SNAPPY PROGRAM IS ARRANGED FOR ANNUAL HI-JINKS

A well diversified program has been arranged for the annual football hi-jinks to be staged at the senior high school auditorium Friday night at 8:15 o'clock. Songs, skits, stunts and dancing will be presented by classes, students, faculty and townspeople, with "snaps" as the guiding feature. The program will open with a concert by the Roseburg Municipal Band, followed rapidly by a great variety of entertainment, all of original character.

Assisting on the program, Miss Naomi Scott, accompanied by Gladys Strong will play a violin solo, and "Shorty" Snyder will rattle the bones. Negro dialogue, a unique drill on the part of a group of boys, class and faculty stunts, jazz orchestra, skits and playlets will all enter into the entertainment.

INDIAN SUICIDES

KLAMATH FALLS, Ore., Oct. 3.—Thomas Barclay, 61, Klamath In-

dian, ended his life by shooting himself at his Sprague River home yesterday. Domestic difficulties are believed responsible. It is said his wife left him three weeks ago. He left a note naming three songs he wished to be sung at his funeral.

Relief From Curse of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause," bowels clogged the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderite at night. But immediate relief has been found. A tablet called Rexall Orderites has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating Next day bright. Get 21 for 25c today at the nearest Rexall Drug Store.

**HINDENBURG HALE AND HEARTY AT 82**  
BERLIN, Oct. 3.—Germany's president, Paul von Hindenburg, spent his eighty-second birthday Wednesday quietly in the bosom of his family at Schorheide, the presidential hunting lodge on the banks of beautiful Werbellin lake, about 35 miles north of Berlin.

The octogenarian's health was excellent, but the recent death of his sister made the event even more than formerly a family affair. His daughter Irmgard and his son Oscar were among those at the lodge. Throughout Germany local patriotic bodies arranged special celebrations in honor of the day.

**Women Are Free!**  
**AN ANCIENT PREJUDICE HAS BEEN REMOVED**  
Legally, politically and socially woman has been emancipated from those chains which bound her. AMERICAN INTELLIGENCE has exploded the ridiculous theory that forced the stigma of inferiority upon a sex.

**"toasting did it"**  
Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

**YEARS** ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful, corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

**LUCKY STRIKE CIGARETTES**  
"IT'S TOASTED"

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300° Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.
