disappeared a year ago, following his arrest on a vice charge, was made defendant today in a suit filed in circuit court by his brother-in-law, Roy Rew of Pendleton, Ore., seeking to recover $16,509 paid out for Garrison before he fled.

Rew complains that he paid out the sum for the use and benefit of Garrison between March 1, 1928, and January 15, 1929. This includes $10,000 paid the state on Garrison's bond. The physician is still at large.

### CARD OF THANKS

I wish to express my thanks for the many expressions of kindness and the beautiful floral offerings during the recent illness and death of my beloved wife.

Walter W. Chambers.

# DOUGLAS FIR TO BE USED IN MASTS FOR OLD IRONSIDES

SEATTLE, Wash., April 8.—Material for masts and spars to be used in the restoration of "Old Ironsides," the U. S. Frigate Constitution, of early American navy fame, will be cut within the next two weeks by a Douglas fir mill and forwarded by rail to Boston navy yard, the West Coast Lumbermen's association stated today. Four Douglas fir timbers 102 feet long and sixteen inches square will be used in re-building the main mast of the historic frigate. Four other pieces 101 feet long and seventeen and one-half inches square are required to reconstruct the mizzen mast. The whole shipment totals 11,316 board feet.

This timber, of the best quality available from the Douglas fir forests of the Pacific northwest, was donated by the West Coast lumber industry and will be used for fashioning masts, a bowsprit, topmasts, yards, booms and gaffs. Because of the patriotic nature of the consignment it is being carried free from the mill to the navy yard at Boston by interested railroads.

As donations from school children and grown-ups, industries and business organizations are providing the funds for rehabilitating "Old Ironsides" as a public enterprise, special arrangements are being made between the navy, the railways over whose lines the shipment will pass, and the West Coast Lumbermen's association for the public to inspect these timbers at various stopping places. Preliminary routing announced today by the association is as follows:

By the Spokane, Portland and Seattle railroad from the mill to Portland; to Tacoma and Seattle by the Northern Pacific; Great Northern to Spokane; Northern Pacific to St. Paul; Chicago and Northwestern to Chicago; New York Central lines to Albany; and Boston and Maine to Boston navy yard.

### D. O. WOODWORTH NAMED TO STATE FAIR BOARD

(Associated Press Leased Wire)

SALEM, Ore., April 6.—D. O. Woodworth of Albany was yesterday appointed by Governor Patterson as a member of the state fair board, succeeding Frank E. Lynn of Dallas, whose term expired.

Mr. Woodworth was formerly in the drug business in Albany but in recent years has been a developer of Jersey cattle herds and has served as president of the Oregon branch of the American Jersey Cattle club.

The personnel of the fair board is now H. R. Crawford of Salem, A. R. Shumway of Milton, Charles Cleveland of Gresham, A. C. Marsters of Roseburg and Mr. Woodworth. R. H. Kreitzer of Portland was today appointed by Governor Patterson as a member of the state board for vocational education.

### FREEZE INJURES LEMON TREE

The cold weather during the past winter all but killed the lemon tree at the Cleland Weaver ranch in Missouri Bottom, says the Myrtle Creek News. The tree was several years old and at the beginning of the cold wave was hanging full of lemons, from very small to those all but ready to ripen. Mr. Weaver sent one of the latter to the Mail office. The tree has been cut back and may possibly survive the rough treatment it received at the hands of Old Boreas along in January.

### FLYING SHOWS INCREASE

OAKLAND, Calif., April 8.—Continued gains in all phases of air transportation during the month of March, as compared with last month and March, 1928, are indicated in the monthly traffic report for Oakland municipal airport, recently released by the board of port commissioners.

During the month of March, 7,210 plane landings were recorded, 5319 passengers were carried and 859 student flights were made.

In March, 1928, Oakland airport traffic was as follows: landings, 4648; passengers carried, 2372, and student flights, 798. In February, 1929, 5014 plane landings were recorded, 3110 passengers were carried and 686 student flights were made.

### OAKLAND COMPANY BUYS SUTHERLIN GROCERY

R. D. Bridges, manager of the J. T. Bridges company store of Oakland announced Wednesday morning that the J. T. Bridges company had purchased the grocery stock of Talbot & Slater of Sutherlin and had moved it to Oakland, says the Oakland Tribune. The Sutherlin firm recently dissolved partnership and have gone out of business. They were the largest firm of the kind in Sutherlin and had been in business many years.

In order to take care of the surplus created by the purchase, Mr. Bridges said the J. T. Bridges company store would be completely remodeled and made a thoroughly up-to-date grocery establishment by a rearrangement of the interior. A new floor will be laid, new shelving and counters installed and everything arranged for the convenience of the patrons in viewing the articles they wish to purchase. The store will still continue to carry a general line of merchandise but will pay particular attention to the grocery end of the business. The arrangement of the interior of the building will start at once, according to Mr. Bridges.

**3 Glasses Water Help Constipation**

One glass of water is not enough—take three glasses, one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass. Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours. Nathan Fullerton, druggist.

### GEN. VON LAUTER DIES

BERLIN, April 8.—The death of General Ludwig von Lauter at the age of 74 was announced today.

General von Lauter commanded the German heavy artillery during the great war, including the guns which bombarded Paris.

Notice of Sale of Government Timber, General Land Office, Washington, D. C., Mar. 15, 1929. Notice is hereby given that subject to the conditions and limitations of the act of June 9, 1916 (39 Stat. 218), as amended by the act of May 11, 1926 (44 Stat. 497) and pursuant to departmental regulations of April 14, 1924 (50 L. D. 546), the timber on the following lands will be sold Apr. 29, 1929, at 10 o'clock A. M. at public auction at the United States land office at Roseburg, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, sale to be subject to the approval of the Secretary of the Interior. The purchase price, with an additional sum of one-fifth of one per cent thereof, being commissions allowed, must be deposited at the time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber, which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any State, territory or district thereof only. Upon application of a qualified purchaser the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit. William Spry, Commissioner.

# Active People want and need sugar

*The "Fuel of Preference" in the body*

AN EMINENT food authority recently stated that any person who has a very active body is likely to be always on the edge of the sugar reserve in his body (glycogen). "That is why," he said, "the soldier and athlete wants and needs sugar. That is why the active child wants and needs sugar." He went on to explain that sugar is the fuel of preference in the body, that sugar can be more easily and quickly converted into energy than any other food. He emphasized the fact that sugar should form a part of the regular diet of every family and that any reducing diet, as well as any other diet, should contain sugar.

The best way for sugar to be eaten is as a flavorer of other foods. In that way, it serves the double purpose of furnishing energy to the body and also of adding appetizing delight to other healthful foods. Sugar added to healthful grain cereals makes them welcome and enjoyable to growing children. Think of how many health-giving fruits are objectionable to the taste without sugar. Scientists tell us that we need the daily roughage of salads as well as cooked fruits and vegetables. Any good cook knows that adding sugar makes all of these welcome and pleasant to the palate. In addition to being the best and cheapest fuel for the body, sugar is nature's perfect flavor. It makes nearly all other foods more enjoyable. For health and enjoyment, there is no substitute for sugar. The Sugar Institute.
