

FOREST SERVICE SELLS WHITE CEDAR IN COOS COUNTY

Sale of approximately 227,000 worth of Port Orford cedar in the coast unit of the Umpqua national

forest was completed at the local office yesterday afternoon. J. E. Paulson of Coquille, was the only bidder, paying \$12.25 per thousand for 1,800,000 feet of saw logs and \$5 per thousand for 200,000 feet of battery stock. The timber is located on 300 acres on Elk river in Coos county. Two other tracts were advertised but were not sold. The forest service is opening a large area to cutting in the Elk river district, and is operating the cutting on the continuous plan, whereby the tract is distributed and sold in units so that by the time the last unit is cut

over the first section will be ready for a second cutting. The Evans Auto Loading company of Detroit, Mich., has just completed cutting 750,000 feet sold in February. In all of these sales the county in which the timber is located receives 25 per cent of the proceeds.

TO THE PUBLIC

1914 DODGE CAR IS STILL ON THE ROAD

How long is "long life" in a motor car?

The characteristic dependability of Dodge Brothers cars has been given additional prestige by the discovery of a 1914 model whose mileage has been lost somewhere above the 300,000 mile mark. The motor number is 165, and for thirteen years, this veteran car has been the proudest possession of Bill McCordie, a copper prospector who lives in a far covered shack isolated in the high mountains of northeastern Nevada.

McCordie's house and garden are surrounded by peaks nearly 10,000 feet high. There is nothing like a boulevard in this country. Over rocky hills across gulches, and up difficult drouths, McCordie patrols his domain in his faithful car, which, he declares, will "run like a top." Bill bought it second hand in 1916 and since that time the car has taken him wherever he wished to go. Yet the repair bill in this period have totaled only \$91. In 1921 he spent \$76, and this spring he invested \$21 more for the welfare of this old car and Bill's business.

Since the last repair, Bill makes some steep grades on high gear where much younger cars are forced into low gear to surmount the rugged roads that were once only prospector's trails over the Nevada mountains. The top of his car has long since vanished, but the rain and sun never hurt it as long as the engine is in good order.

Bill's house is in a little sheltered cove with steep bluffs surrounding. A half acre garden spot not only supplies food for him, but brings several hundred dollars every summer where the fine vegetables are marketed in Connet a nearby town.

All about this protected spot, stretch the high bare mountains that Bill believes rich in copper ore. His own holdings make him a potential millionaire, and he doesn't prospect any more, having plenty to do looking after his own claims and those of friends. With his car, he covers the entire territory—roads or no roads.

Not even the gold rush days of the Klondike or Goldfield lured Bill away from his home where he has lived since 1916. Consequently, he is the patriarch of all the prospectors in that region, just as the Dodge car is the patriarch of cars in lands where rough roads and steep grades eliminate the weak ones.

Bill's fellow worker is a young brother, Hank. Both are happy, and depend on the faithful Dodge car for access to this outside world and to their own world—the secluded mountains about their home.

FATHER OF 8 CHILDREN CHARGED WITH INCEST

(Associated Press Licensed Wire)
PORTLAND, Ore., July 2.—Roy Franzer, 42, Portland, widower and father of eight children, was arrested and charged with a statutory offense involving his 15-year-old daughter today. The complaint was made by the Women's Protective division which has been aiding the family.

CHRYSLER MOTORS PRODUCT

This new and modern manufacturing plant is devoted exclusively to the production of Plymouth motor cars. It is the largest plant of its kind.

Marking the First Anniversary of a notable Success

PLYMOUTH—One year old this week—is already a giant in fact and favor

One year ago, Plymouth was a brand-new name to the motor world. In the brief span of twelve months, Plymouth, now newly refined and improved, has become everywhere a commanding figure in the low-priced field.

Only a year—and Plymouth finds itself in the biggest and most modern plant of its kind in the world. Only a year—and

Mattheus, deceased, has filed in the County Court of Douglas County, State of Oregon, his final account as such administrator of said estate and that Friday, the 25th day of June, 1929, has been fixed by said court as the time for hearing of objections to said report and the settlement thereof.

SUMMONS

In the Circuit Court of the State of Oregon, for the County of Douglas.

Ellen Hanks, Plaintiff, vs. Rilla Hobbs, Jessie Hobbs, D. Vandevort, George Tarrant and Anna J. Tarrant, his wife, also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in the complaint herein. Defendants.

In the name of the State of Oregon you and each of you are hereby notified and required to appear and answer Plaintiff's complaint against you in the above entitled cause and cause on or before the expiration of four weeks from the date of the first publication of this summons, and if you fail to so appear and answer Plaintiff's complaint, the plaintiff will be forced to apply to the court for the relief demanded in her complaint, a succinct statement of which is as follows, to-wit:

That each and all of you are forever barred and foreclosed of any and all right, title, estate, lien or interest in and to the following described real property, to-wit: Lot numbered six (6) in block numbered two (2) in the city of Glendale (platted as the Glendale Addition) Douglas County, Oregon.

