SNOW LAKE, Ark., April 22.—Barring excessive rainfall, engineers in charge of a force of 500 workmen today believed that the fight to prevent the main levee on the Mississippi river at Knoxville's Landing, Ark., from caving in had been won.

Considerable uneasiness was caused last week when a 250-foot section of the levee crumbled. With the river falling, engineers did not expect any more trouble.

Umpqua Amusement Company, Inc.

Roseburg, Ore., Monday, April 22, 1929.

Mr. and Mrs. Roseburg:

We have booked, on trial, the new Fanchon and Marco Varieties, a new vaudeville feature, available once each week. Fanchon and Marco shows are being produced in all of the leading theatres of the Pacific Coast, and their vaudeville artists are now being made available for the entertainment of theatre goers in the smaller intermediate cities. High class vaudeville acts, similar to those offered in the big cities, will be furnished by this new feature.

Whether or not it will be possible for us to continue to book this high class entertainment each week depends entirely upon the measure of support and patronage given by our patrons in Roseburg. Great expense is incurred in bringing such high class entertainment to the city.

We desire to keep the admission price within reach of all, so that with a price of 50 cents for adults and 10 cents for children it becomes necessary for us to have a capacity house at each performance. These shows will be brought to Roseburg each Thursday, under our present arrangements.

The vaudeville acts will be presented each week in conjunction with our regular picture programs.

May we count upon you for your support?

Very truly yours,

UMPQUA AMUSEMENT COMPANY.

E. A. Gross, Manager.
