State Press Comment

Our Criminal Code

(Portland News)
Criminologists and great thinkers who have turned their intellects to the study of the crime problem, believe that science offers the only solution. They point out the obvious fact that nearly all crime is committed by unruly and irresponsible youths, or by men who have been unruly and irresponsible in their youth. The crime problem must be attacked at its source. Science must play its part. Ancient criminal codes—we have such a code in Oregon—must be modernized. Crime prevention is far greater, far more important to society than law enforcement.

Roseburg Woman's Club To Have Important Meeting February 4

A most interesting afternoon is being anticipated by the members of the Roseburg Woman's club on February 4 at the club house. The program and refreshment committee composed of Mrs. W. R. Strawn, Mrs. C. W. Pakrer, Mrs. Richard Willett, Mrs. A. A. Richard and Mrs. W. M. Strolmeyer, has completed arrangements for a most entertaining and enjoyable afternoon.

The regular business meeting will be in charge of Mrs. C. G. McMillin, president. One of the most important speakers of the afternoon will be a nationally prominent woman, Miss Mary E. Finley, who is the field secretary of the national council for prevention of war. Miss Finley spent the summer of 1926 in Europe.

Salem will be the second city in Oregon to "dial." New mechanical telephone equipment is now being installed, and will be in operation there by December 1, 1930. This change to dial equipment, added to the cost of the recently completed central office building, represents an expenditure in Oregon's capital city of \$250,000.

A quality you would want if you knew all of the Facts

Anyone can make good coffee.
Schilling selects only the finest coffee beans—so can anyone.
Schilling blends them for flavor and body—so can anyone.
Schilling grinds them not too fine, nor too coarse—so can anyone.
Schilling seals them in Vacuum—so can anyone.
Schilling produces only the first grade—so can anyone—BUT only Schilling does it.
Contrary to common practice, Schilling specializes on one grade only. There are no 2nd or 3rd grade Schilling coffees—no cheap blends. The finest things usually come from those who make fine things only. There are many fine coffees—but where is the finest apt to come from?

fact No. 26. There are 43 facts about Schilling products. For example:—Take a spoonful of Schilling Ground Mustard and a spoonful of any other. Let them stand for a few hours on a piece of paper. Note how one of them soon has a ring of oil surrounding it and the other has not. Here is the reason. A mustard seed contains two oils. One is the flavor oil—the other absolutely flavorless. The latter runs out freely when the seed is ground—and offsets much of the richness of the flavor oil. But this fat oil is pressed out and removed from Schilling Mustard and from Schilling Mustard only. So that nothing is left but the flavor. That is why Schilling's has more flavor—and why you use less.

49 Spices :: Coffee :: Tea :: Baking Powder :: 32 Extracts