And that Plaintiff's title thereto and the whole thereof be forever quieted and that Plaintiff be decreed to be the owner of said real property in fee simple free from any and all claims of the above defendants.

This summons is published by order of the Hon. J. W. Hamilton, Judge of the above entitled court, which said order was made and dated the 25th day of June, 1929, and the time prescribed in said order for the defendants to appear and answer Plaintiff's complaint is within four weeks from the date of the first publication of said summons, and the date of the first publication of this summons is June 27, 1929.

RICE & ORCUTT,
Attorneys for plaintiff, Postoffice address, Roseburg, Oregon.

SCIENCE LEARNS CAUSE OF MOST HUMAN ILLS

Recent Discoveries by Medical Science Prove Conclusively that Constipation—Indigestion—Dyspepsia—Biliousness—Hyperacidity—Auto-Intoxication—Disturbed Heart Action—Overloading of Kidneys with Consequent Excess of Uric Acid in the Blood—Headaches—Nervousness—Sleeplessness—Mental Depression—Dizziness—Bad Breath—Coated Tongue—Salivary Complexion—Sluggishness—Sour Stomach—Loss of Weight—Loss of Vitality—Loss of Appetite—Rheumatic Pains Due to Toxic Poisoning—and Mental and Physical Inefficiency Can Be Traced, in most Cases, to One of Three Things, a Sluggish Liver, Impoverished Blood or Improper Glandular Activity.

If These Vital Organs and Fluids Are Not Performing Their Proper Functions—Sickness—Suffering and Ill Health Are the Inevitable Results.

The commonest and greatest curse of any of these is constipation. It is man's greatest enemy. It poisons him, slows him up mentally and physically, breaks down youthful strength and vigor, ages him prematurely, and leaves him an easy victim to the attack of almost countless diseases.

EVER since the dawn of civilization, mankind has been searching for drugs and medicines that would give relief from these common ills.

Two thousand years ago, Hippocrates, history's first physician, was trying to cure constipation by using purgatives. And until recently, millions of people throughout the civilized world have been trying to do the same thing—with the same lack of success that Hippocrates had.

Purgatives and laxative drugs have never cured constipation—and never will.

Within the past few years Medical Science has made some amazing discoveries—discoveries that will have a far-reaching effect upon the health and well-being of mankind. These discoveries absolutely disprove many of the beliefs, practices and theories that we have known for a life-time.

For centuries we have believed that bile was a harmful, nauseating substance that made us sick, or bilious. Medical science has now proven conclusively that bile is in reality and in fact, a veritable health-giving and life-sustaining fluid with many important functions—and that biliousness is not due to too much bile, but to a lack of it.

In attempting to stimulate the liver and increase the bile flow, Calomel is the drug that has been most widely used throughout the world for many years. And now science has proven that this poisonous, nauseating chemical has no action whatever on the liver or bile flow and that it confines its action to the intestinal tract. It is a purgative and nothing else.

Here is what an eminent authority has to say about Calomel:

"Contrary to the belief adhered to for many years, calomel has no action on the liver or bile flow. This belief existed and was based on the color of the stools after the administration of Calomel. It has, however, been thoroughly demonstrated that the characteristic greenish stools are colored by

the calomel itself, and does not indicate the presence of bile.

"Calomel is a mercury compound which exerts a cathartic action through the irritating effects of small quantities of mercury which are liberated from it. Large doses of calomel probably favor bacterial increase by lessening intestinal resistance. It is not suited to long use because of its systemic action."

Having made this discovery, scientists then began a world-wide search for something that would stimulate and invigorate a sluggish liver to action.

This search has been rewarded. They have found a substance which, according to the highest authorities, is the most powerful stimulant to the secretory, or bile-producing, activity of the liver known to materia medica.

Unlike Calomel, it does not shock or upset the system, cause nausea or any other ill effects so common to Calomel. On the other hand, it is designed to stimulate a sluggish liver to the normal production of bile demanded by Nature for good health.

Neither is this substance in any sense of the word, a purgative. It

is a liver tonic and does its work by the simple method of causing the liver to secrete and deliver into the gastro-intestinal tract a normal flow of bile—which is a more natural and effective laxative than can ever be devised by man.

This amazing substance is one of the principal ingredients in Sargon, the new and revolutionary formula which is lifting tens of thousands out of the throes of ill health, dependency and inefficiency into vigorous, exuberant health.

This amazing substance, which does the one thing that Calomel was supposed to do—that is, stimulate the liver and increase the flow of bile—without purging or upsetting the system, is contained in greater concentration in Sargon Soft Mass Pills, which are a necessary and integral part of the Sargon treatment.

Another great discovery that has been made by medical science is the astounding fact that there is no drug or medicine which is an effective "blood purifier." Although millions upon millions of dollars have been spent for drugs and medicines in the belief that they were effective "blood purifiers."

