COOKING SCHOOL ECHOES
Good-Morning Biscuits
baked in a jiffy
Just try this time-saving scheme and we'll wager your family will have hot biscuits for breakfast often.
Whenever you make biscuits for the evening meal, mix up enough extra dough for the following morning. Have your biscuits all cut out, put them in the pan and keep them overnight where it's cold. All you have to do the next morning is to heat your oven and bake them.
Try this tested recipe for biscuits given below. Made with Crisco they are light, tender, fluffy and snowy-white. And, of course, their flavor is sweet. How could it be otherwise when the flavor of Crisco itself is so sweet and fresh?
2 cups bread flour
3 teaspoons baking powder
½ teaspoon salt
4 tablespoons Crisco
¾ cup milk or water (for "drop" biscuits)
or
⅔ cup milk or water (for "rolled" biscuits)
Sift dry ingredients together 3 times. Work Crisco in with fork. Add liquid gradually.
Form dough into shape, roll ½ inch thick, cut. For scone-shaped biscuits, cut squares, then diagonally in half. Brush top of biscuits with melted Crisco or milk. Bake in hot oven (450° F.) 15 to 20 minutes. Makes about 12 biscuits.

Taste Crisco
Then you'll understand why its own sweet, fresh flavor so improves the taste of your cakes, pies, hot breads, cookies and fried foods.
Crisco is a great time-saver. Easy to cream, easy to mix—winter or summer.

Crisco is the registered trade-mark of a shortening manufactured by The Procter & Gamble Co.

The Step-In
By Warner's
A completely boneless Step-In, with opening part way down the side, to allow one to put the garment on easily and quickly, is ideal for slender and average figures. The front and back panels are of rayon patterned corded novelty cloth—and there are two side panels of elastic over each hip. The elastic is especially reinforced at top and bottom by a strong strand of extra heavy rubber, running directly through the material, which keeps the panels in shape.
