FARM BUREAU MAN OPPOSES SLIDING SCALE ON SUGAR

(Associated Press Leased Wire)

WASHINGTON, July 22.—Characterizing the proposed sliding scale tariff for sugar as an iniquitous device, Chester H. Gray, Washington representative of the American farm bureau federation in a letter to Sam H. Thompson, the federation president and to the state farm bureaus, declared that "no risky experiments should be tried out on agricultural products." The latter was made public today. "If we must experiment with a sliding scale proposition," his letter said, "it should be tried out on some profitable industrial commodity like steel, aluminum, rayon or jewelry. It would be interesting to see the fate of any member of congress who would dare advocate a sliding scale for any industrial commodity."

The sliding scale would mean virtually "price fixing" on the part of the federal government, Gray's communication declared. "It is equivalent to telling the American farmer who produces sugar that his refined product shall never go beyond $6 a hundred pounds."

He asserted that the tariff rate would decrease under the sliding scale plan when the price of refined sugar exceeds $6 a hundred.

If the price shoul exceed $6, he added the tariff bars "are let down to such an extreme extent that foreign sugars are invited to flood our markets."

He advocated the ad valorem system for the tariff protection of agriculture, declaring that "the draft in industry is away from the sliding scale rather than towards it."

HOOVER WANTS TO REDUCE EXPENSES OF MILITARY UNIT

(Associated Press Leased Wire)

WASHINGTON, July 23.—President Hoover intends to establish a commission of army officers within the general staff to see what can be done toward reducing military expenditures.

The commission, the president said today, would be charged with making an extensive inquiry to determine what has been made obsolete by scientific advancements and could be done away with, and what army programs can be spread over longer periods than originally intended and at the same time maintain complete and adequate preparedness.

The president said the purely military expenses of the United States constitute a military budget greater than that of any other nation and at a time when he considers there is less danger of war than at any period within the last 50 years.

Tax Cut Affected

The possibility of tax reduction, he added, was dependent to a large extent upon an ability to curtail military and naval expenditures. He regards the national situation as modified by the Kellogg treaty and said he was hopeful that expenditures might be saved through a naval disarmament agreement.

The president, said that as now estimated purely military expenditures will constitute one half of the increased government outlay estimated by 1933.

It is now estimated, he said, that the military outlay for 1923 will be $803,000,000 which is $120,000,000 more than the similar expenditure for the fiscal year just closed and compares with an average pre-war expenditure for the military activities of the army and navy of $266,000,000 annually.

ONE TOWN LOSES, ANOTHER GAINS, BY MEXICAN RULING

(Associated Press Leased Wire)

CALEXICO, Calif., July 23—This border town awoke yesterday to find its population decreased, temporarily at least, by approximately two hundred.

Across the border in Lower California the village of Mexicali greeted the break of day with the knowledge that it had profited in similar number by the over-night exodus from Calexico—the result of an order by the Mexican government demanding that foreigners working in the country must take residence there.

A mass meeting to protest the ruling, which went into effect yesterday, was scheduled for today by Calexico business men. Previous protests sent to Gov. Abelardo Rodriguez of the northern district of Lower California brought the formal statement that he thought the order would be modified before it went into effect.

No modification had been made early yesterday, and immigration officials enforced the mandate by refusing entrance to United States workers. Rooming accommodations were at a premium in Mexicali last night.

The governor announced that the edict had been issued at the request of the Mexican department of labor in an effort to alleviate the labor situation.

WASHINGTON, July 22.—Immigration Commissioner Hull said today that the United States had no intention of taking any actions with regard to the Mexican government's order requiring foreigners working in Mexico to reside in that country.

"We claim the right to make our own immigration laws," Commissioner Hull said, "and we extend the right to other nations."

SPECTRE OF WAR MAY VANISH, IS COUNCIL'S VIEW

(Continued from page 1)

bin said Mrs. Talbot was of Russian birth.

Gunboat Is Captured

The Russians also have captured the Chinese merchantman Haicheng, which they are holding near Blagoveshchensk. Japanese news agency reports, unconfirmed elsewhere, said a Chinese river gunboat had been captured by the Russians on the Amur.

Observers here today estimated seven divisions of Chinese infantry and one of artillery had been assembled in the Manchuli region, northwestern terminus of the Chinese Eastern Railway, while 50,000 soldiers are supposed to be gathered at Pogranichnaya, at the eastern end of the railroad.

Reports Held Colored

Chinese and Japanese news agencies here were filled today with continued alarming reports of troop movements along the Manchurian borderland, and the stories of refugees arriving at Harbin. Most of the stories were unconfirmed and neutral observers were of the opinion there had been no actual overt act by either Russia or China unless it was that purported to have taken place in seizure of the Chinese gunboat.

MADISON, Wis., July 23.—Roy Maxwell Talbot whose wife and daughter were captured by Russian troops in China, is a graduate of the University of Wisconsin. His home is in Shabdona, Ills. Talbot came to the university in 1904. Before the war he was a member of martime customs service in China.

FIGHT FOR BABE'S LIFE

(Associated Press Leased Wire)

SANTA MONICA, Cal., July 23.—A seventy-five hour fight by the fire department inhalator squad to save the life of little Marie Balle, 20-day-old baby, continued today as they incessantly pumped oxygen into the lungs of the infant. The daughter of Mr. and Mrs. G. P. Balle apparently was on the verge of death from a pneumonia seizure, according to Dr. G. S. Golding, family physician. The inhalator squad was summoned at 9 p. m. Friday.

IDAHO'S DEATH RATE LOWEST IN 4 COAST STATES

WASHINGTON, July 22.—Decline in the birth-rate of the nation and increase in death-rate in 1928 were shown in the census bureau's annual statistics published today. The birth-rate was 19.7 per 1,000 of population, compared with 20.7 in the previous year, while the death-rate was 12.3 per 1,000 against 11.4 in 1927.

Statistics for the states included:

State	Birth-rate	Death-rate
California	18.3	14.5
Idaho	16.6	17.4
Oregon	15.6	11.6
Washington	14.4	10.5

NAKED BLACKS KILL VICIOUS LIONS WITH PRIMITVE WEAPONS

The most thrilling moment in "Simba," the big game hunting motion picture made in Africa by Mr. and Mrs. Martin Johnson, which is coing to the Antlers theatre, is that which shows the naked blacks of the Lumbwa tribe, armed only with spears and shields, attacking and killing full grown lions. It seems incredible that the king of beasts could be slain by such simple weapons, but the camera shows exactly how it is done, and the scene keeps spectators on the edges of their seats.

As Martin Johnson, who photographed the battle, tells it, he, with his wife, Osa, and their safari had treked down into Tanganyika on the trail of lions. This, says Johnson, is the most wonderful big game tract in the world.

WALES TURNS BREWER

(Associated Press Leased Wire)

BURTON-ON-TRENT, England, July 23.—The Prince of Wales turned brewer today at this famous home of English brews and ales, starting to brew a new extra strong ale which will be known as the "Prince's Brew" and will be made only to be given away.

The prince thus followed the example of his grandfather Edward VII, who made a special brew when he visited Burton in 1902. His highness sampled some of this royal and ancient brew this afternoon.

He also tasted four other brews of varying ages and strengths before starting a brew of his own.
