

NEWLAND AND SON ENLARGE SPACE AND BUSINESS LINES

Finishing touches are being added to the indoor service station of J. O. Newland and Son. The local firm recently added 4000 square feet of floor space to their service station in preparation for more general service. A radio department, handling the Ford and Earl lines of radio, has been added with J. R. Webb in charge. The U.S. battery department has also been added to the business that already handled automobile parts, tire accessories, gas, oil, grease, necessities and general service work.

This enlargement is the outgrowth of nearly 14 years continuous automobile business. With the coming of winter, the indoor service business is expected to increase. Floor arrangement provides easy entrance and exit, as cars may be driven in and out either from street door without turning around or "cramping."

The mechanics with J. O. Newland and Son recently attended service school conducted in Detroit for a week under the direction of six experts from Detroit who had gathered information from service stations throughout the United States and condensed it into returns on the different departments of automobile service. The Newland firm claims that this service added to the years of practical experience of their mechanics, is worth thousands of dollars to their trade, and that it should be taken advantage of by owners of all makes of automobiles.

J. O. Newland and Son have parts for and are authorized to take care of Lockheed hydraulic brakes on all makes of cars in this territory. It is representative of the John-Manville brake lining service. It has the dealership rights of Houdaille shock absorbers, and handles other makes of shock absorbers. The firm also handles many lines of nationally advertised accessories and equipment.

KETCHELL, DEVLIN DRAW

(Associated Press Local Wire)
SAN FRANCISCO, Sept. 19.—Wesley Ketchell, Portland, and Chick Devlin, San Francisco, fought six fast ten rounds here last night. Ketchell earned a draw with a knockdown in the last round, up to which time Devlin was a slight edge. They are middleweights.

Remeth Crow, a salesman at the Montgomery Ward store, is improving at the Mercy hospital, following a major operation to which he submitted last week.

Plymouth motor cars are equipped with the "oil-vac" system of fuel feeding. In case the oil level in the motor gets too low, the gasoline supply is shut off from the motor. This protects the motor from running without sufficient oil, and damaging it. See J. O. Newland and Son.

Relief From Curse of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the laay, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.

AUTO VALVE "FACING"

J. O. Newland and Son have equipment for grinding valves for any make of car to the proper angle for the "seat." This machine trues the seat to the valve stem. Modern motors give "nicer" performance and are more sensitive to adjustment, therefore only the finest equipment should be used.

TRESPASS NOTICE

All persons are hereby warned not to hunt or in any way trespass on the C. L. Beckley ranch. MRS. MAY BECKLEY.

WHY WASH TABLECLOTHS?

Fabricoid table covers will save time and labor. Look like linen, wash like oilcloth. Beautiful new two-color covers. Also 54-inch Fabricoid by the yard in blue, green or rose. Carr's.
