

NASH 400 SERIES HAS GREAT SALE

KENOSHA, Wis., April 10.—When final reports were received by Nash sales department officials from marketing centers in the United States, it was found today that Nash "400" series car sales in the ten highest sales points during the week ending March 30 were greater than those in any previous week on the record of the Nash Motors company.

The total number of "400" cars bought in these ten marketing centers rolled up an increase of \$2.95 per cent over the sales made at the same points in the corresponding week of 1928.

This significant buying record for Nash was not limited alone to the ten metropolitan markets where sales were largest and which are considered an American merchandising barometer. A further check revealed that the sales of these increasingly popular cars in all distributing centers during the closing week in March equaled the peak figures of the first week in July last year, when the Nash "400" demand had reached its height following announcement and nationwide introduction of the new type cars.

New York led the Nash sales procession through the banner week in total car sales and marked up a 25 per cent increase over its records for the week last year. Chicago people bought more than 53 per cent more Nashes than they did in the week a year ago. Boston, Minneapolis, Philadelphia, Cleveland, Pittsburgh, Buffalo, San Francisco and Detroit—the other leading Nash markets for the week—showed substantial gains to bring the total increase in Nash cars sold in the ten cities to 52.95 per cent.

"No more conclusive evidence is needed to show that Nash in 1929 may expect the greatest volume of business in the experience of the company," declared C. H. Bliss, general sales manager in commenting on the brilliant sales record. "The entire Nash organization is prepared to do bigger things this year than ever before."

MOTOR CAR TAXES ON THE INCREASE

WASHINGTON, D. C., April 10.—State motor vehicle taxes increased twice as much as motor vehicle registrations in 1928 and the average per vehicle tax for the country increased six per cent in 1928 over 1927, according to the annual survey of the American Automobile association made public here today.

The total increase of motor vehicle registration for the United States in 1928 was 6.9 per cent, while the increase in the total amount of special car taxes exclusive of personal property taxes for the 48 states and the District of Columbia was 12 per cent.

"The facts disclosed by our annual motor vehicle registration and taxation map reveal to a greater extent than ever before the heavy proportion of taxes that the motorists are bearing," declared Thomas P. Henry, president of the A. A. A. "Car owners of the nation have always been ready to stand for taxation for road building, but there has been a deplorable tendency toward taxing the motorists for various other public improvements and in many instances there has been rank discrimination."

Officials of the national motoring body pointing out that the retirement of the federal government from the taxing field early in 1928, through the repeal of the excise tax, was an important step in the campaign for fair taxation of car owners.

Following is a summary of other facts brought out in the annual tax review:

First: The average per vehicle tax levy for the entire country was \$25.24 in 1928 as compared with \$23.73 in 1927, an increase of six per cent in a period of twelve months. The per vehicle tax has increased .85 per cent since 1919, when it stood at \$24.39.

Second: Special taxes collected from car owners by the states reached a new high peak last year, with a total of \$624,325,670 as compared with \$552,629,828 in 1927, an increase of \$71,695,842.

Third: The state's revenue from the gasoline tax increased 24 per cent in 1928, the total being \$319,906,417, as compared with \$254,109,262 the previous year.

While seven states reported 1928 registration of over more than a million vehicles, a commonwealth

CAN'T PRAISE IT ENOUGH

Lydia E. Pinkham's Vegetable Compound Helped Her So Much

Kingsport, Mo.—"I have not taken anything but Lydia E. Pinkham's Vegetable Compound for 18 months and it cannot praise it enough. I weighed about 160 pounds and was not able to do any kind of work. My housework was done by my mother and my out-of-door work was not done. I have taken four bottles of the Vegetable Compound and now I am well and strong and feel fine. I get my menstruation to take it after her last baby came and she is stronger now. I cannot praise it enough."

