She Was Almost A Nervous Wreck

"I am certainly happy over my new health and strength and it is a pleasure to recommend this different and remarkable Sargol treatment."

"For three years I suffered so much day and night with neuritis

and rheumatism I was almost a nervous wreck. My liver wasn't working right, I was dizzy and headache, nearly everything I ate gave me indigestion and I was continually taking laxatives. I lost weight, strength and energy. I've taken three bottles of Sargol along with the pills, every neuritis and rheumatic pain is gone, and I've gained ten pounds. My food agrees with me fine, I sleep well and am strong and full of energy! Sargol Pills did me of emaciation and my liver is toned up splendidly!"—Mrs. Carrie V. Seivert, W. 1926 Boone Ave., Spokane, Adv. Nathan Fullerton, the Rexall Drug Store, Agent.

Three Generations Endorse It

"When I was a young single girl I took Lydia E. Pinkham's Vegetable Compound because my mother did and she gave it to me. After I married I took it before my children were born and afterwards, and I have eight living children. I am now a grand-mother and still take it and still recommend it when any one is tired and run-down."—Mrs. Alfred Jackson, St. Edwards, Nebraska.

FOR DORMANT SPRAYING AVON SPRAY EMULSION

Starts another successful year with 30,000 acres under CONTROL

AVON SPRAY EMULSION COMES IN 32-GALLON DRUMS WITH 15-INCH QUICK-OPENING HEADS

LAST year the use of AVON SPRAY EMULSION increased 383.7 per cent over 1928.

Approximately 30,000 acres of choice deciduous orchard land—formerly handicapped by scale pests—are now under the control of AVON SPRAY EMULSION.

This sensational record pays silent tribute to the finer qualities claimed for this superior oil spray. Hundreds of successful deciduous fruit growers endorse its effectiveness.

They say it leaves more oil on the trees—that it is quicker-breaking than other emulsions they have used—that AVON SPRAY EMULSION stands for less waste—that it will not burn or damage a tree when used according to directions.

AVON SPRAY EMULSION is refined from selected crudes which experience has demonstrated the best suited for spray purposes. The crude is then refined by unexcelled methods. The result is a straight-cut oil emulsion of uniform quality which justifies its recommendation by scores of growers to their friends.

Join the successful growers who are getting "Finer Fruit and More of It" with AVON SPRAY EMULSION. Call at the nearest Associated plant and ask for the free literature on dormant spray oils, or better yet, arrange for an Associated Spray Advisor to drive out to your orchard. No obligation.
