Glendale Presbyterian Church. J. K. Howard, pastor. 10 a. m., Bible school; the attendance increases. 11 a. m., morning worship with sermon by the pastor on "Faith's Faltering Footsteps". If your faith falters and is weak this sermon may help you. 7 p. m., Young people's meeting. 8 p. m., a Labor Day service. "The Real Significance of Labor Day" will be the theme of the sermon. What relation has Christianity to the labor movement? This is one of the questions to be discussed. All laboring men are invited to attend. Some good music will feature the program.

First Baptist Church, Lane at Rose. Frank R. Matthews, pastor. Sunday, September 1: 9:45, the bible school. The time has come for all members to get back on the job and we hope you are with us in the Sunday school. Rally Day is September 15 and that date is near on us. 11 o'clock, morning worship. The pastor will preach on the topic, "The Day of the Cross." Communion service to follow the sermon. 7 p. m., the B. Y. P. U. for young people. 8 o'clock, the evening service. Mrs. Mattie Lee Taylor will be the soloist for the evening. All regular members of the congregation urged to be present and help us to get well started. At this time we are resuming our Sunday night services. In the past the church and the city have supported these services so well that they have been the best and the best of the west. This year it is our hope to make the Sunday night meetings better than ever and we invite to them all who are not affiliated elsewhere. The pastor will open the season with a sermon on "Happy Valley". According to his custom, he will answer the following questions: (1) Is it wrong for a minister to seek popularity? (2) Do the "wets" love liberty more than the "drys"? (3) Just where does the New Testament authorize the office of pope? (4) Why do boys go wrong? (5) Did Jesus teach that Satan is another name for our meanness?

Be on time to start in the community song service. The service will be of interest every minute. Let's worship together on Sunday evening. Wednesday evening prayer service at 7:30 p. m. We extend to you a special invitation to worship with us on this occasion. If you are a stranger in town, we give you a hearty welcome. John B. Penhall, pastor.

SALEM-TO-ALBANY SECTION OF RIVER HAS NO POLLUTION

(Associated Press Leased Wire)

SALEM, Ore., Aug. 30.—A crew under the direction of Dean H. S. Rogers of Oregon State college that is analyzing the water of the Willamette river, states, in a preliminary report, that no serious pollution was found between Salem and Albany. The work is in cooperation with the state board of health and the league of Oregon cities.

The tests started near Eugene and will extend to Portland. The crew is now below Oregon City. Tests have been made, it is reported at over 40 points, extending the full width of the river. The tests are made every hour for 24 hours at each point.

JACK DEMPSEY CALLS ON WISCONSIN SOLONS

(Associated Press Leased Wire)

MADISON, Wis., Aug. 30.—Jack Dempsey yesterday offered to take the membership of the Wisconsin legislature on for a whirl at fisticuffs, one at a time, and found no takers.

"I hear you have a reputation as a scrappy bunch, but I'll meet you in the ring anytime," Dempsey said.

The former heavyweight champion was a guest of the state senate during the day.

LADY HEAT HAS GOOD CHANCE TO ESCAPE DEATH

(Continued from page 1)

Lady Heath was piloting the plane in a glide over the Mills company factory roof, when it started to drop. With her motor dead, the pilot was unable to lift the plane, and it struck a guy wire to a chimney on the factory roof.

Kirk jumped just before the plane crashed through the roof. A moment later, Lady Heath was buried in a mass of wreckage inside the factory.

The mechanic then risked his life to jump through the hole in the roof to Lady Heath on the factory floor, 25 feet below. He broke an ankle and three fingers were cut off by glass in his leap.

Lady Heath was unconscious when removed from the wreckage but recovered later.

Lady Heath gained prominence in the aviation world in a flight across Africa early in 1928.

British officials attempted to stop her flight but finally allowed her to proceed at her own risk. She made a 10,000 mile flight from South Africa to Croydon field, England.