HATTIE V. LANTIER, R. I. Kingsport, Missouri.

passed the two million mark for the first time when New York reported total registration of 2,051,469. The six other states in the million class were: California, 1,512,597; Pennsylvania, 1,553,312; Ohio, 1,479,629; Illinois, 1,595,205; Michigan, 1,751,221 and Texas, 1,207,441. Massachusetts, 28 in 1927, continued to maintain eighth place on the list with 885,201 registrations.

In state, local driver's licenses and gasoline taxes, the highest five were: Pennsylvania, \$49,625, 603; California, \$39,111, 663; Michigan, \$37,011, 127; Ohio, \$36,724, 556 and Texas \$35,965, 267.

California led in amounts collected from the gas tax, with \$29,999,799, while other leading states were: Ohio \$24,884,698; Pennsylvania, \$22,508,826; Michigan \$18,331,840 and Texas, \$15,285,137.

The five states with the highest per vehicle tax were: Florida, \$45.85; Oregon, \$43.70; Arkansas, \$43.60; Georgia \$38.60 and Virginia, \$38.54. Illinois with \$9.71 had the lowest per vehicle tax levy.

HIGHWAY LIGHTS PROMOTE SAFETY

By a series of after-dark tests upon a motor highway, street-lighting specialists of the General Electric company have determined that pedestrians are almost invisible to motorists upon unlighted roads, even with automobile headlights playing full upon them, unless the pedestrians wear white suits.

Three experiments were conducted, two of them with all highway lights extinguished. In the first a man in dark clothes stood about a hundred feet in front of an automobile, the headlights of which were shining. The man could not be seen from the car, and in the ordinary course of events he would not be discovered by the motorist until the latter was so close to him that only a very sudden stop would prevent him from being run over unless he himself got out of the way in ample time.

In the second experiment a man wearing light-colored clothes and holding a white handkerchief stood at the same distance. The man's figure could be made out in plenty of time for the automobilist to avoid him, and the white handkerchief was particularly easy to pick out.

In the third experiment the highway lights were turned on and the pedestrian, wearing dark clothes, was vividly revealed in silhouette against the glow of the lights.

The conclusion reached by the lighting specialists was that in only two ways can a motorist discern pedestrians upon highways at a distance after dark. They can be seen if they wear light-colored clothes, preferably all-white clothes, or if the highway has adequate

World's Largest Airplane Tire

This interesting picture of the world's largest airplane tire was received today by J. O. Newland & Son, local Dunlop tire dealers. This large tire, which has been on exhibition by the Dunlop Tire and Rubber company at an aviation show in Buffalo, New York, was made for a huge bombing plane. The tire is over 7 feet high, 16 inches wide, and weighs 200 pounds.

An idea of its great size may be obtained by comparing it with Dunlop's super-automobile tire, the John Boyd Dunlop, which appears alongside.

"The picture gives a rather startling outlook into the future," said Mr. M. J. Newland. "While today we are selling only automobile tires, who knows but that in three years we will have a regular established trade on all kinds and sizes of airplane tires."

"In fact, the varied development of the tire business was one reason why we chose to represent

highway lights.

As it is out of the question to expect that everyone who walks along the highways will dress in white, the only alternative is to properly light the roads. It is not sufficient to depend upon automobile headlights alone according to this demonstration.

Such conditions as described are to be met with principally upon public highways beyond the limits of cities and towns, where the road passes through more or less open country, without sidewalks. Such highways are always more or less used by walkers at all hours of the evening.

SPRINGTIME AUTO TOURS BECKONING

Springtime is touring time and touring time calls for a new set of tires on the car, advises the Western Auto Supply company.

"Western Auto's trade-in allowance makes it easy to equip the car all around as old tires are taken in as part payment on Western Giant or Wearwell tires at any of our conveniently located stores," says G. M. Krell, local manager of the Western Auto Supply company.

"Years of experience in providing automobile owners with long lasting, trouble-free tires, prompt smiling service at more than 150 western stores and prices made low by quantity production and economical distribution explain the tremendous popularity of Western Giant and Wearwell tires.

