Is your child undernourished?

Surprising results disclosed by New York survey

A survey of one million school children conducted by the Department of Health of the city of New York, disclosed that 20% of the children were seriously undernourished and in need of a physician's care. More than 60% were reported "on the border line" of malnutrition. Only a trifle more than 17% were found to be normal. This survey was not limited to the so-called poorer classes. It was representative of the entire city. It indicated that four children out of every five are in immediate need of a more carefully selected diet.

Mothers should see that their children eat sufficiently of milk, fruit and vegetable foods. The important step is to make these foods so enjoyable that children will eat them.

Authorities recommend a little sugar used judiciously to assist mothers in making foods appetizing. A small sprinkling of sugar on cereals, as one eminent food scientist phrases it, takes the "fight" out of eating cereal. Citrous and other fresh fruits, berries, stewed fruits, are made more appetizing by a dash of sugar. Wise mothers make junkets, blanc-mange, custards, and other milk desserts to encourage the eating of milk.

Note this: If you want to improve the taste of healthful vegetables just add a dash of sugar to them while they are cooking (preferably in little water). Try it and you will be amazed how much more tasteful the vegetables become. Candy, ice cream and cookies are recommended for dessert. A bit of sweet makes the meal complete. The Sugar Institute.

Are You Well and Strong?

"Before my third baby was born my husband advised me to take your medicine and he bought me three bottles of it. When I had taken the first one I began to feel better so I kept on during the whole period. We have a healthy baby boy and we are so proud of him and praise Lydia E. Pinkham's Vegetable Compound for the help it gave me. I feel lots stronger since I started to use it and would not be without it."—Mrs. Franz Laker, R. No. 1, Box 58, Lunkin, N. Dakota.
