

Local News

Leave for Glendale— Joe Campbell and Frank Hills of this city left today for Glendale where they will spend the day on business for the Lockwood Motor company.
Visits on Business— Henry Shurtell, who is a garage owner and operator at Myrtle Creek drove to Roseburg yesterday to spend a few hours on business.
Here on Business— Mrs. V. Rydell of Elkton visited with friends in Roseburg yesterday. Mrs. Rydell is clerk of the union high school district at Elkton.
Visitors in City— Mrs. R. E. Brown and children visited in Roseburg yesterday from their home at Wilbur. They returned to Wilbur late yesterday afternoon.
From Supply House— George Stenger is a visitor here from Portland, coming down on business for the Stenger Barber Supply firm with which he is connected.
From Bandon— J. W. Sweet of the Sweet Timber Co. at Bandon drove to this city yesterday and spent the day on business here. Mr. Sweet returned to the coast city late yesterday.
Looking Over Bus— S. S. Shields of Bridge and other members of the school board from Bridge were visitors here yesterday looking over buses to be used as school buses this term.
Home from Vacation— Mr. and Mrs. Thomas Parkinson and daughter, Mary Joan, have returned from a fortnight's vacation trip. They visited at Yellowstone park and other points of scenic interest.
Business Caller— B. A. Shalhorn of Portland is here for a few days on business. Mr. Shalhorn is a territory man in this district for a Portland wholesale house and makes a regular trip to this city.
Logging Operator— Roy Neal of Rock Creek visited here yesterday on business. Mr. Neal is a prominent logging contractor of Rock Creek and reports considerable activity in the woods at this time.
Calls on Friends— H. E. Moore of Sutherlin called on friends in Roseburg yesterday. Mr. Moore is clerk of the Nonpareil school district and reports that everything is being arranged for a successful year at this time.
Official Here— M. A. Reed of Eugene is a business visitor in this city for a few days. Mr. Reed is superintendent of the Portland-Medford division of the Southern Pacific Motor Transportation company and is here inspecting the local business.
Hotel People Visit— Mr. and Mrs. A. F. Farrow of Beverly Hills, Calif., are guests of Mr. and Mrs. J. A. Harding at the Umpqua. Mr. Farrow is manager of the Beverly-Wilshire hotel in the California city. They are enroute home from a pleasure trip in British Columbia.
Home from Portland— Mr. and Mrs. J. A. Harding and Mrs. B. A. Butler have returned home after spending a few days in Portland. Mr. Harding attended a meeting of hotel managers in the metropolis and Mrs. Harding and Mrs. Butler shopped and visited friends in the city.
Here With Friends— Charles Zwiggert of Seattle and formerly of this city visited with friends here this morning. Mr. Zwiggert is enroute home after a trip to Yosemite park over the Redwood highway and in San Diego. He will leave this evening for his home in Seattle.
Leave for Eugene— Mr. and Mrs. W. F. Paterbaugh and daughter left yesterday for Eugene where they will visit for a short time. Mr. Paterbaugh, who was one of the proprietors of the Pioneer Cash Grocery, prior to the recent sale, is now looking for a new business location.
Completes Work— Miss Lenore Godfrey has completed her work in the office of the county school superintendent where she has been employed during the vacation months. Miss Godfrey will prepare for the opening of the school term at Astoria where she will teach this term.
Attend Convention— Mr. and Mrs. Thomas Parkinson motored to Klamath Falls Sunday, where they attended the MacMarr convention held in that city. Seventy-two MacMarr salesmen were present and enjoyed the get-together meeting. Mr. Parkinson is district manager of the MacMarr chain stores.
From Seattle— L. D. Gordon of Seattle is visiting here for a few days on business. Mr. Gordon is stopping with his brother, C. D. Gordon, of the Buick motor shop. L. D. Gordon was former editor of the Southwestern Oregon Daily News and recently sold his interests in the paper to Edwin Rose of Klamath Falls.
Going to Honolulu— Mr. and Mrs. Charles Wharton and daughter, Florence, left today for Portland. Miss Florence Wharton who is an instructor in the schools at Honolulu, will be joined in Portland by Miss Marietta Clague of Anaconda, Montana, who is also a teacher in the Hawaiian schools and the two young ladies will sail from Portland Saturday.

