(News-Review Douglas County Special)

MYRTLE CREEK, Feb. 10.—The Myrtle Creek high school basketball team defeated Riddle 22 to 13 at Myrtle Creek Friday. The game was exceedingly hard fought and spiritedly contested, the score not being indicative of the manner in which the teams were actually matched.

The members of both teams played good ball, although the work of Hoylman for Myrtle Creek and Marcum for Riddle featured the contest.

GLENDALE TO FILE FOR WATER RIGHT ON MILL CREEK

(Associated Press Leased Wire)

GLENDALE, Feb. 8.—Rights to all the water available in Mill creek at a point nearly a mile above the end of Molly street will be included in a filing to be made in behalf of the city of Glendale by William B. Leah, city recorder, acting on orders from the city council given at a special council meeting held Tuesday evening.

A committee consisting of Councilmen Smith, Wunsch and Nelson reported an interview with J. S. Woodroffe regarding his water rights on Mill creek. Mr. Woodroffe was reported saying if the city wanted all the Mill creek water it would be all right with him. However, Mr. Woodroffe was also reported as suggesting that in lieu of his water rights the city run a 2-inch pipe line from the city water mains to his place near Cow creek bridge. No action was taken by the council in this regard. After discussing the matter of water rights the recorder was instructed to file rights to Mill creek on behalf of the city.

Reporting on the condition of the city fire apparatus the committee said much of the present equipment is in usable condition. They reported most of the hose as being in fairly good condition. The two chemical tanks and chemical hose were found to be in need of a few repairs and replacement of parts and by having this done this part of the equipment would be usable for several years to come if given proper attention according to the committee. Recommendation was made that the truck chassis, on which is mounted the chemical tanks, should be replaced soon and that immediate steps be taken to secure estimates and prices covering this replacement.

A committee to act on building permits was appointed by Mayor Brown consisting of Councilmen Nelson, Belcher and Wunsch.

The council adjourned to Wednesday evening, February 12, when another special meeting will be held to canvas the results of the city bond election to be held Monday.

WILLING SUFFERERS

People grieve and bemoan themselves, but it is not half so bad with them as they say. There are moods in which we court sufferings, in the hope that here, at least, we shall find reality, sharp peaks and edges of truth.—Emerson.

(News-Review Douglas County Special)

GLENDALE, Feb. 10.—A large Ryan monoplane, containing a pilot and three passengers, left here late Saturday afternoon on its way to Seattle after having been forced to land at the federal emergency landing field east of this city shortly after noon because of unsafe flying conditions. Low-hanging clouds over the mountains in this portion of the state made a "low ceiling" that was hazardous to fly under and made for blind flying when the plane got above the clouds.

Weather reports secured from Roseburg indicated more favorable flying conditions north of here.

The plane was enroute from Los Angeles to Seattle and was piloted by W. A. Williams, director of sales for the Ryan Monoplane company of Los Angeles. His passengers were Mr. and Mrs. D. M. Davisson of San Francisco and E. L. Nutley of Oakland, Calif. Mr. Davisson is in charge of the automotive equipment for the Shell Oil company.
