DAUGHTERS—help old parents to be comfortable

Devoted daughter tells what she did

YOU find it in almost every family. An elderly mother or father living with the young folks. The children doing all they can to make their parents' last years comfortable.

The Robinson home at 2330 Coral Street, Philadelphia, proved no exception when the reporter called there. Mrs. Robinson had a special health problem to solve.

"My mother, who is 80 years old," she explained, "had a partial stroke of paralysis." It was vitally important to keep her system functioning regularly and easily. They tried various measures. But they all upset her in her weakened condition. Finally, Mrs. Robinson said, "after reading the advertisement of Nujol, we tried that. We find it gives satisfactory results. My mother can take it easily—a tablespoonful at night—because it's tasteless."

That's the wonderful thing about Nujol. It won't upset or disagree with anybody. You can give it to invalids, very old folks and tiny babies with perfect safety. For Nujol contains absolutely no medicine or drugs. It was perfected by the Nujol

Laboratories, 2 Park Avenue, New York City.

Nujol accomplishes quite as much good as the more drastic methods. But does its work in a normal, natural way. It not only prevents an excess of body poisons from forming (we all have them), but aids in their removal. Get a bottle today. You'll find Nujol at all good drug stores. In scaled packages.