Sullen Convicts Forced Into Obedience

Amidst the ruins of Auburn prison, of which the woodworking shop is shown above, a snarling remnant of desperate men are being brought under control by the drastic measure of starvation. Warden Jennings, who allowed the prisoners to have much to say in running the prison, is more hurt by their renunciation of himself than the fact that they revolted. Eugene Faess, left, prison guard, was shot four times during the uprising, and Captain P. F. Morrizey, right of the Auburn fire department, although wounded, continued the battle against the flames until he collapsed and was rescued with difficulty.

CITY FORCED TO REINSTATE MENDER OF MARITAL BREAKS

Woman Averts Divorces in Nearly Half of Cases Brought to Her Attention—Idle British War Veterans Envy Female Wage Earners—Belgian Women Demand Dry Law—Better Day For Chinese Girls.
DALLAS, Texas, Aug. 21.—Miss Mildred Douglas, free legal aid welfare worker for Dallas, is regarded by the city's organized club women as a more valuable aid to domestic bliss than all Dallas ministers together.
The significance of her work probably was not realized by Miss Douglas herself until her \$109-a-month job was abolished a short time ago. Now she's back at her post, however, reinstated Mayor J. Waddy Tate has admitted publicly, that he made a mistake.
A tide of indignation arose when Miss Douglas' job was deleted from the city payroll. Club women from organizations representing 25,000 voters confronted Mayor Tate with petitions demanding that she be retained. The voters held sway and Miss Douglas came back.
"All the ministers do is marry them," the public petition said, in effect, referring to her work as a mediator. "Miss Douglas keeps them together."
Marital Rights Mended
During her three years' service as a humanitarian influence at the city hall, Miss Douglas has averted divorces in approximately 50 per cent of domestic cases brought to her attention. Hundreds of deserted wives have sobbed their stories to her.
She also has found time to wage a determined war against Dallas loan sharks. Hundreds of the city's poor, in financial straits and harassed by unscrupulous money lenders, have found a friend in Miss Douglas.
While her work primarily lies outside the court room, Miss Douglas has proved herself an astute attorney when her efforts to effect reconciliations have failed.
Women Toller Gain
LONDON, Aug. 21.—The "girl I left behind me" of the old wartime song has become the "girl who got there ahead of me" in these days of peacetime unemployment.
Such is the complaint voiced by many British ex-servicemen who, out of work and discouraged, see and hear and read about the growing army of women workers in Britain—most of them young women of marriageable age.
Right or wrong, these jobless men of 20 with the war years behind them feel there is a very real connection between the number of women workers in industry and the size of the male army of unemployed.
One field of wage-earning skill is uncrowded with women—the field of domestic service. Maids and cooks are so far from being a drug on the market that they actually are hard to find.
And so some of the younger men are beginning to take what the girls will not have. They are working as house-boys and cooks, solving at the same time the bread-and-butter question for themselves and the "servant" problem for their employers.
Male Servants O. K.
Oddly enough, employment agency executives say the masculine domestic workers are becoming more popular with those who have tried them than the parlor maids and other feminine help they used to have.
Boys can be hired quite as cheaply as girls. It is explained and they stay longer.
"Besides," said one employment agency official, "they are more obedient."

DESERTED VESSEL REPORTED ON FIRE

NEW YORK, Aug. 21.—The Radio Marine corporation today received a wireless message from the freighter Yalza stating she had seen the steamer Quimistan on fire and deserted about 1100 miles east of Norfolk, Va.
The Quimistan was well down in the water, the message said, and was a menace to navigation. The ship was formerly a Honduran vessel but recently was sold to German interests to be scrapped. It was bound for Genoa, Italy, from Norfolk.
The Yalza is an American freighter from Baltimore.
DR. W. H. BELKNAP BEST ORATOR OF KIWANIS
SALEM, Ore., Aug. 21.—Dr. Wilford H. Belknap of Portland was adjudged winner of the Kiwanis speaking contest which was a feature Tuesday of the northwest district Kiwanis convention. Six other speakers participated in the oratorical competition, each speaking on a Kiwanis topic. The speakers were allowed five minutes each.
Fruit picking bags at Wharton Bros.
Engines and motors for drier fans are sold at Wharton Bros.

