Mammoth Onions Shown—G. W. Finley of Lookingglass brought to this office today three Italian Red onions that lacked two ounces of weighing a total of seven and one half pounds. This variety of onion, which ranks in flavor with the better known Bermuda type, is finding increased favor among local consumers. Last year Mr. Finley marketed a ton of the product in Roseburg markets, and this year he has been called upon to deliver twice that amount. His output this year will approximate five tons, from one-third of an acre of ground, without irrigation. At present Mr. Finley is the only farmer near Roseburg growing the Italian Red onion in marketable quantity, but the increasing popularity of the vegetable will doubtless bring other men into the industry. discuss a dance act which she wanted him to place on his theater circuit.

Pantages Claims Threat. Pantages, who gave his age as 54, said that several weeks ago he had booked a vaudeville act of Miss Pringle, which after a week's tryout proved a failure. For the past several days the girl had frequented his offices, the theater owner stated.

He charged that the girl had threatened that she would "make him look" her act. An attempt late last night to have Pantages arraigned in night court in an effort to gain a release on bail failed when Captain John Brattig of the favorite division refused to allow his removal from his jail cell.

District Attorney Byron Pitts said that a complaint would be filed today against the theater owner, at which time he would be called for preliminary hearing. Miss Pringle, the daughter of Dr. Earl Pringle, graduated from Garden Grove high school in 1925, the youngest of her class. Her mother is a teacher of commercial subjects in the schools there.

65,842. The first addition to this amount came with Mr. Leedy's thousand. Shortly afterward L. S. Compton and J. H. Holloway who have been working in the Pringle and Yoneda vineyards showed that they had staved out 2390 and that prospects are they will get 10,000 before they have finished there.

H. C. Garner, after three days in the Myrtle Creek and southern Douglas county sections, turned in 2275 to add to the list. George W. Burt added 1600 from the Brock way and Camas Valley districts and Othmar Walker of Coos Junction reported 400.

This brought the grand total to 73,317 at a hourly after a week's work this morning, with some poultry on half failed when Captain John Brattig of the favorite division refused to allow his removal from his jail cell.

More Still Coming Prospects are that within the next few days at least 80,000 hens will be on the list. Tomorrow Douglas county poultrymen go to Coquille to attempt to sign up approximately 15,000 hens from that section. It is predicted that as soon as the state is established even more will be added.

Mr. Clark and other officers of the association in a statement today extended their commendations to poultrymen who have joined in the effort to get the statute. The move will mean much to the county as well as to individual growers, they declared.