"Thousands of motorists who purchased more than half a million tires from our stores last year, know from experience that we give out tending tire values and daily new scores of automobile owners are won over to Western Auto tires by their splendid reputation for economy and satisfactory service.

"Every Western Auto tire is backed not only by our liberal minimum mileage guarantee but also by our guarantee of satisfaction for the life of the tire. This guarantee of service is upheld by every one of our more than 150 stores and by our well-known 'Customer is always right' policy," says Mr. Krell.

COAST LOOKS GOOD FOR 1929 BUSINESS

TOLEDO, Ohio, April 9.—John N. Willys, president of the Willys-Overland company, on his return here from California, where he spent a month on business, declared that never before in the entire history of the company has it faced such a healthy business condition as exists at present.

Mr. Willys was enthusiastic over the reception accorded the new lines of Whippet fours and sixes and Willys-Knight sixes, both on the part of the dealer organization and the buying public.

"Our new lines," he said, "are by far the most popular ever introduced by us. This is reflected in the record shipments of 61,818 cars in January and February which are more than double the shipments in the same two months of

last year. This has been in the face of a severe winter in all parts of the country and may be taken as a barometer of the increased business that lies ahead when fair weather breaks.

"We are now employing 22,000 workers at our Toledo plant which of course means a great daily output of both Whippets and Willys-Knights."

Mr. Willys said that in the past five weeks he has called on scores of Willys-Overland dealers and declared that the sales volume of the company's new products more than justifies the plans for 1929 which call for the greatest production of motor cars in the history of the company.

Commenting on the progress of the new Willys-Overland assembly plant which was recently opened in Los Angeles, he said that production already is well over 70 cars a day and that April car building schedules in the coast plant will reach 120 cars daily.

"Business in California in February was three times greater than it ever has been before," he said. "I look for a still greater increase in that territory because of the operation of our plant there."

"We have made the necessary expansion at our Toledo plant and have developed a line of cars that

places us in the most strategic position we have ever occupied, and are concentrating on the further expansion of our sales and distributing organization."

He said that during the next six weeks he would set out on an extended trip which will take him to all sections of the country in order that he may get a close-up view.

before you buy your
next automobile....

learn why over
300,000
have already
chosen the New
Chevrolet Six

Since January first, over 300,000 people have chosen the Chevrolet Six. And every day sees an increase in this tremendous public acceptance—

—for the new Chevrolet not only brings the enjoyment of six-cylinder performance within the reach of everybody everywhere, but gives the Chevrolet buyer a greater dollar value than any other low-priced car. Just consider what you get in the Chevrolet Six! The smoothness, flexibility and power of a six-cylinder engine which delivers better than twenty miles to the gallon. The beauty and luxury of bodies by Fisher with adjustable driver's seat. The effortless control of big, quiet, non-locking 4-wheel brakes and ball bearing steering. The convenience of numerous modern features that progressive buyers are now demanding in the cars they buy.

Then consider Chevrolet prices! And you will discover that this fine quality Six can actually be bought in the price range of the four! Come in. Let us show you why hundreds of thousands have already chosen this remarkable automobile—let us prove that anyone who can afford any car can afford a Chevrolet Six!

WHIPPET SALES FOR FIRST 3 MONTHS OF 1929
FAR SURPASS SALES FOR SAME PERIOD OF 1928

THIS dramatic increase in sales of the new Superior Whippet, Fours and Sixes, is easy to understand. The motoring public has been quick to appreciate that these most modern cars are the finest values ever offered to Four and light Six drivers.

The new Superior Whippet Six is the world's slowest-priced Six with the important advantages of seven-bearing crankshaft, full force-feed lubrication, "Finger-Tip Control," silent

timing chain, extra long wheelbase, oversize balloon tires and invar-strut pistons. No other low-priced Six has all these costly car features.

The new Superior Whippet Four is the only Four with full force-feed lubrication, "Finger-Tip Control," silent timing chain, invar-strut pistons and oversize balloon tires.
