## GEYSER SCALDS FOREIGN EDITOR IN YELLOWSTONE

(Associated Press Leased Wire) LIVINGSTON, Mont., July 5.—George Landroy, editor of La Matin, newspaper at Antwerp, Belgium, suffered serious burns from the spray of Castle geyser in Yellowstone national park Wednesday evening, it was learned here today.

Mr. Landroy, member of the European party of journalists touring this country, was waiting for Geyser to play near the Old Faithful Inn and went to look at its indicator to see if the flow was about to start. In doing so, he had to pass close to Castle geyser. The latter spouted suddenly and literally covered his body with boiling water before he could get out of the way.

The editor was rushed to the hospital at Mammoth, where physicians reported his burns were extremely severe and that they did not expect him to recover.

## Eat vegetables for beauty

What we eat has to do with how we look

EAT vegetables for a healthy—hence clear and beautiful—skin, is the way a recent address by a professor of medicine might be summed up. Specifically he mentioned cabbage, carrots and spinach. It may be news to many women that the vegetable garden or market is first aid to the beauty parlor. There is nothing new about this, however, to scientific and medical authorities. Good skin, as well as good health generally, is largely a matter of what we eat. In a very real sense, the children, women and men of the United States are as good as their diet.

Every woman interested in feeding her family will be interested in the results of a series of experiments recently conducted by a group of nationally known women cooking experts. They searched for a way to make vegetable foods so tasteful that practically everybody will enjoy them. Their recommendations are: (1) Use very little water in cooking the vegetables. (2) Add a dash of sugar to the vegetables while they are cooking.

Bear in mind that this dash of sugar does not make the vegetables taste sweet. Sugar is nature's supreme seasoning. In this case it brings out the delicate vegetable flavors, and it also improves the vegetable freshness and color. In addition to milk, cereals, fruits and meat, eat at least one raw and one cooked vegetable a day. Remember cucumbers, candies, stewed fruits, berries or ice cream for dessert. A bit of sweet makes the meal complete. The Sugar Institute.

# FACTS about... RIVERSIDES

Study these points! ...they are your protection in knowing the Quality of tires you buy

## The Whole Story Is This...

MOST well-known tire manufacturers in America sell at least three different qualities of tires. So does Montgomery Ward & Co.

Most well-known tire manufacturers in America charge three different prices for the three different qualities of tires. So does Montgomery Ward & Co.

Most manufacturers or dealers do not admit that they sell three different qualities of tires. But Montgomery Ward & Co. does!

Our Super Service RIVERSIDE, unconditionally guaranteed for 30,000 miles, is our VERY BEST or Super Quality, and, in our opinion, the finest tire ever built. Compare it with any super quality tire made no matter how high the price.

Our Standard RIVERSIDE, guaranteed for 16,000 miles, is our FIRST QUALITY tire, and is equal in quality of materials, workmanship, appearance and service to other first quality tires made by leading manufacturers. It should never be compared with any "second line" brand—no matter what name the tire bears.

Our WARDWEAR tire, guaranteed for 10,000 miles, is our SECOND QUALITY tire, and equals any other second quality tire. It sells at an extremely low price and is only to be compared with low-priced "second-line" tires produced by leading manufacturers—regardless of any claims to the contrary.

Montgomery Ward & Co. believes in "calling a spade a spade" and letting the purchaser know exactly what we are selling him. It is distinctly against our policy to create the impression that our WARDWEAR quality is to be compared with first quality tires of leading manufacturers. Common sense should tell you that when any company produces three different articles to sell, at three different prices, there must be a difference in the quality.

All RIVERSIDE and WARDWEAR tires are made by manufacturers who are noted for the excellence of their products. Ward's economical distribution methods create short-cuts and economies which are directly reflected in the prices of our tires and, regardless of whether you purchase RIVERSIDES or WARDWEARS, we guarantee that you will save money as compared with the prices charged by others for the same identical qualities. In addition, at Ward's you pay for Guaranteed Mileage, which in itself is a definite measure of value.