Peach Pie Expert Enters Politics

Mrs. Rebecca F. Hoffman, widow of New York jurist, believes home duties are no bar to politics so decides to test her theory in election this fall.
Mrs. Rebecca F. Hoffman, widow of Judge Benjamin Hoffman, of New York, has been nominated on the democratic ticket for the office of registrar.
Upon receiving news of her nomination Mrs. Hoffman stated modestly that she was confident she would be elected, and if successful in her ambitions would be the second woman in her county to hold an elective office.
"Good food and good politics," she pointed out, have been responsible for the success of her family and those who know her feel that her political activities will be as enduring as the remembrance of the taste of her now famous peach pie.
Speaking of the charming old-fashioned house where she has lived for the past thirty years, Mrs. Hoffman said:
"We have always lived in the sixth district. I was born on Second street, between Avenue A and Avenue B, went to school in this neighborhood, married and settled down here. My children were all born and married in this house and it was in this room that we used to celebrate my husband's political success."
Answering the telephone and opening congratulatory letters and telegrams has occupied Mrs. Hoffman's time since news of her nomination. Can a woman tend to her home and politics at the same time? Mrs. Hoffman is a vivid example that it can be done. She not only takes care of her large home, but finds time for politics and bridge.

NORTHWEST ROADS PUT EMBARGO ON RYE, BARLEY, OATS

(Associated Press Leased Wire)
ST. PAUL, Aug. 21.—All railroads in the northwest today ordered an embargo on shipments of rye, barley and oats from August 23 to August 31 in compliance with recommendations made yesterday by the Northwest Shippers' Advisory board.
Lack of storage space at terminal elevators and warehouses in Minneapolis, St. Paul, Duluth and Superior, was given as the reason for the embargo. Officials of the shippers advisory board said they hoped further embargoes might be avoided, although the movement of grain about September 1 will govern the decision at that time.
Loading and unloading of cars at terminal markets have been delayed. It was pointed out, because of sluggish demand for rye, barley and oats, which have been supported in unusually heavy amounts for this time of the year. The heavy movement of these grains has hampered movement of wheat, corn and flax, for which there is a more active market.

HOME POINTERS

(From School of Home Economics)
For making jelly, a half and half mixture of under-ripe and ripe fruit gives the best results, as the under-ripe gives the texture and the ripe the flavor. If the fruit is all over-ripe, one tablespoon of lemon juice, added to each cup of fruit juice just before it is combined with the sugar, will improve the flavor, texture and clearness of the product, particularly of blackberry jelly.
The nutritive value of vegetables is easily preserved by care in cooking. Over-cooking greatly increases loss of vitamins and minerals, and is harmful to color, texture and flavor. Soaking vegetables in cold water before cooking also tends to cause loss of minerals.
The best sources of Vitamin B are tuber and root vegetables, leafy vegetables, milk, fruits, cereal grains, yeast, nuts and glandular organs, such as liver and kidneys. Lack of Vitamin B is often responsible for loss of appetite and lowered resistance to disease.
It is best to wash thoroughly all fruits and vegetables that are to be eaten raw, for even though they look clean, harmful bacteria may cling to skins and leaves.
Left-over cooked food is best kept cold and covered, used promptly, especially in warm weather, and if possible, heated thoroughly before being served again. Dangerous poisons sometimes develop in such foods, without making noticeable changes in taste or smell.
Shafting, boxes and pulleys for drier fans are sold at Wharton Bros.

Getting Enough

Jack Quinn, Philadelphia Athletic pitcher, who will be 44 his next birthday, is making fans wonder what keeps his joints from squeaking in every pitch he makes. Jack has decided to retire from the game after the end of the present season. If he does, he will have completed 29 years as a twirler, 16 of them in the majors.
A Welsh rarebit for four will taste better than one for 400
The big rarebit would certainly be tough and stringy. And coffee roasted in bulk cannot have the matchless, uniform flavor of Hills Bros. Coffee which is roasted a few pounds at a time. This patented, continuous process controls the flavor.