One of the three basic ingredients contained in Sargon is designed to build up the vigor and richness of the blood stream by adding Nature to increase the amount of haemoglobin which the red blood corpuscles contain, and thus enable the blood to purify itself.

Sargon is also designed to stimulate the secretions of the glandular system which forms a network throughout the body. It is now recognized that our outlook on life is largely governed by the chemicals which these glands distill and pour into our blood.

In other words, gland secretions make us either alert and ambitious or dull and depressed.

The efficiency of every cell of the body is apparently either directly, or indirectly, supervised by the secretions of these glands.

Sargon also contains other ingredients of recognized therapeutic value which impart tone and strength to the entire system and are valuable for their influence upon the appetite, digestion and assimilation.

Sargon is fulfilling its great mission. It's doing it in a new and revolutionary way—the way that the men of science who labored for years to perfect this new and epoch-making formula intended it to be done.

From all sections of the country where Sargon is available, reports are pouring in to leading druggists telling of the amazing powers of this new and epoch-making formula. This mass of evidence verifies the claim of science that good health is largely maintained by the three vital organs and fluids of the body which are stimulated and invigorated by the basic elements contained in Sargon.

Sargon can now be obtained in Roseburg from Nathan Fullerton's Rexall Drug Store.

14 Astounding Facts

As a result of world-wide medical research, Science has learned the following important facts:

- 1 That Calomel has no effect whatever on the liver and bile flow and confines its action to the intestinal tract.
- 2 That the cause of eight out of ten cases of stomach trouble has nothing whatever to do with the stomach itself.
- 3 That indigestion, dyspepsia and constipation are due, in the great majority of cases, to an insufficient flow of bile caused by a sluggish liver.
- 4 That biliousness is not due to too much bile, but to a lack of it.
- 5 That to enjoy good health, the liver must manufacture an average of three pints of bile every twenty-four hours.
- 6 That bile, in place of being a harmful substance which makes us sick, has many all-important functions.
- 7 That bile is a powerful digestant without which food cannot be properly assimilated.
- 8 That bile is Nature's own laxative, so certain in its action that people with a normal flow of bile are practically immune to constipation.
- 9 That bile is an antiseptic and lessens bacterial growth in the intestines and combats putrefaction and the formation of gas. It is also an alkaline and counteracts hyperacidity.
- 10 That bile is, in short, a veritable life-sustaining fluid. If we lack it, the process of digestion, assimilation and elimination become deranged, causing many gastro-intestinal disturbances.
- 11 That seven out of every ten people past the age of thirty suffer from an insufficient flow of bile caused by a sluggish liver.
- 12 That there is no drug or medicine which is an effective "blood purifier," although millions upon millions of dollars have been spent for medicines in the belief that they were "blood purifiers."
- 13 That the secretions of the endocrine glands affect mental as well as physical efficiency and that they make us either ambitious and alert or dull and depressed.
- 14 That good health is largely maintained by three vital organs and fluids of the human body, which can be stimulated and invigorated by certain basic elements.

Science has succeeded in combining these elements in the new and revolutionary formula called Sargon, which may well be considered the greatest health-giving remedy of the age. In all leading cities where Sargon has been introduced, dealers are buying it in solid carload lots to supply the phenomenal and overwhelming demand.

Rundown and debilitated people by the thousands are reporting prompt recovery of health and bodily vigor through methods undreamed of a few years ago. Never before has any medicine aroused such widespread interest as Sargon which may now be obtained in Roseburg from Nathan Fullerton's Rexall Drug Store.—(Adv.)

NASH '400'

Leads the World in Motor Car Value

This is the Sedan you will buy, if you Compare in the \$900 Field

WE will not need to urge you to buy the Nash "400" Standard Six Sedan if you only compare it to other Sedans in the \$900 field.

First of all, it is a Nash, built in the traditional Nash manner, with precision workmanship in every part. And second, it is a Nash "400", and that means something in today's line-up of motor cars.

It means more powerful, more durable, more enjoyable motor performance. The engine in this sedan is a new high compression type with 7 bearings instead of 3 or 4, with aluminum alloy (Invar strut) pistons instead of cast iron pistons, and with full pressure lubrication to every single bearing point. Even the connecting rods in this Nash engine are rifle drilled, to

supply oil under pressure up to the wrist pin bearings.

Other "400" features which this car brings to you are the world's easiest steering—a luxury and refinement of interior decoration far beyond expectation at its price—size and capacity for five full grown passengers—riding ease attained by alloy steel springs individually designed for its size and weight, plus outboard mounted, Lovejoy hydraulic shock absorbers.

And finally, no extra charge for bumpers, front and rear, Lovejoy hydraulic shock absorbers, spare tire lock and tire cover. There's nothing except a spare tire to buy—none of these other items, customarily charged for as "extras" at retail prices, to pay for, when you buy the Nash "400".

Price Range (f. o. b. factory) of 23 Nash "400" Models, \$885 to \$2190 including Touring, Roadster, Coupe, Cabriolet, Victoria and Sedan Models