The former Mrs. Elliott Lynn, she married Sir James Heath in 1927. She arrived in the United States last year and had done extensive flying throughout the country.

She had made several unsuccessful attempts to establish a new altitude record and was the first woman to receive an aviation mechanic's license from the department of commerce. The license was issued to her last February.

Since coming to this country she announced her intention of becoming a United States citizen and recently obtained her first naturalization papers.

Pilot and Pupil Die

RAPID CITY, S. Dak., Aug. 30.—Captain W. W. Spain, assistant instructor at an aviation school, and William C. Kearns, 18, student flier of Marysville, Kans., were killed in an airplane wreck yesterday. They spiraled from about 1,500 feet and apparently leveled at about 50 feet from the ground, stalled and nosed into the ground.

Chicagoans Still Aloft

CHICAGO, Aug. 30.—The endurance plane "Chicago—We Will," out to beat the 421- hour refueling endurance record of the "St. Louis Robin," continued to drone along above the sky harbor airport today with no indications that either plane or pilots were weakening.

At 4:31 a. m. the fliers, Russell Mosaman and C. E. Steele, had been in the air 161 hours—seven hours less than a week.

C. A. Lockwood of this city has returned from a brief business trip to Portland.

R. R. Pooley and W. J. Flanagan of Eugene left for their homes this morning after spending several days here on business. They will spend Labor Day in the university city and return here enroute to the coast cities the first of the week.

WHY?

Why do boys go wrong? Answer given at Baptist church Sunday night. Also four other questions.

LADY SPEEDSTER NAPS

(Associated Press Leased Wire)

THREE LAKES, Wis., Aug. 30.—Racing in little outboard motor boats may be breath-taking for some, but it causes no increase in Miss Shirley Reay's pulse rate.

Miss Reay fell asleep during a race yesterday and covered three extra laps before the judges could tell her the event was finished.

Cyst formation of chicken is a condition which occurs occasionally in most any flock, and is not of an infectious nature, says the Oregon Experiment station.

That age and health of the animal affect both the weight and strength of the fleece, as well as mutton production, is a fact carefully considered by the wool grower in culling his flock, says the Oregon Experiment station. It is believed that length and density mean less shrinkage after clipping. Fineness of fiber is also an important consideration.

To Deer Hunters

The hunting season is less than three weeks off, therefore it is essential that plans are completed early. Several important things enter into a successful hunt—good equipment, proper food, clothing and bedding, first aid equipment and GOOD EYESIGHT.

The law requires the killing of deer with horns only, furthermore they must be forked (two points) or better, and two such deer to each hunter. Therefore, it behooves every hunter in the woods with a gun to be doubly sure he SEES a deer with horns before he shoots.

As deer are plentiful in Douglas county, it is not necessary to shoot at every moving object or something that "looks like a deer." As a precaution against the killing of deer without horns, the crippling of others and the taking of human life, you owe it to yourself and every other hunter in the woods to have your eyesight checked before you go. If you wear bifocals you can have special hunting glasses made without the reading portion. These will give the maximum amount of range with keen vision. In any case if you have reason to doubt your vision have an examination. It may pay you well.

Complete line of Binoculars, Pocket Scopes and Bioscopes—indispensable equipment for hunters.

No need to cream *this* shortening —it's ALREADY creamed

new

Just imagine making cake with most of the work of creaming your shortening and sugar together already done for you!

For Snowdrift comes to you already creamed—and stays creamy. It's whipped up light and fluffy until it has almost the texture of whipped cream and then packed in air-tight cans. Just a few stirs of the spoon will mix it thoroughly into your sugar—and the mixture is in your oven in no time at all . . .

Snowdrift is now sold in new convenient three pound and six pound sizes—about as wide as they are tall so that you can scoop up the very last spoonful without rubbing your knuckles against the edge of the can. A new, fresh, inviting package too—decidedly modern in design. You can't help seeing these new Snowdrift cans on your grocer's shelf.