COAC NOW BROADCASTING MARKET NEWS SERVICE

OREGON STATE COLLEGE, Corvallis, Aug. 21.—Through the installation this week over the college radio station, COAC, of prompt and regular market reports, farmers and others in even the more remote sections of Oregon are now enabled to learn the day's markets and prices, being served and to take advantage of any sudden changes.
The new service is provided by tapping the government leased market news wire recently put into operation by the U. S. bureau of agricultural economics. L. H. Briefhaupt, extension specialist in agricultural economics, assembles the reports and prepares them for immediate broadcasting. Earle Greer of Kansas City, who has had more than 15 years' experience in handling reports for various government market news services, has been engaged by the college to take the reports from the wire, which is directly connected with the trunk line from San Francisco to Portland, Seattle and Spokane.
Only livestock markets are being handled for the present, but it is planned to include wheat and other commodities as soon as the service is operating smoothly. Broadcasts are being made at 12:25 and 8:29 p. m.

Getting Enough

He is longed for and prayed for and when he arrives he is paraded and spoiled. Wage earners are the thing out here, the boys earn much more than girls. It has been the custom of centuries. A girl is not wanted, but the new regime would change all this, or at least put all the little Chinese mission on an equal footing, in parental eyes, with the tiny male members of the family.
SHANGHAI, Aug. 21.—One of the hopes of the nationalists is to give baby boys. The Chinese boy for ages has had much the best of it all around.
He is longed for and prayed for and when he arrives he is paraded and spoiled. Wage earners are the thing out here, the boys earn much more than girls. It has been the custom of centuries. A girl is not wanted, but the new regime would change all this, or at least put all the little Chinese mission on an equal footing, in parental eyes, with the tiny male members of the family.

SOCIETY

By MILDRED RYDON
Complimenting Miss Dorothy Smith whose marriage to Edward Perrin of Roseburg will take place September 1, Mrs. Gordon Black, Mrs. A. E. Luther, Miss Frances Gram and Miss Evelyn Cummings of Salem entertained Saturday evening with an interesting supper and shower at the Black home on North Summer and Hood streets in Salem.
Local members of the I. O. O. F. lodge will enjoy a picnic given by the Roseburg lodge this evening at Embury park. The affair will begin at 6:30 o'clock and a pot luck supper will be served.
Miss Evelyn Murray and Lloyd Garrett of Canas Valley, were united in marriage at the Methodist Episcopal parsonage on Saturday morning. A number of friends and relatives witnessed the ceremony, read by Rev. Charles A. Edwards read the ring service. They were unattended and left for a trip to Crater Lake and Klamath Falls vicinity.
Miss Ellen Guille and Albert Weiss were married on Sunday morning at the Methodist Episcopal parsonage. A number of friends and relatives witnessed the ceremony, read by Rev. Charles A. Edwards. After a wedding breakfast the newly married couple left for California to spend about two weeks.
The Women's Missionary society of the M. E. Church South will hold a special meeting at the church parlors Thursday afternoon at 2:30 o'clock. A good attendance is desired.

SUPPORT OF INDIGENT PARENTS IS ORDERED

(Associated Press Leased Wire)
MEDFORD, Ore., Aug. 21.—The Jackson county court today served written notice on sons and daughters of aged and indigent parents that they must contribute to their support or prosecution would be started under the Oregon law covering the dereliction. There are two known cases of this nature, the court said.
All McCormick-Deering tractors and engines have removable cylinders that can be replaced at low cost. This doubles the life of the machine. Wharton Bros., agents.

Farm Notes

Culling the poultry flock in August and disposing of those birds that have stopped laying, and feeding a moist mash at noon to the balance of the flock, is considered a much better management plan than putting the birds through a false or forced molt, believes the Oregon experiment station. When the days begin to shorten, the lights may be turned on and the birds given about a 13 hour daylight day. This practice keeps the hens laying well until late in the winter, and often until early spring when they usually molt and can be marketed. Birds forced to molt late in the summer have a strong tendency to go into a natural molt in October or November.
For rapid decomposition, it is necessary that green manuring crops contain at least 2 per cent

of nitrogen, says the Oregon experiment station, and recommends the following cover crops for use in this state: Vetch and barley for use in the Willamette valley, the winter-hardy Hungarian vetch for the heavy soils of the pear district of southern Oregon, and hairy vetch for the Hood River valley and Columbia basin, where residue from irrigation permits starting growth before fall rains occur.

The most certain means of controlling blackhead of turkeys is to prevent its development by artificial hatching and brooding and rearing the fowls on ground not used for poultry of any kind previously, and upon which no poultry droppings have been spread, says the Oregon experiment station.
