MANY LATE FILM HITS ARE BOOKED BY LOCAL SHOWS

(By G. C. ARR)

Several outstanding pictures are booked for sowing at the Antlers Theater during the coming weeks. Among other things which will go to make the presentations better than ever is the installation of the new Western Electric sound device which will also include a new set of projection machines, a new especially constructed sound screen and the talking macinery.

The new outfit will be ready for use on Sunday, February 23, and the opening picture will be "Street Girl", featuring Betty Compson and Jack Oakie.

This week "The Lone Star Ranger" by Zane Grey plays Friday and Saturday. Richard Dix comes in "The Love Doctor", his latest talking picture, in which the recording is said to be much better than his earlier sound productions. Next Monday, "So This is College" opens for a three-day run. This song and dance picture is declared a comedy riot. Elliott Nugent, Robert Montgomery, Cliff Edwards and Sally Starr, all "discovered" since the advent of the talking films, are featured.

"Why Bring That Up", with the two black crows, Moran and Mack, comes to the Antlers March 4-6; "Sweetie," wit hNancy Carroll and Jack Oakie, comes March 9-10; "Sunny Side Up", with the stellar team, Charles Farrell and Janet Gaynor, is scheduled for March 11-12."Hallelujah", the all-Negro production, and, "Rio Rita", the big musical sucess featuring Bebe Daniels are both booked for early showings.

At the Liberty the management is preparing to initiate the installation of sound pictures with Harold Lloyd's "Welcome Danger". That will be on Thursday, February 20. From then on only first-run sound pictures will be shown at the Liberty, it is announced.

HOW FORD METHODS CUT COST OF DISTRIBUTION

Lower profits in selling save you at least $50 to $75 in addition to the many savings in manufacturing

TWENTY-SEVEN years ago the Ford Motor Company was formed to provide reliable, economical transportation for all the people. That original purpose has never changed. The constant effort in every activity is to find ways to give you greater and greater value without extra cost—frequently at lowered cost. This applies to distribution and similar important factors, as well as manufacture.

For the Ford Motor Company believes that its full duty is not only to make a good automobile at the lowest possible price, but to see that there is no waste, extravagance, or undue profit in any transaction from the time the car leaves the factory until it is delivered to your home. It is obvious that hard-won savings in production will be of little value if they are sacrificed later through excessive selling costs.

EVERY purchaser of a motor car has the right to know how much of the money he pays is for the car itself and how much is taken up by dealer charges. If these charges are too high, one of two things must happen. Either the price of the car must be raised or the quality lowered. There is no other way. The money must come from somewhere.

In the case of the Ford, the low charges for distribution, selling, financing and accessories mean a direct saving of at least $50 to $75 to every purchaser in addition to the still greater savings made possible by economies in manufacturing. *Ford charges are not marked up or increased to cover a high trade-in allowance on a used car.*

The profit margin on the Ford car has always been fair to both the dealer and the public. Within the past three months, it has been possible to effect still further economies. Today, the discount or commission of the Ford dealer is the lowest of any automobile dealer. The difference, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

THE business of the Ford dealer is good because he makes a small profit on a large number of sales instead of a large profit on fewer sales. He knows, too, that the extra dollar-for-dollar value of the car makes it easier to sell and more certain to give satisfactory service after purchase.

Consider also that the Ford car is delivered to the purchaser equipped with a Triplex shatter-proof glass windshield, an extra steel-spoke wheel, and bright, enduring Rustless Steel for many exterior metal parts, in addition to four Houdaille double-acting hydraulic shock absorbers and fully enclosed four-wheel brakes.

If for any reason you wish to buy certain small accessories, you will find that these, too, are sold at the usual Ford low prices. Replacement parts are also available at low prices through Ford dealers in every section of the country.

THESE are important points to remember in considering the purchase of a motor car. They show why it is possible to put so much extra quality into the new Ford and still maintain the low price. They are also the reasons why more than 35% of all cars sold today are Model A Fords.
